MESSAGE FROM THE FOUNDERS

ABOUT US

Linda and Tila, the founders of Enhance Arts, saw an opportunity to modernize and streamline the spa and beauty industry. Drawing from the entrepreneurial spirit they witnessed in their immigrant parents, Linda leads the creative side of our services and fosters our community, while Tila oversees business development and operations. Together, they are the driving force behind our mission to revolutionize the beauty & spa industry and provide a truly exceptional experience for our clients.

At our core, we understand the significance of feeling and looking your best - with six sisters, both our founders have lived and breathed it. But for us, self-care isn't just about a superficial makeover. We're passionate about elevating your mental and emotional well-being as well. Think of us as your personal hype-girls for your mind, body, and soul.

In 2021, our shared vision became a reality with the launch of Enhance Arts. Our focus on self-care, high-touch customer service, and exceptional experiences culminated in the creation of a self-care destination unlike any other.
