HOW IT ALL FITS TOGETHER

We measure our performance by evaluating how we create value for our key stakeholders, taking into account our progress against our strategy, and by regularly measuring returns on invested capital. We understand the risks we take and manage these to minimise their impact on our business and results. We pursue growth by building an organisation that empowers people and enriches communities.

SCOPE AND BOUNDARY OF REPORTING

Financial and non-financial reporting

This Report constitutes the Integrated Annual Report as defined in terms of Malaysian law and extends beyond financial reporting. It reflects on non-financial performance, opportunities, risks and outcomes attributable to or associated with stakeholders who have a significant influence on our ability to create value. Our reporting coverage is based on group-level disclosure unless stated otherwise. There is no significant change to our structure, ownership and supply chain during the reporting year. Group reporting standards are continually being developed to make disclosure meaningful and measurable for stakeholders.

MATERIALITY AND MATERIAL MATTERS

We apply the principle of materiality in assessing what information to include in our Integrated Annual Report. This Report focuses particularly on those issues, opportunities and challenges that impact materially on the Group as well as on its ability to be a sustainable business that delivers value to key stakeholders, including our shareholders.

THE LEGISLATION AND FRAMEWORKS THAT INFORM OUR REPORTING

This Integrated Annual Report was prepared against local and global standards, including:

- International Integrated Reporting Council (IIRC) Framework and Sustainability Accounting Standards Board (SASB)

FORWARD-LOOKING STATEMENTS

This Report contains forward-looking statements concerning our business. These forward-looking statements are subject to a number of risks and uncertainties, many of which are beyond our control and all of which are based on our current beliefs and expectations about future events. Forward-looking statements are typically identified by the use of forward-looking terminology such as “believes”, “expects”, “may”, “will”, “could”, “should”, “intends”, “estimates”, “plans”, “assumes” or “anticipates”, or the negative thereof, or other variations thereon or comparable terminology, or by discussions of strategy that involve risks and uncertainties. These forward-looking statements and other statements contained in this Integrated Annual Report regarding matters that are not historical facts involve predictions.

While we believe these statements are reasonable, they inherently involve risks and uncertainties, however, we shall fervently work towards the results and developments outlined in the said statement. Such risks and uncertainties could cause actual results to vary materially from the future results indicated, expressed or implied in such forward-looking statements.

The forward-looking statements contained in the Integrated Annual Report speak only as of the date of the Report. We are not under any obligation to (and expressly disclaim any such obligation to) revise or update any forward-looking statements to reflect events or circumstances after the date of the Report or to reflect the occurrence of unanticipated events. We cannot give any assurance that forward-looking statements will prove correct and investors are cautioned not to place undue reliance on any forward-looking statements.

Global Offices

Our Business Overview

Established in 1991 and headquartered in Malaysia, Top Glove Corporation Bhd began as a local business enterprise with only 1 factory and 1 glove production line. The Company has since become the world's largest manufacturer of gloves with manufacturing operations in **Malaysia, Thailand, China** and **Vietnam**. The Company also has marketing offices in the **USA, Germany** and **Brazil**. Top Glove has over **2,000 customers** worldwide and exports to more than 195 countries.

Listed on the Bursa Malaysia Stock Exchange (2001) and the Singapore Exchange Main Board (2016), it is also one of the component stocks of the FBM Top 100 Index, FBM Emas Index, FBM Hijrah Shariah Index, FBM Emas Shariah Index and the Dow Jones Sustainability Index ("DJSI") for Emerging Markets.

Top Glove has an established corporate culture and good business direction of producing consistently high quality, cost efficient gloves. Top Glove offers a comprehensive product range that extends beyond gloves and includes products such as dental dams, exercise bands, latex sheets, tourniquets, condoms and face masks.

In line with its commitment to sustainability and delivering value to stakeholders, Top Glove continues to level up its practices in the Environmental, Social and Governance ("ESG") space. The Company's robust commitment and investment in sustainability was recognised both by its stakeholders and the industry.

Top Glove maintained its inclusion on the DJSI under the Emerging Markets category for the fifth year running, ranking within the top 3% amongst industry peers within the Health Care Equipment & Supplies industry; while for the FTSE Russell ESG Ratings, it delivered an improved ESG score which elevated it to rank amongst the top 13% companies in the Healthcare Sector. The Company also maintained its inclusion in the 2023 Bloomberg Gender-Equality

Index for the second year running, a testament to its commitment in creating a gender-neutral workplace, in line with 2023 being declared as the 'Year of People Excellence'. Top Glove was also honoured with the Distinguished Social & Community Care Award in the Company of the Year (Manufacturer: Rubber Gloves) category at the Sustainability & CSR Malaysia Awards 2023.

Top Glove was driven by the Top Glove Turnaround Plan to set its foot on the path to recovery. As the glove industry progresses towards recovery from a protracted period of demand supply imbalance, the Company's focus will be on improving the performance of its core glove business. Top Glove maintains a positive industry outlook as gloves are an essential, single use item in the healthcare, industrial and F&B sectors with no viable replacement, a strong indication of continual demand growth for gloves. The Company takes a long-term view in the promising prospects of the glove sector and continues to improve and innovate while implementing sustainable business practices, as it moves forward onto recovery and beyond.

Details of our Stakeholder Engagement, including stakeholders, engagement channels and frequency, top 5 material matters concerned, responses to concerns, value created and capital can be found on page 18 of this Integrated Annual Report.

For detailed reporting of our annual ESG issues management and progress in FY2023, please refer to the Sustainability Report 2023.

Letter to Stakeholders and Management Discussion & Analysis

FORGING AHEAD ON THE PATH TO RECOVERY

TAN SRI DR LIM WEE CHAI
Executive Chairman

LIM CHEONG GUAN
Managing Director

“ Good health and good day Fellow Stakeholders.

The financial year in review has proven to be a turbulent one for the Group, and an equally unsettling period for the glove industry at large. Formidable challenges in the operating terrain which emerged in 2022 did not abate, and we continued to contend with multiple headwinds well into 2023. Despite best efforts and resolute action to stem the decline, we closed the books on our financial year with a net loss for the first time since our listing on Bursa Malaysia.

Irrefutably, the road traversed has been a difficult one. However, be assured that all is far from lost. The business landscape may have altered drastically, but glove industry fundamentals remain robust and unchanged; and our resolve to overcome and outlast this difficult season, more fervent than ever.

Our gameplan for a turnaround is already in play. Ongoing efforts are bearing fruit. As we step into the new financial year 2024, our single minded focus will be on the path ahead of us: the road to recovery, on which we have already set foot and will continue to move forward strongly.

Letter to Stakeholders and Management Discussion & Analysis

MANAGEMENT DISCUSSION AND ANALYSIS

Resilience Amidst Challenge & Change

For Financial Year 2023 (FY2023), the Group posted Sales Revenue of RM2.26 billion and Loss After Tax of RM886 million, as the glove industry gradually emerged from a protracted period of demand supply imbalance. The Group's full year Loss After Tax factored in an impairment on goodwill, and impairment and write-off for property, plant and equipment; without which a narrower net loss of RM481 million would have been recorded.

The softer performance compared to FY2022 came on the back of a myriad of challenges, which tested our resilience and adaptability as an organisation. Glove destocking persisted, driven by excess customer inventory, which resulted in a sluggish order trend. Compounding this was glove oversupply from new expansions during the pandemic, increased competition from new overseas entrants with sizeable capacity, coupled with a lack of customer urgency to place orders given the shorter delivery times arising from lower manufacturer utilisation. In addition, average selling prices did not move up in pace with escalating production costs and continued to moderate. These collectively took their toll on the Group's results, in consideration of which the Board did not declare a dividend for FY2023. Notwithstanding this, the Group remains committed to creating value for its shareholders and will maintain its Dividend Policy, in place since 2017, which stipulates a 50% dividend payout ratio of its Profit After Tax and Minority Interest (PATAMI).

Positioning for a Comeback: The Top Glove Turnaround Plan

Managing in turbulent times calls for a different approach; which entails focusing on internal factors within our sphere of influence, rather than external forces which are not within our control. Accordingly, our efforts were channelled towards reinforcing our fundamentals, positioning us to navigate the choppy waters and prepare for recovery.

To ensure the Group was poised for recovery, we devised the **Top Glove Turnaround Plan (T6)**, a vigorous 6-point strategy, with a view to:

- 1 Boosting sales volume
- 2 Enhancing quality
- 3 Consolidating facilities
- 4 Enhancing people productivity
- 5 Strengthening cash flow position
- 6 Optimising supply chain

▲ Top Glove's Virtual 24th Annual General Meeting held on 6 January 2023

Letter to Stakeholders and Management Discussion & Analysis

Spearheaded by senior leadership, we expect the T6 to serve as a primary catalyst for our rebound. The initial phases of T6 saw the rollout of robust quality and cost optimisation measures, which included streamlining of production facilities and manpower across the Group's operations. These have proven effective, substantially reducing impact on our bottom line and enabling a return to positive cashflow and EBITDA for 4QFY2023. With continual implementation, our target is to chart a continual uptrend in terms of positive EBITDA and positive cashflow from operations, and achieve profitability thereafter. The Group also notes that the natural gas tariff in Malaysia has been on the decline on the back of a global downtrend, leading to the energy cost per carton narrowing between natural gas and coal. This is expected to render the Group as well as the Malaysian glove industry, more competitive versus China based glove manufacturers going forward.

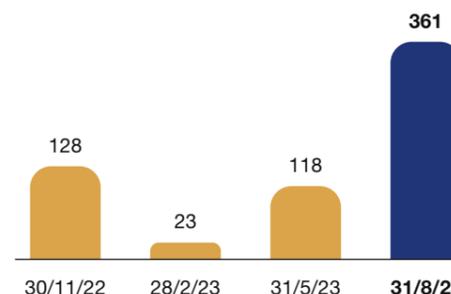

The Group will also continue to assess and identify the manufacturing facilities across our operations in Malaysia, Thailand and Vietnam which are able to provide optimal efficiencies. Additionally, we have in place blueprints to diversify our product offerings and expand our reach in emerging markets. As we keep improving our products and manufacturing processes while the market further consolidates, we are optimistic of steering the Group through this trying season, to resume our place at the forefront of the glove industry.

As presented by the Malaysian Rubber Glove Manufacturers Association (MARGMA) during the Consultation Session for Budget 2024 with the Ministry of Finance, we look to the Malaysian government for their unequivocal support of our recovery efforts, particularly with regard to the following:

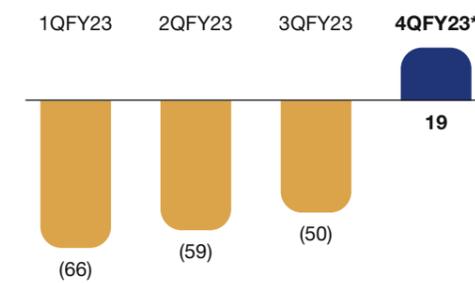

- ▶ A swift **review of the Gas Supply Agreement** by the Energy Commission, towards changing the pricing mechanism from the existing *Reserved Capacity with Take Or Pay* terms and conditions, to *Pay As Per Usage*.
- ▶ To **supply natural gas at cost to the Malaysian rubber glove industry**, lowering our energy costs and improving the competitiveness of local glove manufacturers. This will also enable Malaysia to use our natural oil and gas resources to create value added exports, which will have a far greater contribution to our country's economy.
- ▶ **Removal of 0.2% export cess** with immediate effect.

CORPORATE DEVELOPMENTS

Fortifying Our Board

The Group saw developments in the Boardroom over the course of the financial year. At its Annual General Meeting 2023 on 6 January 2023, the Group appointed 2 new Independent Non-Executive Directors, Dr Chong Su-Lin and Ms Rowina Ghazali Seth, taking its female board participation to an impressive 42%, surpassing the best practice benchmark of 30%. The new Directors bring with them a wealth of experience in the areas of healthcare and corporate affairs respectively, better placing the Group to navigate the challenging season while enriching its board composition.

Letter to Stakeholders and Management Discussion & Analysis

Paving the Way for A Greener Tomorrow

We are mindful that our actions have the power to shape not only the present but the future of our planet. The temporal challenging times have not derailed our focus on sustainability, which we continue to integrate into our daily business operations. We remain committed to advancing our ESG agenda and intent on transitioning into a low carbon and ultimately, a net zero carbon business.

Crafting A Sustainable Glove Roadmap

Since the debut of our revolutionary *Biogreen™ Biodegradable Nitrile Gloves* in 2019, our sustainable product range has continued to gain momentum, with Sales Volume for the *Biogreen™* series surging by close to 800% since 2019. We continue to diversify our product range, incorporating cutting edge sustainable features that resonate with an increasingly eco-conscious world. Our journey has witnessed the introduction of our *Biodegradable Series* and groundbreaking *Renewable Series* of gloves. Moving forward, we are assessing the environmental impacts of *Biogreen™* products using our in-house Life Cycle Assessment (LCA) expertise, towards shaping a greener and brighter future.

Biogreen™ Biodegradable Series
Specially formulated to biodegrade in biologically active landfills through a microbial process, providing an “end-of-life solution” to landfills by reducing the accumulation of waste.

Biogreen™ Renewable Series
Manufactured with FSC certified materials for responsible environmental, social and economic practices, or plant-based material for carbon footprint reduction.

Utilising Lower Emission Fuel

85% of our manufacturing activities are powered by natural gas which requires significantly less energy to produce a carton of gloves, making it more energy efficient and environmentally friendly as compared with coal utilised by some of our overseas peers. Natural gas also has a substantially lower carbon footprint, generating 18.53kg of CO₂ per carton of gloves produced, in stark contrast to coal which emits 31.25kg of CO₂ per carton of gloves.

Committed to Business and Human Rights

The Group remains steadfast in its commitment to upholding the United Nations Guiding Principles (UNGPs) on Business and Human Rights (BHR). Underscoring this, the Group has embarked on the process of formulating its BHR Policy to which end, meetings are held between Board and Management on a regular basis. The Board of Directors and Senior Management will also renew their pledge in support of the UNGP BHR in January 2024.

Leveraging Technology for Enhancement & Resource Optimisation

Leveraging our data analytics platforms, we deep dived into each of our manufacturing processes to determine the optimal configurations of parameters such as oven temperatures, enabling us to consistently produce quality gloves with efficient use of materials and resources. The capabilities of our industry leading AIVC (Artificial Intelligence Vision Camera) systems have also been extended from inspecting gloves to identifying glove formers which are due for replacement as well.

Energy efficiency remains a foremost priority and extensive audits are conducted regularly to identify and implement targeted energy saving initiatives, which include improved heat recovery systems and burner optimisations for efficient gas energy usage. We also increased our usage of renewable energy by expanding our installed solar capacity, thereby demonstrating our commitment as a responsible manufacturer to the environment.

Furthermore, we made great strides in water sustainability in our manufacturing processes, through initiatives such as expanding the capacity of our water treatment plants, as well as capturing more rainwater for manufacturing use. Through these efforts, in addition to reducing consumption of municipal water supply, we are able to play an active part in mitigating flooding in the areas surrounding our factories.

Letter to Stakeholders and Management Discussion & Analysis

Onward & Upward: To Recovery and Beyond

We have concluded FY2023 on a far less vibrant note than we had hoped. However, our subdued set of results is largely the consequence of a temporary glove oversupply situation coupled with pandemic driven customer stockpiling. Notwithstanding this, the reality is that glove industry fundamentals remain solid and its prospects are as strong as ever.

Fact

Gloves will always be an essential item in the healthcare, industrial and F&B sectors with usage expanding rapidly to other industries.

Fact

Gloves continue to be a single-use item with no viable replacement, stimulating continual demand growth.

Fact

While we have been experiencing a period of lower glove demand, actual glove usage itself has not decreased. Conversely, glove usage has risen post-pandemic spurred by elevated levels of hygiene and health awareness.

In light of these immutable truths, we know we are capable of so much more, both as a business and as an industry. Despite a difficult road ahead for the interim, we are filled with a profound sense of optimism for the future, encouraged by the uptrend in glove orders which indicates customer glove inventory build-up from the pandemic is close to bottoming out. As the glove oversupply situation also continues to ease, we believe it is a matter of time before global glove demand resumes a more reflective 8% to 10% growth per annum. With this, we have every confidence that we are well on our way to recovery and that the long-term outlook for the glove industry can only grow brighter over time.

In Appreciation

As we reflect on the past financial year, we do so with a tremendous sense of gratitude for the many people whose support has enabled us to skillfully navigate a most challenging season. On behalf of the Board, we wish to express our heartfelt appreciation to:

Team Top Glove whose unparalleled dedication, resilience and industriousness have seen the Group through the best of times and the worst of times. Thank you for all your ongoing efforts and positive contributions which enable us to continue upholding our stakeholder commitments, year after year. We have no doubt that the indomitable Top Glove spirit which has been forged in fire will prevail and carry us out of this difficult season well into recovery and beyond.

TAN SRI DR LIM WEE CHAI
Executive Chairman

Our fellow directors for your judicious guidance, insights and experience which have been invaluable in steering us through the turbulence onto calmer waters and in time, safely to shore. We take this opportunity to express our deepest appreciation to our Independent Non-Executive Directors, Datuk Noripah Kamso and Dato' Kong Sooi Lin, who retired from the Board at our Annual General Meeting 2023 on 6 January 2023. We also warmly welcome our two new Independent Non-Executive Directors, Dr Chong Su-Lin and Ms Rowina Ghazali Seth, whose timely addition will serve to enrich our board composition and collective experience.

Our loyal customers, vendors, shareholders and other stakeholders for your unwavering support and continued confidence in the Group. We deeply value the win-win partnerships we have built over the years, and are wholly committed to continue delivering the value you have come to expect and deserve.

The Market and Trends that Shape Us

The glove industry has witnessed remarkable growth and transformation in recent years, driven by various market trends that have reshaped the industry landscape. Gloves have evolved from basic protective gear to sophisticated, technologically advanced products that cater to a wide range of applications. We consistently monitor the key trends that have an impact on our long-term business sustainability.

Increased Health & Hygiene Awareness

The global COVID-19 pandemic has profoundly altered the way individuals and societies view health and hygiene. Heightened awareness of the importance of health and hygiene practices has led to significant shifts in consumer behaviour, public policy, and business strategies. As an inexpensive protective barrier for people, demand of gloves can be seen during health threats such as SARS, H1N1 and most recently, COVID in 2020. Increasing health and safety concerns have led to a surging demand for personal protective equipment including disposable gloves.

Emerging markets and developing economies are projected to modestly grow 4.0% in 2023 and 4.1% in 2024¹. Driven by the growing economy, governments can devote more resources to the national health budget to improve domestic health systems. The global health expenditure per capita recorded an increase from USD999 in 2015 to USD1,129 in 2020 and is estimated to increase to USD1,515 by 2050.²

Ageing Population and Higher Life Expectancy

The world is experiencing a demographic shift characterised by an ageing population and higher life expectancy. This transformation in the age structure of societies has far-reaching implications for healthcare, social systems and the economy. According to World Health Organisation, by 2050, the world's population aged 60 years and above will double to about 2.1 billion people³. Between 2015 and 2050, the proportion of the world's population over 60 years will nearly double from 12% to 22%. Common health conditions are associated with ageing as senior population are prone to different diseases and require more medical check-ups. The rising number of the aging population has pushed the demand for healthcare products and services, resulting in higher glove consumption.

Global Macroeconomic Outlook

According to the IMF⁴, global growth is projected to fall from 3.5 percent in 2022 to estimated 3.0 percent in both 2023 and 2024. Global headline inflation is expected to fall from 8.7 percent in 2022 to 6.8 percent in 2023 and 5.2 percent in 2024. Fears of a global recession are falling, but concerns are rising about geopolitical and domestic political issues.

The rise in central bank policy rates to fight inflation continues to weigh on economic activity. Economists are expecting the pace of interest rate rises to slow in inflation-prone economies⁵. The Federal Reserve raised the target range for the fed funds rate at 22-year high of 5.25% to 5.50% during its July 2023 meeting⁶. The central bank said it expects one more hike before the end of the year and 2 rate cuts in 2024. Over the longer term, Federal Open Market Committee members pointed to a funds rate of 2.9% in 2026⁷. That's above what the Federal Reserve considers the "neutral" rate of interest that is neither stimulative nor restrictive for growth.

The Market and Trends that Shape Us

Wider Applications of Gloves Across Industries

With gloves being very versatile in nature, other industries, such as food and beverages, biotechnology etc., have adopted gloves. The emerging 5G technology, AI and IoT, have driven the demand of gloves used in research and development, industry and electronics. Governments globally also have mandated stricter occupational safety regulations, requiring corporations to provide safer work environments for its workers.

To further improve workers' safety, corporations have implemented the ISO45001 occupational health and safety management systems to regulate and improve safety in the work environment. For the food and beverage industry, developed countries have developed guidelines and recommendations for hygiene purposes by wearing gloves to prevent foodborne diseases. Hence, these factors would likely contribute to glove demand in the future.

Product Structure Transformation and Technology Upgrading

Natural rubber latex gloves, being more comfortable and higher dexterity than nitrile latex gloves, have been the mainstay for the medical and industrial sectors for some years. However, concerns over latex allergies have motivated glove manufacturers to improve the performance of their nitrile latex gloves and nowadays, nitrile latex gloves are almost as comfortable and permeable as natural rubber latex gloves. In addition, nitrile latex gloves can be sterilised without any effect on its physical characteristics. Thus, with its excellent performance, many industries have opted for nitrile latex gloves.

Consumers are also seeking personalised and customised glove options to cater to their specific needs and preferences. Manufacturers are increasingly offering customisation services, allowing customers to choose colours, materials and sizes. This trend reflects a growing consumer desire for unique and personalised products, even in traditionally semi-commoditised industries like gloves.

Material Matters

Top Glove conducts a comprehensive materiality assessment at least once every four years and minor assessment every two years.

Materiality Methodology

In July 2022, we conducted a minor materiality assessment¹, building on the formal and comprehensive assessment performance in FY2021. This additional assessment was prompted by the ongoing transition phase that the glove industry is still navigating post-pandemic. For minor materiality assessment, we identified 17 material matters crucial to our operations and sustainability initiatives.

¹ For additional details regarding our FY2022 materiality assessment and matrix, kindly consult the Top Glove Sustainability Report for FY2022.

For FY2023, we took the important step of conducting a materiality validation, which has been thoroughly reviewed and received approval from our Board of Directors. This validation process considered a range of internal and external factors, including:

- 1) External and internal stakeholder expectation
- 2) Peer assessment
- 3) Global mega trends and global risk
- 4) External ESG ratings requirement

Materiality Assessment Guideline

<https://www.topglove.com/downloadgovernance/policies/57/materiality-assessment-guideline>

After conducting a thorough review and validation process, we have identified 16 material issues that are integral to our operations. This refined list now excludes Infectious Diseases and Indirect Economic Impacts as material topics. Furthermore, we have recognised Greenhouse Gases (“GHG”) Emissions as a vital component of our material matters for FY2023. GHG emissions are a crucial focus area for our sustainability efforts, reflecting our commitment to addressing environmental concerns and reducing our carbon footprint.

Our Value Creation Model

Our Value Creation Model

Our model is strategically designed with a strong commitment to sustainability and responsibility. We harness the power of the six capitals to propel our strategic intents, taking into account our most significant concerns and competitive advantages. These considerations subsequently result in tangible outputs and outcomes that reflect the value we generate for our stakeholders.

OUR VISION
To be your world class partner in gloves and healthcare products

OUR MISSION
Ensuring safe human protection globally

Our Business Strategies

With the challenging business environment and recent development, we decided to further refine the Group's strategy to remain agile for the continuous growth and delivery of sustainable returns beyond 2025. The refined corporate strategy, TG25+, will enable us to cultivate new capabilities, particularly in the realms of technology and talent, to ensure the organisation's continued relevance and competitiveness beyond the year 2025.

Our focus areas are cost efficiency, product quality, customer service, and non-core asset rationalisation. We seek to rationalise our non-core assets to streamline our portfolio, in order to better focus on our core businesses which drive business competitiveness and create meaningful value for stakeholders.

Our Business Strategies

Our Focus Areas

Product Quality

Customer Service

Non-Core Asset Rationalisation

Strategic Intent 1:

To be the world's undisputed leading producer of latex gloves

Affected Capitals:

- **Financial**
Increased spending on technology upgrades
- + **Manufactured**
System upgrades to production lines
- + **Intellectual**
 1. Improved quality and efficiency in production processes
 2. Stronger brand reputation
- + **Social & Relationship**
Stronger customer & stakeholder management

Our Focus Areas

Cost Efficiency

Strategic Intent 2:

To be the preferred nitrile glove manufacturer

Affected Capitals:

- **Financial**
Increased capital expenditures
- + **Manufactured**
Improved production efficiency
- + **Intellectual**
 1. New developments in R&D
 2. Operational excellence in glove segment
- + **Human**

Strategic Intent 4:

To divest non-profitable non-core business to improve shareholders' value with refocus on ESG

Affected Capitals:

- + **Financial**
Divestment generates cash inflow to the business
- **Intellectual**
Less diversification and product offerings
- + **Social & Relationship**
Improved confidence and security in stakeholders

Our Focus Areas

Non-Core Asset Rationalisation

Progress Made in FY2023

Group revenue recorded RM2.26 billion with total production capacity achieved 95 billion pieces

Priorities in FY2024

Innovate and automate our production facilities to enhance productivity and cost optimisation

Progress Made in FY2023

1. Improved overall efficiency via consolidation orders to produce at newer and more efficient plant
2. Decommissioned two old plants with combined capacity of five billion pieces per annum

Priorities in FY2024

1. Enhance manufacturing process for better product quality
2. Outgrow competition in preferred growth markets

Progress Made in FY2023

Improved in-house Gamma sterilisation plant capacity to serve customer better

Priorities in FY2024

Create greater value to our customer via new product development

Progress Made in FY2023

1. Disposed our 49% stakes in ULMA International GmbH, a small distribution arm in Germany, via partnering with our valued customer
2. Part of the divestment exercise, we also mothballed our rapid test kit productions to relocate the resources to core division

Priorities in FY2024

1. To continue reviewing our portfolio and divestment of non-profitable non-core assets with the goal of optimising its invested capital
2. Preserve our cash position as a war chest to invest in operational efficiency and prepare the Group for rebound

Our Sustainability Strategy

TOP GLOVE'S ONGOING SUSTAINABILITY TRANSFORMATION STRATEGY

Top Glove embarked on a significant sustainability transformation journey last year with the release of our comprehensive plan, "Top Glove's Sustainability Transformation: A Blueprint for FY2025" firmly grounded in our company's mission and vision. This year, we remain committed to the ongoing pursuit of the objectives outlined in our FY2025 blueprint. In response to changing business dynamics, we have made a strategic decision to re-evaluate and prioritise our operational strategies.

Looking forward to FY2024, we are poised to take further steps in our sustainability journey. Our forthcoming plans include the establishment of an in-house Greenhouse Gases ("GHG") guideline to ensure even more precise calculations, and we will place a heightened focus on stakeholder engagement. Moreover, we anticipate expanding our scope 3 categories in FY2024.

These initiatives are integral to our comprehensive strategy, aimed at broadening the coverage of our GHG emissions and further aligning our actions with our science-based target commitments. We remain committed to making a positive contribution to the environment and upholding our responsibility to stakeholders, society, and the planet.

Managing Our Risks and Opportunities

For financial year ended 31 August 2023, the significant risks to the Group are as follows:

BUSINESS

Risk

Glove consumption has been steadily increasing underpinned by rising hygiene and health awareness especially after pandemic. However, this surge in consumption is incommensurate to a higher glove demand due to the excess glove inventory. Influx of new supply during the pandemic coupled with the softer demand led to market disequilibrium. As the excess glove inventory is depleting, manufacturers have taken actions such as scrapping aging production lines and temporarily ceasing factory operations. These measures are expected to alleviate the glove supply situation.

Mitigation

1. The Group is committed to enhancing its market resilience by continuously monitoring industry trends, fostering agile response strategies, and cultivating strong relationships with stakeholders to remain competitive as a key player in the market.
2. A profound strategy for production rationalisation and cost management has been formulated with its first imperative to sustain a smooth operation by reducing wastages and enhancing its production efficiencies.

Opportunities

The Group is optimistic that the oversupply situation is likely to be improved as small and new player are gradually reducing and shutting down their production lines together with the deferment of expansion by other players in the market. The Group remains its commitment to continue meeting the global market demand on an appropriate manner with its ability to shift promptly from growth plan to deferment of capacity expansion and back when the market recovers.

OPERATION

Risk

Resuming operations after a temporary closure presented the Group with production challenges, primarily stemming from operational and workforce constraints. Notably, the Group's facilities must continuously keep pace with the evolving advanced technology offered in the market, and the Group's resilience and adaptability allow us to make steady progress towards achieving operational excellence.

Mitigation

1. Continuously assess the impact of technology advancements.
2. Develop contingency plans for various scenarios, including potential disruptions caused by technology disparities.

Opportunities

Optimisation of operational capabilities and workforce can be achieved through a stable and cost-effective platform.

INFORMATION TECHNOLOGY, DIGITALISATION AND CYBER

Risk

With the Group's automation and digitalisation initiatives increase integration complexity of the production facilities and may introduce vulnerabilities such as data security breaches, operational disruptions, and workforce adjustments. Subsequently, such vulnerabilities can adversely affect the Group's reputation, business and financial results.

Mitigation

1. The Group's IT department continuously upgrades and enhancements to its security system.
2. Additionally, IT department stays vigilant in identifying and addressing any potential cyber threats.
3. Strategic workforce planning to consistently bolster the Group's business growth and development efforts.

Opportunities

In embracing automation and digitalisation, the Group is able to increase its efficiency from the use of technology to further automate the factories' production lines, reducing manual labour and improving the quality of its product with lower operation cost.

Managing Our Risks and Opportunities

GLOBAL GOVERNANCE

Risk

The glove manufacturing sector is subjected to multiple rules and regulations by various regulatory bodies globally. This includes the potential changes of legislation in Malaysia or other countries since the Group's products are exported globally. In addition, the Group also have operational presence in USA, Brazil, Germany, Thailand, China and Vietnam. Any non-compliance by the Group to the relevant legislation and regulations in those countries could impact the Group's financial and business prospects, it could also put the Group's reputation at stake.

Mitigation

1. A dedicated compliance function is established to ensure a centralised compliance oversight are in place within the Group.
2. The Group's in-house Legal Department and Regulatory Affairs proactively advise the Group on the applicable laws and regulatory obligations to ensure that compliances are met.
3. In-depth regulatory review prior to commitment to any new project.

Opportunities

1. Adherence to the local and international laws provide reasonable assurance that the Group operates in line with key regulatory requirements in all of its operating countries.
2. The Group's reputation is protected from any adverse impact.

PEOPLE

Risk

The Group exports globally and produces different type of glove catering for different customer's needs of different markets. The manufacturing process is reliant upon the dedicated efforts of the Group's employees along its production line. The Group's operational landscape involves complex supply chains, spanning from raw material sourcing to various aspects of production. Given the complex nature of this manufacturing and supply chain ecosystem, the Group is susceptible to potential human labour-related hazards, including talent retention challenges from commonly high turnover rates in competitive manufacturing industry. These hazards have the capacity to influence both factory production and office operation which could impact the Group's reputation.

Mitigation

1. The Group's in-house Legal Department and Human Resources Department continue to stay vigilant on the development in laws and regulations and provide proactive update to ensure the Group stays current with the latest regulatory changes.
2. The Group constantly monitors and improves its labour practices and committed to comply with the United Nations Guiding Principles on Business and Human Rights and Internal Labour Organisation's best practices to promote the resilience of glove industry.
3. A dedicated manpower utilisation plan is established and reviewed on a regular basis to ensure sufficient talent pool in catering the Group's needs.
4. The Group has continually move towards the adoption of technology and automation to minimise human reliance, together with the diversification of its operations internationally to other countries such as Vietnam and Thailand.

Opportunities

Regular and continuous improvement of the Group's labour practice and employee welfare in line with the commitment to protect human rights and safeguard employee's wellbeing. The Group also continuously adhere to the Human Rights & Ethical Conduct, which stipulates fair and ethical labour practices in accordance with the Sedex Members Ethical Trade Audit (SMETA) and Business Social Compliance Initiative (BSCI), Code of Conduct which is applicable to the Group's employees and supply chain such as suppliers, business partners and customers. Subsequently this will elevate the confidence level among both existing and prospective stakeholders and shareholders in relation to the Group's commitment to uphold human rights.

Managing Our Risks and Opportunities

MARKET

Risk

An export-oriented manufacturing entity, the Group's financial performance is exposed to the risks of fluctuation in foreign currency exchange rates and volatility in commodity prices; particularly the main raw material in glove manufacturing which are natural rubber latex and nitrile latex. Fluctuation in key foreign currency exchange rates such as US Dollar and the related commodity prices will create a short-term impact on the Group's financial performance due to time lag effect of the cost pass-through mechanism. Furthermore, the inflationary pressure in general economy has a bearing on its production cost and could expose the Group to a further margin compression in the near term.

Mitigation

1. The Group constantly monitors these risk factors and endeavours to achieve an effective and efficient cost pass-through mechanism with the aim to minimising the impact on its finance performance caused by the macro factors.
2. Certain cost reduction and cost avoidance exercises have been implemented by the Group to ensure cost efficiency in operations and aim to maintaining a healthy cash flow level.

Opportunities

An optimal capital structure will enable the Group to properly manage its funds and maximising its market value while minimising the cost of capital.

SUSTAINABILITY

Risk

Since the Group produces various types of gloves to meet diverse customer needs and ensure its sustainability in the glove market, it may encounter the supply chain disruptions arising from global manufacturing and production crisis. There is a risk receiving mediocre quality goods and facing shortages of upstream materials due to the Group's dependency on a limited number of specific local or international suppliers for unique raw material components, particularly during the material scarcity period. Apart from the traditional key considerations to be scrutinised in its supply chain, the increasing scrutiny on ESG matters will primarily expose the Group to a further stringent process in selecting its key suppliers, with the aim of meeting ESG standards at a sustainable cost. As one of the natural rubber latex manufacturer based in Thailand, the Group also could potentially face the risk of non-compliance with the emerging EU Deforestation Regulation (EUDR) which aim to preserve natural forests and its biodiversity. Furthermore, there is increasing scrutiny of the Group's environmental risks with regards to water consumption, energy usage, effluent and emission discharge and other climate-related risk.

Mitigation

1. The Group continues its effort to actively source for alternative materials or suppliers to ensure smooth supply of materials and assembly well ahead of time to provide a buffer against short term disruptions.
2. The Group has also pursued a potential alternate source of supply or substitution of materials which have limited supplies in the market.
3. The Group has ventured into multiple upstream business units such as chemical, former, latex and packaging material plant in the effort to mitigate the supply chain disruption of these materials.
4. The Group incorporates its ESG framework into the business operation and regularly perform diligence check on key suppliers based on a broad spectrum of standards.
5. Board Sustainability Committee oversees the Group's sustainability efforts and steers ESG strategies into a competitive advantage to generate long-term value of stakeholders.

Opportunities

The Group's ongoing efforts to localise supply chains and placing priorities to local and Asia vendors in sourcing of the raw materials whenever possible which may indirectly stimulate domestic and Asia economic growth. In the effort to support good governance and sustainability efforts, the Group is committed to collaborate with transparent, ethical as well as socially and environmentally responsible vendors. In addition to that is the Group's regular monitoring of changes in requirement to ensure adhere and to provide reasonable assurance that the Group operates in line with environmental and social requirements in all operating countries.

Corporate Governance Overview Statement

OUR APPROACH AND COMMITMENT TOWARDS BEST GOVERNANCE PRACTICES

With governance underpinning the foundations of an organisation, we remain committed to sustainable business practices and embracing the highest standards of corporate governance in managing our business and successful delivery of our strategies despite the rapidly changing regulatory and business environment.

Our Board continues to play a crucial role in ensuring the stability of the business during challenging times by delivering effective leadership and drive strong and sustainable financial and operational performance for the Group and long-term value creation for our stakeholders.

At Top Glove, we recognise that our people are our greatest asset as we have declared 2023 as the 'Year of People Excellence'. The resilience and commitment of our people in keeping our operations running safely and providing the highest quality of products and service to our customers despite the challenges encountered are testament to the quality of our people.

The Group believes that good governance is particularly important in times of macroeconomic uncertainty. We emphasise on our continual commitment to high corporate governance standards and fostering a healthy and responsible culture throughout the Group. We view corporate governance as an ongoing and fundamental discipline that generates value for our stakeholders and underpins our success.

In the current challenging economic environment, effective oversight of strategy and risk is vital for the long-term sustainability of the Group. Our Board seeks to be responsive to evolving regulatory environment and societal expectations, ensuring alignment between the Group's culture, purpose and values, as well as ensuring that the Company has the necessary financial and human resources to deliver its strategies successfully.

Our Board is aware on its responsibility towards its stakeholders and is committed to setting the Company's purpose, values and high standards with the Board Chairman and all Non-Executive Directors having the support of the Executive Directors and the Management team, embedded throughout the Group. Leading by example, we aim to demonstrate Top Glove's strong corporate values and culture, ultimately promoting the long-term sustainable success of the Company for the benefit of all our stakeholders.

This Statement makes reference to the three (3) broad principles of the Malaysian Code on Corporate Governance ("MCCG"):

- A** Principle A: Board Leadership and Effectiveness
- B** Principle B: Effective Audit and Risk Management
- C** Principle C: Integrity in Corporate Reporting and Meaningful Relationship with Stakeholders

Corporate Governance Overview Statement

A PRINCIPLE A: BOARD LEADERSHIP AND EFFECTIVENESS

OUR BALANCED AND EXPERIENCED BOARD DELIVERS AND DRIVES OUR STRATEGIES

BOARD OF DIRECTORS

Led by the Board Chairman, the Board takes primary responsibility and sets the tone in defining the Group’s strategic direction, risk appetite and control environment aiming to promote long-term values to stakeholders.

Key responsibilities of the Board are as follows:

The Board Charter duly adopted by the Board clearly established the functions reserved for the Board and those delegated to Management. It is a reference and induction literature in providing the Board and Management an insight into the functions of the Board.

 The Board Charter is accessible through the Company’s website : <https://www.topglove.com/governance-manual/>

Board Committees

Presently, the Board is supported by four (4) Board Committees with delegated responsibilities to oversee the Group’s affairs and authorise to act on behalf of the Board in accordance with their respective Terms of Reference (“TOR”).

The Board Chairman does not sit on any of the Board Committees. All Board Committees are chaired by different Board members who are Independent Non-Executive Directors.

Each Board Committee will review, report and make recommendations to the Board during the Board meeting on key matters discussed at their respective Board Committee meetings. The Chairman of the respective Board Committee will provide highlights to the Board and the minutes of the respective Board Committees meeting will also be tabled at the quarterly Board meetings so as to keep the Board abreast of the decisions and deliberations made by each Board Committee.

Similar to the Board, each Board Committee is supported by the Company Secretary and has access to independent advice as required for the performance of its duties.

EXCO

Executive Committee (“EXCO”) assists the Executive Chairman in ensuring that the Board’s decision, strategies set, business plans, budgets, policies, procedures, strategic business and operational issues approved by the Board are implemented, executed and/or monitored efficiently and effectively by the Group’s Executive Management.

The EXCO will review and consider the transactions or activities put forth by the Management and approve them within its delegated authority or recommend them to the appropriate Board Committee and/or the Board.

Company Secretaries

Company Secretaries play an advisory role to the Board and support the Board in ensuring that all governance matters and Board procedures are followed through and applicable laws and regulations are complied with.

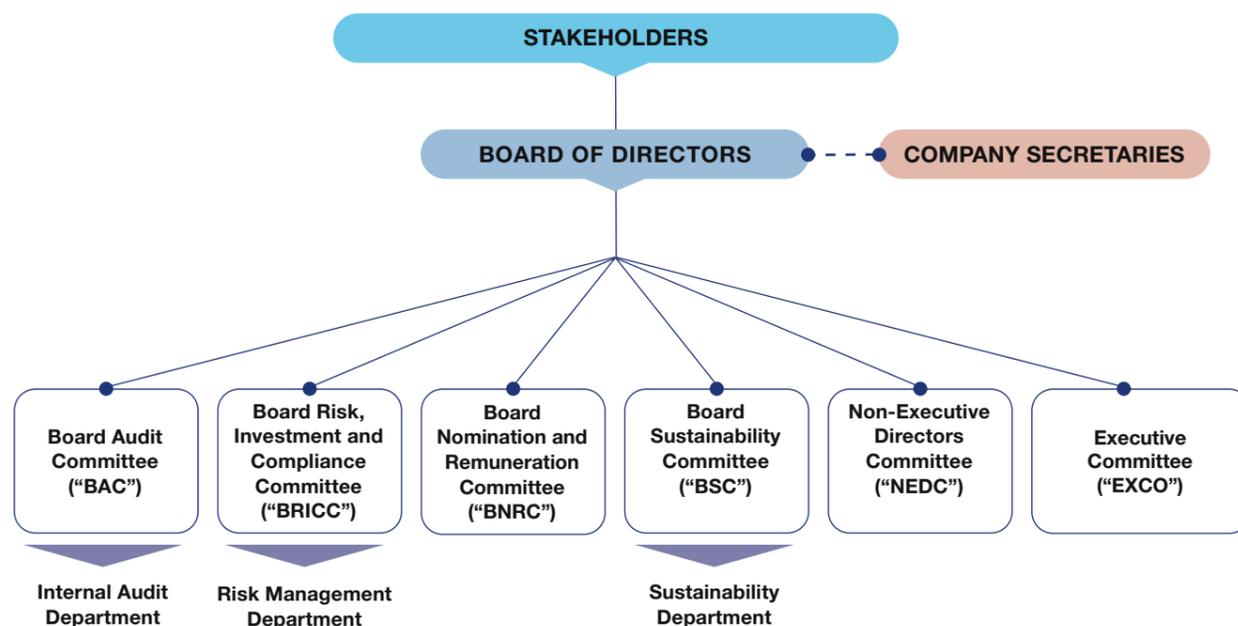

The Board is regularly updated by the Company Secretaries on changes in the relevant statutory and regulatory requirements, particularly in areas relating to the duties and responsibilities as well as disclosure requirements of the Directors.

The Company Secretaries also facilitate the communication of key decisions and policies between the Board, Board Committees and the Group’s Management as well as the Board induction programmes and assisting with Directors professional developments.

Corporate Governance Overview Statement

Corporate Governance Overview Statement

CORPORATE GOVERNANCE FRAMEWORK

ROLES

Executive Chairman ("EC")

The EC leads the Board and manage the interface between the Board and Management. He is also responsible for the orderly conduct and effective function of the Board.

Executive Directors ("ED")

The EDs are responsible for the day-to-day operations of the Group whereby operational issues are discussed, major transactions and matters relating to the Group are reviewed and operational strategies are formulated.

Independent Non-Executive Directors ("INED")

The INEDs deliberate and discuss policies and strategies formulated and proposed by the Management with the view of long-term interests of all stakeholders.

The INEDs provide independent and unbiased view, advice and judgement to ensure a balanced and unbiased decision-making process to safeguard the long-term interests of all stakeholders.

Managing Director ("MD")

The MD spearheads and is responsible for the overall businesses and day-to-day management of the Group in accordance with the strategic plans and within the budgets approved by the Board.

Senior Independent Non-Executive Director ("SINED")

The SINED serves as an intermediary to other Directors when necessary and be available to all stakeholders if they have any concerns which require resolution.

Non-Independent Non-Executive Director ("NINED")

The NINED provide in-depth knowledge and insights from the Group's perspective.

The NINED ensures that the knowledge and insight contributed will lead to a comprehensive, balanced and unbiased decision-making process that serves in the best interests of the Group and to protect the interests of shareholders.

BOARD MEETING

The Board meets at least six (6) times in each financial year to review the formal schedule of matters specifically reserved for its approval. Additional meetings may be convened as special Board meetings, as and when necessary. In the intervals between Board meetings, any matters requiring Board's decisions or approvals will be sought via circulation of written resolutions with supported information and detailed explanations to enable the Board to make an informed decision and the same practice applies to the Board Committees.

The meetings of the Board, Board Committees and AGM were scheduled before the start of the new financial year and the calendar of meetings are drawn up and tabled to the Board in advance. This is to ensure all Directors and Board Committees' schedules are booked and to also facilitate the Management's planning for the whole financial year. The Board's decisions made at the Board meeting shall be by a majority vote as prescribed by the Constitution of the Company.

In FY2023, the Board met six (6) times. The Internal and External Auditors, Corporate Advisor and the Company Secretary will attend the Board meeting upon invitation. The Senior Management will attend the Board meetings to present their proposal and provide explanation on matters relating to their spheres of responsibility.

The Board has adopted the 75% Board Meeting attendance requirement to be in line with good governance practices, having viewed that technology has made it more convenient for meeting participation. In FY2023, all Directors complied with the 75% Board meeting attendance requirement.

BOARD AWAY DAY

Held annually, the Board had its Board Away Day in August 2023 with the theme "Perfect Response to Perfect Storm" which reinforced Top Glove's objective "How can Top Glove Emerge or Ride Out from This Perfect Storm?" facilitated by the Company's Corporate Advisor.

The Board together with the Executive Committee ("EXCO") were divided into two (2) groups during the Board Away Day to brainstorm the priority items, strategic intents and desired outcomes by having a reality check and focusing on the action plans to overcome all challenges faced by the Group.

The action plans concluded will be reviewed by the EXCO and its progress of implementation will be updated at the EXCO meeting held quarterly, followed by the Board during its quarterly Board meeting. The Board brings objectivity by scrutinising the Management's accountability and implementation in ensuring the goals and targets set for Management are met within the stipulated timeline and in line with the Company's long-term objectives.

INDEPENDENCE

The Board recognises the significant contribution by the INEDs to the Company in bringing independent and objective judgment to the Board in decision-making.

An annual independency assessment has been carried out by the BNRC to reaffirm the independence of all INEDs based on the provisions of Bursa Securities Main LR, including a self-declaration of any involvement or relationship which could interfere with an independent judgement and ability to act in the best interests of the Company. An independent confirmation based on the independency assessment is also obtained before appointment of INED.

During FY2023, the Board was satisfied that none of the INEDs had any relationship that could materially interfere with or be perceived to materially interfere with their unfettered and independent judgement and ability to act in the best interests of the Company.

The Board has adopted and further updated the Independent Director Tenure Policy which sets the limit on the tenure of Independent Directors to nine (9) years without further extension. Upon completion of nine (9) years tenure, an Independent Director will vacate his/her Board seat from the Company.

SUPPLY AND ACCESS TO INFORMATION

The Board and Board Committees received pertinent information from the Management on a timely basis to fulfil their roles. Besides, all the Board Committees and Executive Committee ("EXCO") meetings minutes and meeting highlights were tabled in Board meeting for Directors' attention and notation.

All Directors are provided with the Board meeting agenda and Board papers in advance, containing information such as the Company's financial performance, business outlook and respective Board Committees' Reports prior to the Board meeting to facilitate informed decision-making process. The Managing Director and Executive Director would lead the presentation of Board papers and provide comprehensive explanations of strategy and business plans, business performance, potential mergers and acquisitions and other pertinent issues.

Proposals and recommendations by the Management will be discussed at the EXCO level and then the recommendation from EXCO will be put forth to the relevant Board Committees for deliberation and endorsement. Thereafter, the Chairman of the respective Board Committees will brief the Board and seek its approval. All matters raised, deliberations, decisions and conclusions including dissenting views made at the Board meetings with clear actions to be taken by responsible parties are recorded in the minutes.

Notice on the closed period for dealing in Top Glove's securities are served to Directors, key management personnel and principal officers who are deemed to be privy to any sensitive information for the applicable periods especially the regular annual scheduled Board meetings to approve the quarterly financial results. This is to comply with Bursa Securities Main LR and the Capital Markets and Services Act 2007 requirements where Directors, key management personnel and principal officers of the Company and the Group are prohibited from dealing in securities based on price sensitive information which have not been publicly announced within thirty (30) calendar days before the targeted date of announcement of the quarterly financial results up to the date of announcement.

The Directors are also notified of any corporate announcements released to Bursa Securities and the impending restrictions on dealing with the securities of the Company prior to the announcement.

ENGAGEMENT SESSION BETWEEN TOP GLOVE'S NON-EXECUTIVE DIRECTORS AND FACTORY OPERATIONS STAFF & WORKERS REPRESENTATIVES

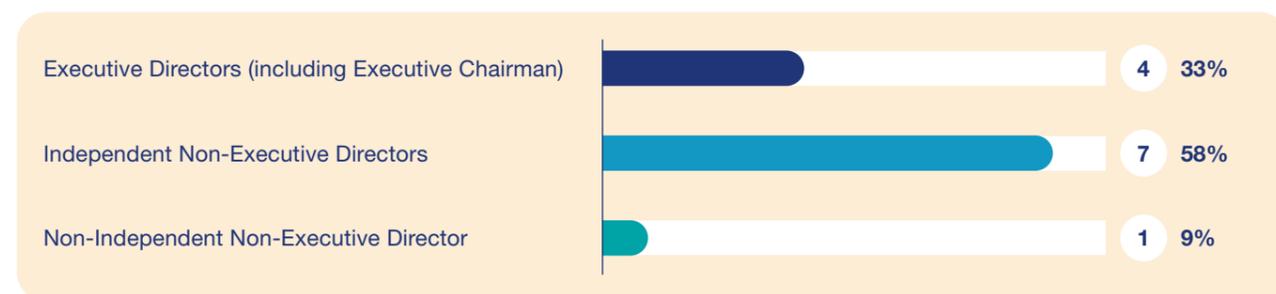

In adhering to their fiduciary duties, the Non-Executive Directors ("NEDs") had set aside their busy schedule to engage with factory operations staff and workers representatives on 6 October 2023. The engagement session involved workers from different nationalities and staff of different job levels. The NEDs had taken this opportunity to visit the Kenangan Meru hostel and to have a better understanding on the occupants' safety and wellbeing. The NEDs were apprised of various matters and as feedback, the NEDs also shared some invaluable recommendations for the betterment of the working and living condition of both staff and workers. The issues such as enhanced security measures and road safety at accident-prone areas, adequate lighting at the hostel and factories, medical issues and local council collection matters were discussed. As a proper engagement follow-through, the Human Resources department will provide the NEDs with status updates on the action plans in due course and as and when required.

BOARD BALANCE, COMPOSITION AND DIVERSITY

The Board regularly review its composition to ensure that the composition best fits the Company's needs and is adequate and effective in discharging its duties and responsibilities.

In the course of identifying experienced, qualified and fit-for-purpose candidates, the BNRC had approached several external sources including the Institute of Corporate Directors Malaysia ("ICDM") and independent human resources advisors. BNRC has made reference to the Board Skills Matrix Assessment and Board Effectiveness Evaluation exercise conducted for FY2023 in the selection of potential Board candidates. The BNRC also shared the Board skills matrix with external sources in recruiting the desired candidate who met the Company's requirements.

As at 31 August 2023, the Board comprise twelve (12) Board members as below:

The Board is committed in maintaining diversity and inclusion in its composition and decision-making process. In this regard, the Board considers diversity from different aspects, including gender, age, cultural and educational background, nationality, professional experience, skills, knowledge and length of service.

There is a clear division between the roles of Chairman and the Managing Director to preserve a balance of authority and accountability to avoid unfettered powers of decision-making.

During the year under review, the Board through the BNRC reviewed and restructured the Board Committees' composition to ensure that the composition best fit the Company's need. The women Directors represented 42% of members of the Board. In recognition of its effort and achievement to embrace Diversity, Equity and Inclusion, Top Glove had been included in the Bloomberg Gender Equality Index in January 2023.

In line with the MCGG Guidance Note 5.10, the participation of women in decision-making positions should not be focused on Board position alone but should include the members of Senior Management. The Board had on December 2022 updated the existing Board Diversity Policy to maintain at least 30% women participation on its Board and Senior Management level.

The Board continues to focus on diversity and to also ensure the Board have the right mix of skills and balance to contribute to the Group's business needs when assessing new candidates for Board members. The Board would review succession plans to ensure an appropriate focus on diversity as well.

Meritocracy remains the basis for appointment and promotion at Senior Management level whereby the incumbent must possess the pre-requisite qualification, experience, technical and leadership competencies. Having diverse key team members who have the right skill sets, experience, age, cultural background and gender will enrich the Group's talent pool with ever ready successors.

BOARD APPOINTMENT AND SUCCESSION PLANNING

The selection, nomination and appointment of suitable candidates to the Board follow a transparent process, through the BNRC. The BNRC is also responsible for reviewing the existing composition of the Board, identifying the gaps and subsequently recommend to the Board a suitable candidate with the required skill set, expertise and experience. The Board had during its meeting held in September 2021 resolved not to consider any active politician to be on the Board.

In reviewing and recommending to the Board of any new Director's appointment, the BNRC considers:

Top Glove's Boardroom appointment process is as follows:

The Board, with assistance from the BNRC, is responsible for succession planning for the Directors and Key Senior Management ("Key Business Leaders"), guided by the Succession Planning Policy adopted by the Board. The succession planning is to ensure the stability and accountability of the Group by preparing for an eventual permanent change in leadership, either planned or unplanned, this is to ensure continuous support in operations and service when the Key Business Leaders leave their positions.

The Succession Planning Policy is accessible through the Company's website : <https://www.topglove.com/governance-manual/>

DIRECTORS' RE-ELECTION

The BNRC and Board ensure that the annual re-election of Directors was contingent on satisfactory evaluation of Directors' performance and contribution to the Board.

The details of the Directors standing for re-election and the justification can be found on pages 221 and 222 of the Notice of AGM.

Corporate Governance Overview Statement

DIRECTORS' PROFESSIONAL DEVELOPMENT

The Board has a training policy for Directors to ensure all Directors have access to learning, development and training opportunities. The aim is to better equip Directors with the skills and knowledge required to fulfil their fiduciary duties and carry out their roles and responsibilities.

The Board Induction Programme is coordinated by the Company Secretary together with the Managing Director, Executive Director and heads of business units with the objectives of providing the newly appointed Directors the necessary information and overview to assist them in understanding the industry, operations, financials, corporate strategies, current issues and challenges, structure and the management of the Company. On-site briefings or site visits are also conducted to enhance understanding of the Company's operations.

The Board through the BNRC has determined the training needs of the Directors based on the outcome of the annual Board performance and effectiveness evaluation. The Company Secretary continuously identify and recommend suitable development programmes for respective Directors based on their training need analysis. The Directors may raise any training needs with the Chairman, who ensures that the training programmes meets the needs of the Board, Directors and the business. Directors may also request training on specific issues with some attending external courses which are specific to their areas of expertise, such as risk, remuneration or audit.

Ongoing trainings in business and industry related as well as regulatory updates are provided to the Board. This ensures that the Board remains updated with the latest trends in the industry and business world as well as latest development in the regulatory and legal matters. From time to time, meetings with subject matter experts in the business are arranged for Directors who wish to gain deeper insights into a particular topic.

BOARD AND SENIOR MANAGEMENT REMUNERATION

The Remuneration Policy and Procedures for Directors and Senior Management ("the Remuneration Policy") was updated by the Board in September 2021 to reflect the current component of the remuneration packages and current structure of the Board and Senior Management. The Board had resolved to adopt the practice whereby the Executives remuneration will link to Environmental, Social and Governance (ESG) metrics and the performance evaluations of the Board and Senior Management include a review of their performance in addressing the Company's material sustainability risks and opportunities.

The Remuneration Policy comprised remuneration guiding principles, remuneration framework, remuneration elements as well as remuneration policies and procedures. The remuneration of Executive Chairman, Executives Directors and Key Senior Management is determined based on, amongst others, their scope of duties, responsibilities, skills and experience, corporate and individual performance and achievement of annual key performance indicators as well as prevailing market practice and economic situation. The remuneration of the INEDs and NINED is determined based on experience and level of responsibilities undertaken, extent of contributions, effort and time spent, number of committees served as well as prevailing market practice and economic situation.

 The Remuneration Policy is accessible through the Company's website : <https://www.topglove.com/governance-manual/>

Corporate Governance Overview Statement

Commencing FY2023, the Group has put in place a group wide Balanced Scorecard. The Group's performance is determined in accordance with a Balanced Scorecard which includes key measurements (KPIs) such as Financial, Customers & Stakeholders, Systems & Projects and People & Culture supported by numerous strategic objectives. The Group's KPIs are cascaded to the business units and subsequently to individual goals where each employee's performance is tracked through a set of balanced goals.

Similarly, for the Executive Chairman and Managing Director, their performance will also be measured through a scorecard which covers Revenue and Cost, Meetings, Internal and External Relationships and Culture.

The Company rewards its employees and the Executive Directors with options under the Employees Share Option Scheme ("ESOS") and shares under the Employees Share Grant Plan ("ESGP"). The Executive Directors are not entitled to receive meeting allowances for the Board and Board Committees meetings they have attended. The details of the vesting of options under the ESOS and awards of shares under the ESGP are set out on pages 87 and 88 of this Integrated Annual Report under the Directors' Report of the Audited Financial Statements for FY2023.

The ESOS and ESGP Committees as below comprised majority INEDs will continue to oversee the administration as well as to ensure proper implementation of ESOS and ESGP according to the respective By-Laws:

- | | |
|--|-----------------------------|
| 1. Tan Sri Dr <u>Lim</u> Wee Chai (Chairman) | 5. Sharmila Sekarajasekaran |
| 2. Lim Cheong Guan | 6. Martin Giles Manen |
| 3. Lim Jin Feng | 7. Dr Ngo Get Ping |
| 4. Datuk Dr. Norma Mansor | |

During FY2023, the ESOS and ESGP Committees had considered and approved the ESOS and ESGP allocation factors to the eligible employees of the Group. The Non-Executive Directors are entitled to receive meeting allowances for the Board and Board Committees meetings they have attended but are not entitled to participate in the ESOS and ESGP, save for the NINED.

 The details of the Directors' remuneration comprising remuneration received/ receivable from the Company and subsidiaries respectively in FY2023 can be found in our Corporate Governance Report 2023 which can be accessed via <https://www.topglove.com/governance-manual/>

ETHICS AND INTEGRITY

The Board has adopted the Directors' Code of Conduct and Ethics for Directors to reflect the underlying values and commitment to lay standards of trust, integrity, responsibility, excellence, commitment, dedication, diligence, ethics and professionalism contributing towards the social and environmental growth of the surroundings in which Top Glove Group operates.

Embracing ethical culture in an organisation is fundamental in preservation of the Company's reputation and thereby increases the confidence of stakeholders. The Company has committed to uphold the practice of integrity in the organisation and has adequate policies and procedures in place driven by the Corporate Integrity Department.

 The Directors' Code of Conduct and Ethics is available on the Company's website at <https://www.topglove.com/governance-manual/>

BOARD EFFECTIVENESS EVALUATION

The Board recognises that a structured and regular evaluation of Board is an important pillar of good corporate governance. The Board conducts a rigorous Board Effectiveness Evaluation ("BEE") process each year to review and evaluate the effectiveness of the Board as a whole, the contribution of each individual Director and peers, independence of the INEDs and Board Committees' performance including various Head of Support Functions who support the respective Board Committees.

BEE PROCESS

For FY2023, BEE was conducted internally, facilitated by the Company Secretary via online questionnaires. Overall, it was the collective view of the Directors that the Board is effective in discharging its responsibility, operating within an open and transparent culture which allows constructive challenge on key issues. The outcome of the BEE will be referred to when the BNRC recommends for re-appointment or re-election of Directors and Board Committees' members.

The Board Committees' performance evaluation has shown that each Board Committees remained effective to support the Board. Individual director's performance and contribution was assessed through one-to-one interview with the Board Chair. The Board Chair was assessed by BNRC Chair. During the assessment session, both parties will discuss openly on their personal development, Boardroom culture and activities.

Corporate Governance Overview Statement

Corporate Governance Overview Statement

BOARD SUSTAINABILITY COMMITTEE REPORT

The Board Sustainability Committee (“BSC”) of Top Glove is pleased to present the BSC Report for FY2023.

The Board recognises the importance of adopting a sound and sustainable business model which incorporates environmental, social and governance (“ESG”) criteria. The BSC, formed in March 2019, advises and assists the Board in integrating a long-term and strategic approach into day-to-day business decisions and to steer ESG strategies and initiatives into a competitive advantage for the business to generate long-term value for our stakeholders. The Board is committed to addressing the United Nations Sustainable Development Goals (UNSDGs) by aligning ESG implementation with these global goals.

Sustainability is considered a shared value throughout the Group, encompassing how Top Glove manages its businesses and manufacturing operations. This includes prioritising employees’ workplace health and safety, respecting human rights, demonstrating commitment to the community and social responsibility, minimising the Company’s impact on the environment and complying with the highest standards of corporate governance guided by the Group’s corporate values R.I.V.E.R. (Respect, Integrity, Value, Empowerment and Relationship).

In FY2023, BSC has deliberated and concluded to retain the use of terminology “ESG” instead of “EESG” (Economic, Environmental, Social and Governance). The BSC agreed that ESG should not be seen in isolation and the Company needs to strike a balance with a calibration for the economy, a fundamental pillar of sustainability. It also viewed that the existing ESG framework is comprehensive and able to meet the Company’s ESG goals as it has covered the economic aspect in decision-making processes.

Composition

The governance of sustainability is integrated in our corporate governance structures throughout the Group, from Board-level committees to Management-level group functions and business units. In supporting the BSC, the Sustainability Steering Group and the Social Sustainability Committee have the strategic and operational responsibility to assess and manage sustainability issues.

The BSC comprises five (5) members as follows, all of whom are Non-Executive Directors:

Members	Date of Appointment as BSC Member	Tenure on the BSC as at 31 August 2023
1. Sharmila Sekarajasekaran (Chairman)	22 March 2019	4 Years 5 Months
2. Azrina Arshad	22 March 2019	4 Years 5 Months
3. Martin Giles Manen	25 January 2022	1 Year 7 Months
4. Dato’ Lee Kim Meow	14 December 2022	8 Months
5. Rowina Ghazali Seth	16 March 2023	5 Months

Meetings and Attendance

In FY2023, the BSC had met four (4) times. The Company Secretary, Managing Director as well as Sustainability team were in attendance at every meeting while the Executive Director, Senior Management and other Board members would attend the BSC meetings upon invitation, as and when required.

The Company Secretary will circulate the minutes of the BSC meetings at Board Meetings for notation. The BSC Chair will also brief the Board on the highlights and key issues deliberated during BSC meetings.

 Please refer to pages 57 and 58 of this Integrated Annual Report for the attendance record of BSC members.

Roles and Responsibilities

The BSC acts as an advocate of sustainability within the Company in driving the Group’s sustainability strategy and initiatives and overseeing the implementation of the Sustainability Charter and Sustainability Policy adopted by the Board, guided by the Terms of Reference (“TOR”) of the BSC.

Key responsibilities of the BSC are as follows:

 The Sustainability Charter and TOR of the BSC is available for reference on the Company’s website at <https://www.topglove.com/governance-manual/>

 The Sustainability Policy is available for reference on the Company’s website at <https://www.topglove.com/policies>

Looking Ahead

The BSC will continue its role in supporting the Board and overseeing the processes, standards and strategies from its development, implementation, measures and the reporting of the Group’s ESG performance. In addition, BSC will strengthen its role and place stronger emphasis on overseeing the impact of the Group’s long-term strategy on emerging sustainability issues. This will ultimately support the Group’s objective to operate sustainably for current and future generations.

Some of the priorities for FY2024 are as follows:

BSC Effectiveness Review and Performance

During the year under review, the Board assessed the performance of the BSC through the annual Board Effectiveness Evaluation. The Board is satisfied that the BSC has effectively discharged its functions, duties and responsibilities in accordance with the TOR of the BSC.

NON-EXECUTIVE DIRECTORS COMMITTEE REPORT

The Non-Executive Directors Committee (“NEDC”) of Top Glove is pleased to present the NEDC Report for FY2023.

The Board had on 16 March 2023, renamed the Independent Directors Committee (“IDC”) to NEDC and adopted its revised Terms of Reference to reflect the current Board composition and meet the business needs of the Group. The NEDC adds value by providing a broader perspective of the Company’s issues and protecting the interests of stakeholders.

Corporate Governance Overview Statement

Composition

The NEDC members comprises all Non-Executive Directors as follows. It is led by the Senior Independent Non-Executive Director:

Members	Meeting attendance
1. Sharmila Sekarajasekaran (Chairperson)	3/3 (100%)
2. Datuk Dr. Norma Mansor	3/3 (100%)
3. Azrina Arshad	2/3 (66%)
4. Martin Giles Manen	3/3 (100%)
5. Dr Ngo Get Ping	3/3 (100%)
6. Dato' Lee Kim Meow	1/3 (33%)
7. Dr Chong Su-Lin	2/3 (66%)
8. Rowina Ghazali Seth	3/3 (100%)

Note: Both Datuk Noripah Kamso and Dato' Kong Sook Lin had stepped down as NEDC members upon their retirements from the Board during the Company's 24th AGM held on 6 January 2023.

Meetings and Attendance

In FY2023, the NEDC met three (3) times without the presence of the Executive Directors and/or the Management to discuss among others, strategic, governance and operational issues relating to the Group. The Managing Director, Executive Director and certain Management personnel were invited to the NEDC meeting to respond to questions from the NEDC. The Company Secretary was in attendance at every NEDC meeting.

Total hours for NEDC meeting for FY2023:
6 hours

Roles and Responsibilities

Key responsibilities of the NEDC are as follows:

Key Areas of Focus during FY2023:

Concerns raised and matters deliberated at the NEDC meetings and recommendations of the NEDC were put forth to the Board for deliberation and endorsement. Those highlighted concerns and matters are as follow:

As part of Directors' fiduciary duty during this challenging period, the NEDC has committed their time to meet regularly to provide guidance and recommendations to the Management on certain material issues within their expertise to overcome whatsoever challenges encountered. The NEDC had also participated in an engagement session with factory operations staff and workers representatives on 6 October 2023.

With great concern on the outlook in business, high employees attrition rate, loss of market share due to stiff competition from new players post-pandemic, Non-Executive Directors ("NEDs") had in December 2022, mooted a separate session with the Management to focus on areas where transformation was urgently required. From this session, NEDs have proceeded with setting up a focus group called Board Business Action Council ("BBAC") with clearly defined Terms of Reference. BBAC consisted of Board Committees Chairs, NEDs and Key Senior Management. The existence of BBAC is for short term i.e. during the crisis period, to advise, guide and support the Management to steer from the stormy conditions. BBAC has in total conducted six (6) meetings where several key areas of improvement were adopted by the Management. BBAC was dissolved at the end of September 2023 upon achieving its objectives.

Corporate Governance Overview Statement

B

PRINCIPLE B: EFFECTIVE AUDIT AND RISK MANAGEMENT

BOARD AUDIT COMMITTEE REPORT

The Board Audit Committee ("BAC") of Top Glove is pleased to present the BAC Report for FY2023.

Composition

The BAC comprises four (4) members as follows, all of whom are Independent Non-Executive Directors, which is in line with the Bursa Malaysia Securities Berhad ("Bursa Securities") Main Market Listing Requirements ("Main LR") and the Malaysian Code on Corporate Governance:

Members	Date of Appointment as BAC Member	Tenure on the BAC as at 31 August 2023
1. Martin Giles Manen (Chairman)	25 January 2022	1 Year 7 Months
2. Sharmila Sekarajasekaran	15 October 2015	7 Years 10 Months
3. Dr Ngo Get Ping	6 January 2023	7 Months
4. Dr Chong Su-Lin	16 March 2023	5 Months

Note: Datuk Noripah Kamso had stepped down as a BAC Member upon her retirement from the Board during the Company's 24th AGM held on 6 January 2023.

Meetings and Attendance

In FY2023, the BAC had met eight (8) times, two (2) of which were meetings with the External Auditors, and one (1) of which was a meeting with the Head of Internal Audit, without the presence of the Executive Directors and Management.

The Company Secretary, Managing Director and Head of Internal Audit were in attendance at every meeting while the Senior Management, External Auditors and other Board members would attend the BAC meetings upon invitation, as and when required. During FY2023, the BAC had constantly engaged with the External Auditors and the Head of Internal Audit to keep abreast with the key audit issues and audit concerns affecting the Company.

The Company Secretary will circulate the minutes of the BAC meetings at Board Meetings for notation. The BAC Chair will also brief the Board on the highlights and key issues deliberated during BAC meetings.

Please refer to pages 57 and 58 of this Integrated Annual Report for the attendance record of BAC members.

Roles and Responsibilities

BAC has been entrusted by the Board to execute its governance and oversight responsibilities in ensuring transparent financial reporting within the Group, guided by the TOR of the BAC. BAC is assisted by an in-house Internal Audit Department to establish cost-effective controls, adhering to the Internal Audit Charter adopted by the BAC.

BAC deliberates the Summary of Internal Audit Reports and the External Auditors' Reports relating to financial, operational, compliance, information technology controls, governance, risk management and control matters every quarter during BAC meeting. The findings and status of preventive and corrective actions for issues discussed are updated to the BAC to ensure that the appropriate actions are taken and being monitored.

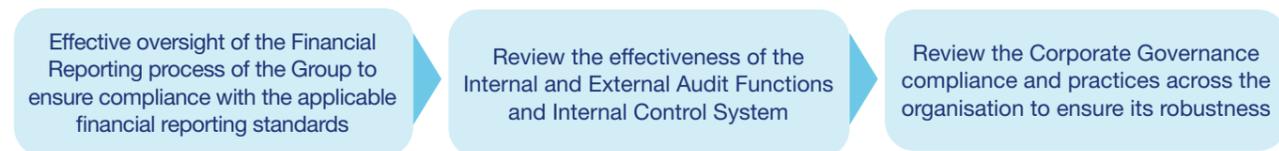

With the amendments to Bursa Securities Main LR in relation to enhanced conflict of interest ("COI") disclosures, the scope of BAC's review of COI situation has expanded to include those that arose or persist (in addition to those that may arise) and the measures taken to resolve, eliminate or mitigate the COI. In this regard, upon the recommendation from the BAC, the Board had in October 2023 adopted a comprehensive COI Policy to ensure the Directors and Key Senior Management act in the best interests of the Group and free from any personal, financial, non-financial or other conflicts that may compromise their judgement or impartiality.

The system of internal controls therefore provides only reasonable, not absolute, assurance against material misstatement or losses. The system of internal controls does, however, provide reasonable assurance that potential issues can be identified promptly and appropriate remedial action can be taken.

The Board has not identified, nor been advised of, any failures or weaknesses which it has determined to be significant. Therefore, a confirmation of necessary actions has not been considered appropriate.

Corporate Governance Overview Statement

Reviewed the Integrated Annual Report, covering the Value Creation Report, BAC Report, Statement on Risk Management and Internal Control and Corporate Governance Overview Statement and Report to ensure adherence to legal and regulatory reporting requirements and appropriate resolution of all accounting matters requiring significant judgement, followed by recommendation for the Board's approval. 4. Reviewed the Group's cash flow budget, Business Units performance and capital expenditures. 5. Verified and ensured the allocation of Employees Share Option Scheme ("ESOS") and Employees Share Grant Plan ("ESGP") complied with the criteria as stipulated in the By-Laws of ESOS and ESGP of the Company respectively. 6. Reviewed and deliberated the corporate governance development and practices of the Company and areas for improvement. 7. Reviewed Social Audit Compliance of the Group and the implementation of mitigation plans. 8. Reviewed the initiatives by Group IT Department on cybersecurity and IT systems to strengthen control process. 9. Assessed the Enablers for Business and Human Rights under BAC's purview.

Corporate Governance Overview Statement

Professional Development programmes

During FY2023, all the BAC members have attended various seminars, professional development programmes and conferences. The list of programmes attended is disclosed in the Corporate Governance Report 2023 on pages 15 to 20 which is available for reference on the Company's website at <https://www.topglove.com/governance-manual/>

Internal Audit Function

The Internal Audit Department ("IAD") consists of ten (10) members and is led by Mr. Lim Lung Fui @ Jack. Mr. Lim is a member of the Malaysian Institute of Accountants and has over twenty (20) years of experience in operational and financial audits. He also has experience in fraud prevention and detection, as well as risk management.

The principal objective of the IAD is to regularly review the systems of controls, procedures and operations to provide reasonable assurance that the internal control system is sound, adequate and satisfactory. The IAD provides the BAC with independent and objective reports on the state of internal controls of the operating units within the Group and the extent of compliance by such units with the Group's established policies, plans and procedures and the regulatory requirements of the relevant authorities. The BAC reviews and approves the Internal Audit plan of the Group submitted by the Head of Internal Audit.

During FY2023, the IAD conducted audits of various departments within the head office functions as well as the Group's factories and subsidiaries. Summaries of the Internal Audit reports were issued to the BAC on a quarterly basis and discussed in the BAC meetings. Additionally, key issues were presented to top management monthly to ensure that critical issues were addressed promptly, enabling respective business units to mitigate the associated risks immediately. Detailed audit reports were provided to the respective operations management, which included audit recommendations and management's responses to any identified weaknesses in the systems and controls. The IAD conducted follow-up audits to ensure that the agreed-upon audit recommendations were implemented appropriately.

All members of the IAD actively participate in attending training programmes conducted by professional certification bodies or in-house, sharing knowledge via transfer of learning to keep abreast with the latest developments in the profession, relevant industry and regulations to effectively perform their roles. Each IAD member is required to achieve at least 45 training hours during FY2023.

The total cost incurred for the in-house Internal Audit function for FY2023 was RM1,140,565 (FY2022: RM1,018,593).

Looking Ahead

The BAC will continue its role in supporting the Board in its governance and oversight responsibilities in ensuring the effectiveness of the Group's financial reporting, Internal and External Audit Functions.

Some of the priorities for FY2024 in addition to its regular activities are as follows:

BAC Effectiveness Review and Performance

During the year under review, the Board assessed the performance of the BAC through the annual Board Effectiveness Evaluation. The Board is satisfied that the BAC has effectively discharge its functions, duties and responsibilities in accordance with the TOR of the BAC.

The BAC assessed the Committee as a whole as well as the Head of Internal Audit. The BNRC will then review the evaluation results. The BAC also evaluated the effectiveness of the Internal Audit function and the External Auditors' performance and their independence which will then be recommended to the Board. Based on the assessment, the Board is satisfied with the overall performance of the Internal Audit function and the External Auditors' performance and their independence.

Corporate Governance Overview Statement

BOARD RISK, INVESTMENT AND COMPLIANCE COMMITTEE REPORT

The Board Risk and Investment Committee (“BRIC”) of Top Glove is pleased to present the BRIC Report for FY2023. The Board had in October 2023, resolved to rename the existing BRIC to Board Risk, Investment and Compliance Committee (“BRICC”), to reinforce the Company’s commitment to compliance culture within the Group.

Acknowledging the dynamic global economy and rapid changing business environment, the Board recognises the significance of anticipating, adapting and evolving for business sustainability, particularly in risk management. The Board entrusts the responsibility of risk oversight to the BRICC and through the BRICC, the Board monitors and regularly reviews the effectiveness of the Group’s risk management and internal control systems, including controls related to financials and investments, operational, reputational, cyber security, sustainability and regulatory compliance from strategic perspective.

Composition

The BRICC comprises four (4) members as follows, all of whom are Non-Executive Directors with majority being Independent Directors, which met the best practices under the Malaysian Code on Corporate Governance (“MCCG”):

Members	Date of Appointment as BRICC Member	Tenure on the BRICC as at 31 August 2023
1. Dr Ngo Get Ping (Chairman)	6 January 2023	7 Months
2. Datuk Dr. Norma Mansor	12 May 2017	6 Years 3 Months
3. Martin Giles Manen	25 January 2022	1 Year 7 Months
4. Dato’ Lee Kim Meow	20 September 2022	11 Months

Note: Datuk Noripah Kamsu had stepped down as a BRICC member upon her retirement from the Board during the Company’s 24th AGM held on 6 January 2023.

Meetings and Attendance

In FY2023, the BRICC had met four (4) times. The Company Secretary, Managing Director and Head of Risk Management were in attendance at every meeting while the Executive Director, Head of Internal Audit, Senior Management and other Board members would attend the BRICC meetings upon invitation, as and when required.

The Company Secretary will circulate the minutes of the BRICC meetings at Board Meetings for notation. The BRICC Chair will also brief the Board on the highlights and key issues deliberated during BRICC meetings.

 Please refer to pages 57 and 58 of this Integrated Annual Report for the attendance record of BRICC members.

Roles and Responsibilities

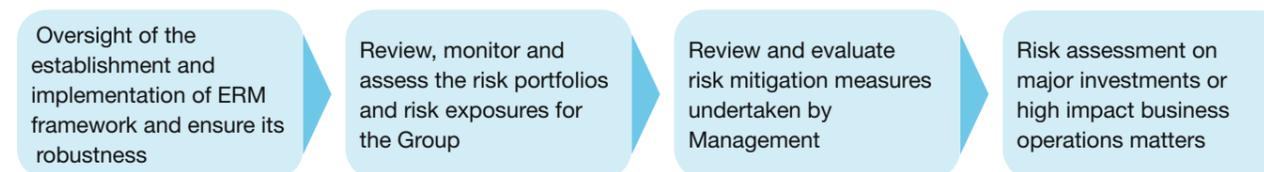

The Risk Management Department is responsible for developing the Group’s Enterprise Risk Management (“ERM”) Framework for all business processes which will be reviewed by the BRICC and approved by the Board. The ERM Framework ensures that a structured risk management process which incorporates key process relating to the identification, assessment, mitigation, monitoring and reporting of the Group’s risks and controls is adopted across the Group.

The BRICC is assisted by an in-house Risk Management Department and the Risk Management Committee to effectively discharge its responsibilities in assessing risks, recommending measures to mitigate those identified risks and ensuring effective control and governance process are in place.

The Risk Management Department presents the key risk exposures, mitigation measures as well as Risk Management updates and report to the BRICC for an overview of the Group’s significant risks and action plans to mitigate the risks at BRICC meetings held quarterly. The BRICC provides its views which are then communicated to the respective business risk owners across the Group’s operating entities. The significant risks, proceedings, findings and recommendations are then escalated to the Board for its attention upon deliberation by the BRICC.

Corporate Governance Overview Statement

Key responsibilities of the BRICC are as follows:

C

Principle C: Integrity in Corporate Reporting and Meaningful Relationship with Stakeholders

The Group considers stakeholder engagement as crucial and believes in effective communication and proactive engagement to establish mutual understanding between the Group and its stakeholders, aiming for long-term success.

While most stakeholder engagement is undertaken by our experienced and dedicated Management team, the Board is continually apprised of stakeholders matters. The Directors will also make themselves available whenever required to engage directly with stakeholders, as demonstrated by Directors' participation in employee or workers forums. The Board received regular updates from the Managing Director, Executive Directors and Senior Management on stakeholder insights and feedback, enabling informed decision-making. It also allows the Board to oversee and monitor effectively the work being done within the stakeholder environment and provides opportunity for the Directors to appraise and/ or to challenge, where appropriate, the work being done by the Management and any associated decisions. The Board acknowledges that the needs and priorities of each stakeholder group may change, so it therefore seeks to understand the needs and priorities of the relevant stakeholders during the decision-making process.

Being mindful of the interests of our stakeholders is embedded in Top Glove's DNA and is inherent in the Group's decision-making processes. Therefore, while decisions are frequently made at an operational level, the Directors are confident that due consideration and regard is always given to how the decisions may impact its stakeholders and the consequences of such decisions in the long-term.

HAVING REGULAR AND TRANSPARENT COMMUNICATION WITH STAKEHOLDERS

The Board is fully committed in maintaining a high standard in the dissemination of relevant and material information on the developments of the Group to the stakeholders.

The Company has always been providing as much information on a voluntary basis in addition to complying with Bursa Securities Main Market Listing Requirements through media releases. The Board is mindful of the legal and regulations governing the release of material and sensitive information to avoid misleading shareholders. Therefore, information that is price-sensitive or any undisclosed material information about the Group is not disclosed to any party until it is ready for simultaneous distribution.

In addition to the existing Corporate Disclosure Policy, the Board has adopted the Shareholders Communication Policy and Procedure to ensure that communications to the public regarding the Group are timely, factual, accurate and complete. The said Policies outline the central principles and practices in communicating with investors, shareholders, media and regulators.

 The Corporate Disclosure Policy and Shareholders Communication Policy and Procedure are accessible through the Company's website: <https://www.topglove.com/governance-manual/>

Statement on Risk Management and Internal Control

The Statement on Risk Management and Internal Control is made in accordance with Paragraph 15.26 (b) of the Main Market Listing Requirements of Bursa Malaysia Securities Berhad (“Bursa Securities”) and guided by the Statement on Risk Management and Internal Control - Guidelines for Directors of Listed Issuers. This Statement outlines the nature and scope of the enterprise risk management and internal control systems within the Group during the year under review.

BOARD RESPONSIBILITY

The Board is committed to establishing and maintaining a sound, effective and efficient system of enterprise risk management and internal control to safeguard shareholders’ investment and the Group’s asset.

The enterprise risk management and internal control system are designed to identify and manage the Group’s risks in order to achieve the Group’s business objectives. The Board is aware that the enterprise risk management and internal control system can only provide reasonable and not absolute assurance against the risk of material loss or occurrences of unforeseeable circumstances.

RISK MANAGEMENT GOVERNANCE

The Board regards risk management as an integral part of all business operations. Hence, the Board assumes the responsibility of managing major risks and ensures the implementation of a dynamic system to manage risk exposure within the acceptable level of tolerance.

To fulfil its oversight responsibility, the Board, through delegation to the Board Risk, Investment and Compliance Committee (“BRICC”), reviews the adequacy and integrity of the Group’s enterprise risk management system which includes the key processes of risk identification, assessment, mitigation, monitoring and reporting. Furthermore, BRICC is also assigned with the oversight role to review key risks, funding options & costs, and investment returns associated with proposed major investments which are subject to the Board’s approval prior to the submission of such proposal to the Board.

In addition, a Risk Management Committee (“RMC”) was formed in May 2013 to facilitate the risk management initiative at the Management level. RMC is chaired by the Managing Director and comprises heads of business units or support functions, who are risk owners themselves, as members. RMC serves as the driving force behind the day-to-day risk management activities. Its main functions encompass provision of regular feedback on status of risk factors to facilitate informed management decision-making, execution of appropriate risk mitigation measures and progress monitoring thereof, as well as identification of new and emerging risk factors.

The establishment of Risk Management Committee acts as an accountable point of contact for an enterprise risk at the senior leadership level, who coordinates efforts to identify, mitigate and manage the risk with the person in charge who owns whole or part of the risk to ensure effective full coverage of risk assessment of all business units locally and globally.

ENTERPRISE RISK MANAGEMENT SYSTEM

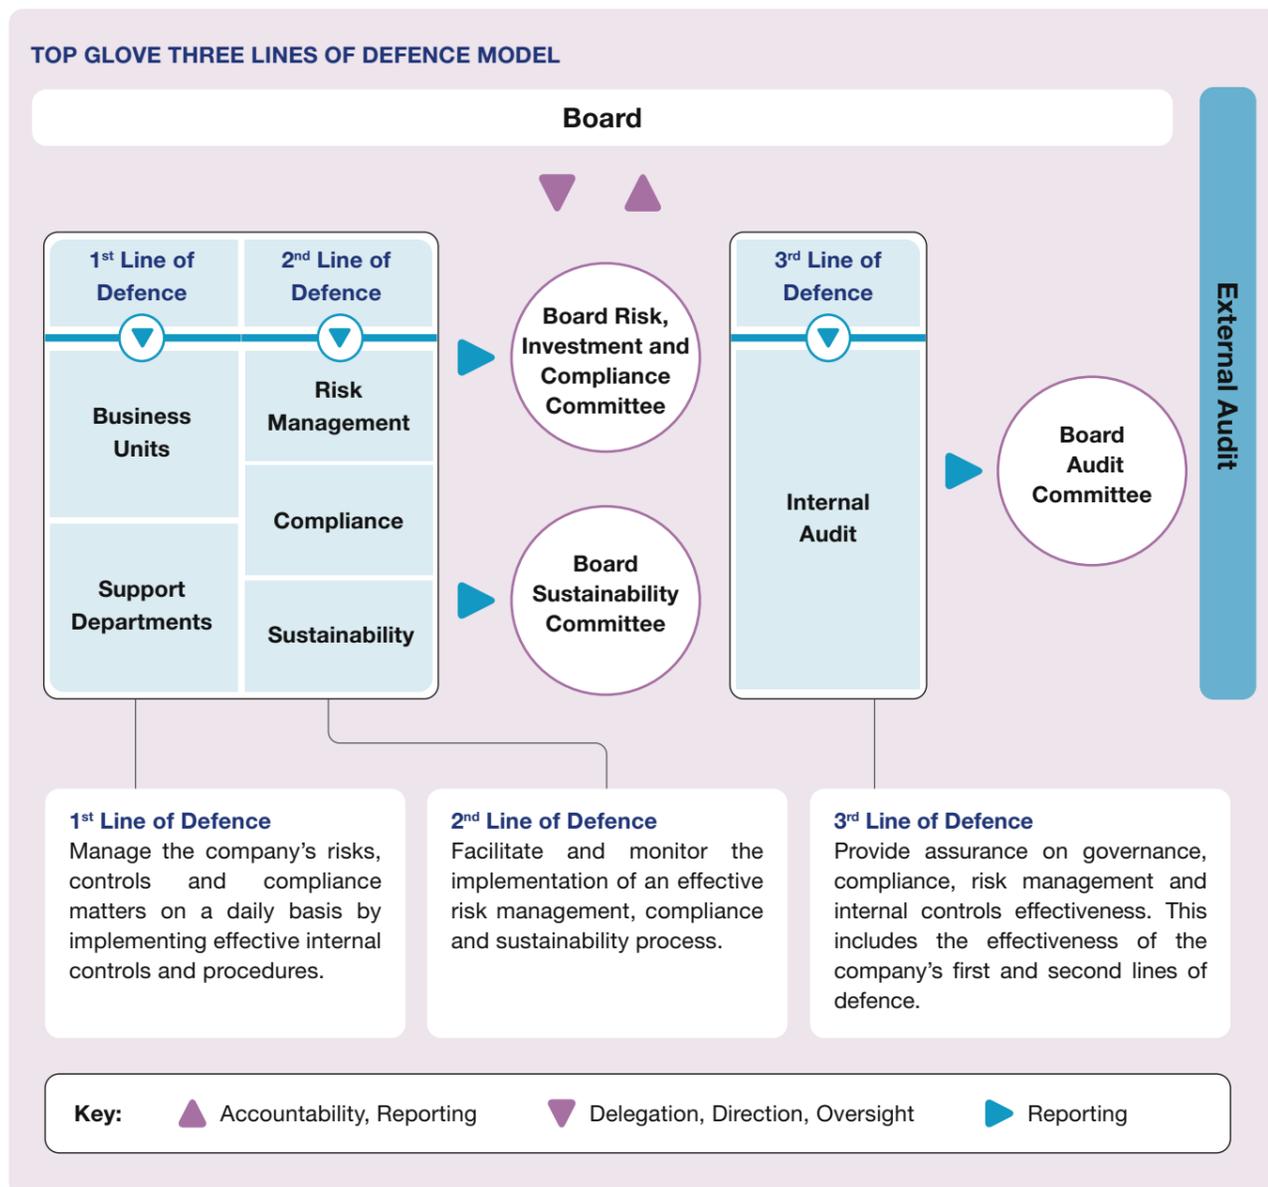

The Group’s Enterprise Risk Management Framework is set up in accordance with ISO 31000:2018 Risk Management Guideline where risks arising from the business and manufacturing operations are continuously identified. These identified risks are incorporated into the risk register and are further assessed to determine if the risk rating is Extreme, High, Medium or Low. The risk rating process is guided by a matrix of possibility of occurrence and the associated impacts, of which both financial and non-financial consequences are duly considered. Thereafter, owners of these risks will drive the implementation of risk mitigation measures towards achieving a residual risk that is within the acceptable tolerance level.

Updates on the progress and adequacy of the mitigation measures are assessed and reported on a quarterly basis. In addition, any identified emerging critical risk factors will be incorporated into the risk register and managed in accordance to the Group’s enterprise risk management methodology. Outcome of the RMC meetings will subsequently be escalated to the BRICC for further deliberation.

The BRICC will subsequently report the major risks to the Board of Directors to ensure that the risk exposures are acceptable and appropriate level of risk mitigation are being implemented. This approach creates a robust enterprise risk management system that is self-sustaining and will continue to evolve in response to changing business environment.

In order to provide a robust structure around risk management and internal controls within the Group, Three Lines of Defence model is adopted by the Group to ensure clear functional responsibilities and accountabilities for the management of risk, compliance and internal control. This is reflected in the Three Lines of Defence model which were adopted by the Group as depicted below.

Statement on Risk Management and Internal Control

INTERNAL CONTROL GOVERNANCE

The Management team, led by Executive Chairman, Managing Director and Executive Directors, comprises experienced personnel who are subject matter experts in their own specialised fields. The Management team are held accountable for the conduct and performance within their assigned business units and support functions. Internal control principles are strongly advocated and embedded into the various day-to-day operational policies and procedures of the business units and support functions concerned. These assigned business units and support functions will conduct its management meetings at regular interval to monitor its performance, action plan progress and gather further feedback for improvement purposes.

To fulfil its oversight responsibility, the Board Audit Committee ("BAC") is committed to review the adequacy and effectiveness of the Group's internal control system. In this respect, the Group's Internal Audit Department ("IAD") has been set up in financial year ended 31 August 2003 to undertake the obligation of providing control assurance services to the Group.

The External Auditor provides further assurance to the BAC in the form of annual statutory audit of the financial statements. Areas of concern identified during the course of external audit examination will be brought to the attention of the BAC through management letters and discussion at the BAC Meeting.

Statement on Risk Management and Internal Control

INTERNAL AUDIT FUNCTION

The Group has in place an in-house IAD which provides to the Board, through the BAC, independent assessment and assurance on the adequacy and effectiveness of the Group's system of internal controls.

The work scope of IAD encompasses the examination and evaluation of the adequacy, existence and effectiveness of the system of internal control, risk management and corporate governance of the group, which includes, inter alia, the following:

The audit reports are presented and tabled at quarterly BAC meetings to preserve its independence and objectivity. Significant internal audit findings and status update on outstanding management action plan will be brought to the attention of BAC. If deemed necessary, management representative will be required to attend BAC meeting to provide explanation and propose an action plan on the unresolved issues.

REVIEW OF EFFECTIVENESS

The Board is dedicated to operating a sound system of risk management and internal controls, and recognises that the system must continuously evolve to support the progressive business growth of the Group.

The process for identifying, evaluating and managing risks as outlined in this Statement has been in place for the year under review and up to the date of approval of this Statement. During the financial year ended 31 August 2023, IAD advised controls to mitigate relevant operation risks, assisted to automate certain processes previously covered manually and collaborated with the other lines of defence to improve governance across the Group. Progressively, a number of cost-effective ways to reinforce internal control gaps, cost management and SAP system controls had been proposed by IAD and implemented by Management. There has been no material adverse impact to the financial performance of the Group as a result of the internal control gaps detected.

The Board, with the assurance received from the Managing Director and its Executive Director, concludes that the Group's risk management and internal control system are operating adequately and effectively, in all material aspects.

This Statement does not include the state of internal control in associate companies, which has not been dealt with as part of the Group and is aligned with the approval obtained from the Board Audit Committee Chairman.

REVIEW OF THE STATEMENTS BY EXTERNAL AUDITORS

The External Auditors have performed limited assurance procedures on this Statement on Risk Management and Internal Control pursuant to the scope set out in Audit and Assurance Practice Guide ("AAPG") 3, Guidance for Auditors on Engagements to Report on the Statement on Risk Management and Internal Control included in the Integrated Annual Report issued by the Malaysian Institute of Accountants for inclusion in the Integrated Annual Report of the Group for the FY2023, and reported to the Board that nothing has come to their attention that causes them to believe that this Statement included in the Integrated Annual Report is not prepared, in all material respects, in accordance with the disclosures required by Paragraphs 41 and 42 of the Statement on Risk Management and Internal Control: Guidelines for Directors of Listed Issuers, nor is the Statement factually inaccurate.

AAPG 3 does not require the External Auditors to consider whether the Directors' Statement on Risk Management and Internal Control covers all risks and controls, or to form an opinion on the adequacy and effectiveness of the Group's risk management and internal control system including the assessment and opinion by the Directors and Management thereon. The report from External Auditors was made solely for, and directed solely to the Board of Directors in connection with their compliance with the Bursa Malaysia Securities Berhad Main Market Listing Requirements and for no other purposes or parties. The External Auditors do not assume responsibility to any person other than the Board of Directors in respect of any aspect of this Statement.

Directors' Responsibility Statement

For the Audited Financial Statements

The Directors are required by the Companies Act 2016 (CA) to prepare the financial statements for each financial year which have been made out in accordance with applicable Malaysian Financial Reporting Standards (MFRSs), the International Financial Reporting Standards (IFRSs), and the requirements of the CA in Malaysia.

The Directors are responsible to ensure that the financial statements give a true and fair view of the state of affairs of the Group and of the Company at the end of the financial year, and of the results and cash flows of the Group and of the Company for the financial year.

In preparing the financial statements, the Directors ensured that the Management has:

- adopted appropriate accounting policies and applied them consistently;
- made judgements and estimates that are reasonable and prudent; and
- prepared the financial statements on a going concern basis.

The Directors are responsible to ensure that the Group and the Company keep accounting records which disclose the financial position of the Group and of the Company with reasonable accuracy, enabling them to ensure that the financial statements comply with the CA.

The Directors are responsible for taking such steps as are reasonably open to them to safeguard the assets of the Group and of the Company, and to detect and prevent fraud and other irregularities.

None of the other directors in office at the end of the financial year had any interest in shares in the Company or its related corporations during the financial year.

ISSUE OF SHARES

During the financial year, the Company increased its issued and paid-up ordinary share capital from RM1,842,189,000 to RM1,843,271,000 by way of issuance of 819,600 (2022: 241,200) ordinary shares pursuant to the Company's ESOS at an exercise price between RM0.89 to RM0.99 (2022: between RM1.54 to RM3.86) per ordinary share.

The new ordinary shares issued during the financial year ranked pari passu in all respects with the existing ordinary shares of the Company.

EMPLOYEE SHARE OPTIONS SCHEME ("ESOS")

At an Extraordinary General Meeting held on 9 January 2018, shareholders approved the ESOS for the granting of non-transferable options that are settled by physical delivery of the ordinary shares of the Company, to the eligible employees and executive directors respectively of the Company and its subsidiaries.

The committee administering the ESOS comprise two executive directors, Tan Sri Dr Lim Wee Chai and Lim Cheong Guan; four independent non-executive directors Martin Giles Manen, Dr. Ngo Get Ping, Sharmila Sekarajasekaran and Datuk Dr. Norma Binti Mansor and one management staff Lim Jin Feng.

The salient features and other terms of the ESOS are disclosed in Note 38(i) to the financial statements.

During the financial year, the Company granted 7,215,000 share options under ESOS. These options will expire on 31 May 2028 and are exercisable if the employee has not served a notice of resignation or receive a notice of termination from the date of grant and certain conditions as detailed in Note 38(i) to the financial statements are met.

As at 31 August 2023, the Company held as treasury shares a total of 199,764,300 of its 8,207,925,000 issued ordinary shares. Such treasury shares are held at a carrying amount of RM1,412,270,000 and further relevant details are disclosed in Note 34 to the financial statement.

OTHER STATUTORY INFORMATION

- (a) Before the statements of comprehensive income and statements of financial position of the Group and of the Company were made out, the directors took reasonable steps:
- (i) to ascertain that proper action had been taken in relation to the writing off of bad debts and the making of allowance for expected credit loss and satisfied themselves that all known bad debts had been written off and that adequate provision had been made for expected credit loss; and
 - (ii) to ensure that any current assets which were unlikely to realise their values as shown in the accounting records in the ordinary course of business had been written down to an amount which they might be expected so to realise.
- (b) At the date of this report, the directors are not aware of any circumstances which would render:
- (i) the amount written off for bad debts or the amount of the allowance for expected credit loss in the financial statements of the Group and of the Company inadequate to any substantial extent; and
 - (ii) the values attributed to the current assets in the financial statements of the Group and of the Company misleading.
- (c) At the date of this report, the directors are not aware of any circumstances which have arisen which would render adherence to the existing method of valuation of assets or liabilities of the Group and of the Company misleading or inappropriate.
- (d) At the date of this report, the directors are not aware of any circumstances not otherwise dealt with in this report or financial statements of the Group and of the Company which would render any amount stated in the financial statements misleading.
- (e) At the date of this report, there does not exist:
- (i) any charge on the assets of the Group or of the Company which has arisen since the end of the financial year which secures the liabilities of any other person; or
 - (ii) any contingent liability of the Group or of the Company which has arisen since the end of the financial year.

OTHER STATUTORY INFORMATION (CONT'D)

- (f) In the opinion of the directors:
- (i) no contingent or other liability has become enforceable or is likely to become enforceable within the period of twelve months after the end of the financial year which will or may affect the ability of the Group or of the Company to meet their obligations when they fall due; and
 - (ii) no item, transaction or event of a material and unusual nature has arisen in the interval between the end of the financial year and the date of this report which is likely to affect substantially the results of the operations of the Group or of the Company for the financial year in which this report is made.

AUDITORS

The auditors, Ernst & Young PLT, have expressed their willingness to continue in office.

Auditors' remuneration is as follows:

	Group RM'000	Company RM'000
Ernst & Young PLT	727	86
Other auditors	562	-
	1,289	86

To the extent permitted by law, the Company has agreed to indemnify its auditors, Ernst & Young PLT, as part of the terms of its audit engagement against claims by third parties arising from the audit for an unspecified amount. No payment has been made to indemnify Ernst & Young PLT for the financial year ended 31 August 2023.

Independent Auditors' Report

to the members of Top Glove Corporation Bhd. (Incorporated in Malaysia)

REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS

Opinion

We have audited the financial statements of Top Glove Corporation Bhd., which comprise the statements of financial position as at 31 August 2023 of the Group and of the Company, and statements of profit or loss and other comprehensive income, statements of changes in equity and statements of cash flows of the Group and of the Company for the year then ended, and notes to the financial statements, including a summary of significant accounting policies, as set out on pages 96 to 198.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Group and of the Company as at 31 August 2023, and of their financial performance and their cash flows for the year then ended in accordance with Malaysian Financial Reporting Standards, International Financial Reporting Standards and the requirements of the Companies Act 2016 in Malaysia.

Basis for opinion

We conducted our audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing. Our responsibilities under those standards are further described in the *Auditors' responsibilities for the audit of the financial statements* section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Independence and other ethical responsibilities

We are independent of the Group and of the Company in accordance with the By-Laws (on Professional Ethics, Conduct and Practice) of the Malaysian Institute of Accountants ("By-Laws") and the International Code of Ethics for Professional Accountants (including International Independence Standards) ("IESBA Code"), and we have fulfilled our other ethical responsibilities in accordance with the By-Laws and the IESBA Code.

Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements of the Group and of the Company for the current year. We have determined that there are no key audit matters to communicate in our report on the financial statements of the Company. The key audit matters for the audit of the financial statements of the Group are described below. These matters were addressed in the context of our audit of the financial statements of the Group as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have fulfilled the responsibilities described in the *Auditors' responsibilities for the audit of the financial statements* section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis of our audit opinion on the accompanying financial statements.

Key audit matters (cont'd)

Impairment assessment of non-financial assets

MFRS 136 Impairment of Assets requires an entity to assess at the end of each reporting date whether there is any indication that an asset may be impaired. If any such indication exists, management shall estimate the recoverable amount of the asset.

In addition, irrespective of whether there is any indication of impairment, an entity shall also test goodwill acquired in a business combination for impairment annually.

a) Annual impairment test of goodwill arising from the acquisition of Aspion Sdn. Bhd. ("Aspion")

(Refer to Note 4.1, Note 7.2(b) and Note 22 to the financial statements)

As at 31 August 2023, the Group recorded a goodwill of RM796 million arising from the past acquisition of Aspion, which represented 11% of the Group's total assets. The goodwill amount has been allocated to cash generating unit ("CGU") for impairment testing purposes. The Group estimated the recoverable amount of the CGU to which the goodwill is allocated to based on value-in-use ("VIU").

b) Impairment assessment of property, plant and equipment ("PPE") and rights-of-use assets ("RoU")

(Refer to Note 4.13, Note 7.2(c) and Note 15 to the financial statements)

As at 31 August 2023, the carrying amounts of the property, plant and equipment ("PPE") and right of-use assets ("RoU") of the Group are RM3,893 million and RM187 million respectively, which represented 58% of the Group's total assets.

There were indications that the carrying amounts of the Group's PPE and RoU may be impaired due to lower production utilisation rate as well as lower average selling price of gloves.

Management has determined the recoverable amounts of these assets based on either the estimated VIU or the fair value less cost to sell ("FVLCTS") of the respective CGU, whichever is higher.

We have identified the impairment reviews of the goodwill arising from the acquisition of Aspion and the Group's PPE and RoU as areas of audit focus because the reviews involve significant management judgements and estimates, particularly in respect of the assumptions on projected revenue, profit margins, terminal growth rates (which take into consideration the replacement of capital expenditure) and discount rates.

On each of the impairment review, our audit procedures include, amongst others, the following:

- Evaluated management's key assumptions on projected revenue, profit margins and terminal growth rates, by considering the current and expected future economic conditions. We compared the projected revenue to the past trends and compared expected revenue growth rates to relevant future market demand. We also evaluated management's estimates of replacement of capital expenditure included in the terminal cash flow by considering the historical replacement cycle and costs incurred, as well as the expected cost escalation.
- Together with EY valuation specialists, we evaluated the discount rate used to determine the present value of the cash flows and assessed whether the rate used reflects the current market assessment of the time value of money and the risk specific to the asset is the return that the investors would require if they were to choose an investment that would generate cash flows of amounts, timing and risk profile equivalent to those that the entity expects to derive from the asset.
- Assessed the sensitivity of the cash flows to changes in the key assumptions to understand the impact that reasonable alternative assumptions would have on the overall recoverable amount.
- Evaluated the adequacy of the Group's disclosures in the financial statements concerning those key assumptions to which the outcome of the impairment assessment is most sensitive.
- To the extent that management relied on valuation reports provided by independent professional valuers, we have considered the competence, capabilities and objectivity of the professional valuers. We have also assessed the key assumptions and methodology used by independent professional valuers. This would include comparisons with recent transactions involving other similar assets and where applicable, the age, size and tenure.

Key audit matters (cont'd)

Review of costing of finished goods inventories

(Refer to Note 4.16, Note 7.2(a) and Note 23 to the financial statements)

As at 31 August 2023, the Group held RM177 million of finished goods inventories. This represented 3% of total assets of the Group. Total cost of inventories relating to finished goods charged to the consolidated income statement for the year ended 31 August 2023 amounted to RM2,193 million, accounting for 69% of total expenditure (comprises of cost of sales, distribution and selling costs and administrative and general expenses) of the Group.

The finished goods inventories are carried at the lower of cost and net realisable value. The costs of production comprises the cost of purchase of raw materials, labour costs, plus conversion costs such as variable and fixed overhead costs. Significant estimates are involved in determining the basis of allocating the costs of production to the products produced by the Group. The Group relies heavily on the information technology system ("IT system") to ensure that the costs of raw materials, labour costs and overhead costs are correctly allocated to the respective products. Due to the significant estimation involved in the valuation of finished goods inventories, we considered this a key area of audit focus.

Our audit procedures include, amongst others, the following:

- Obtained an understanding of the Group's current inventories costing policy, production processes and the types of costs included in the valuation of finished goods inventories.
- Evaluated the general and logical access controls surrounding the IT system by involving our IT audit professionals.
- Agreed, on a sampling basis, the costs of purchase of raw materials to suppliers' invoices and tested other components of costs of production to the underlying supporting documentation.
- Assessed the appropriateness of the basis used by management in allocating the costs of production to the products produced by the Group and tested the relevant application controls surrounding the allocation.

Information other than the financial statements and auditors' report thereon

The directors of the Company are responsible for the other information. The other information comprises the information included in the annual report, but does not include the financial statements of the Group and of the Company and our auditors' report thereon.

Our opinion on the financial statements of the Group and of the Company does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements of the Group and of the Company, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements of the Group and of the Company or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the directors for the financial statements

The directors of the Company are responsible for the preparation of financial statements of the Group and of the Company that give a true and fair view in accordance with Malaysian Financial Reporting Standards, International Financial Reporting Standards and the requirements of the Companies Act 2016 in Malaysia. The directors are also responsible for such internal control as the directors determine is necessary to enable the preparation of financial statements of the Group and of the Company that are free from material misstatement, whether due to fraud or error.

Independent Auditors' Report

to the members of Top Glove Corporation Bhd. (Incorporated in Malaysia) (cont'd)

Responsibilities of the directors for the financial statements (cont'd)

In preparing the financial statements of the Group and of the Company, the directors are responsible for assessing the Group's and the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or the Company or to cease operations, or have no realistic alternative but to do so.

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements of the Group and of the Company as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with approved standards on auditing in Malaysia and International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements of the Group and of the Company, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's and of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's or the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements of the Group and of the Company or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group or the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements of the Group and of the Company, including the disclosures, and whether the financial statements of the Group and of the Company represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the financial statements of the Group. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

Independent Auditors' Report

to the members of Top Glove Corporation Bhd. (Incorporated in Malaysia) (cont'd)

Auditors' responsibilities for the audit of the financial statements (cont'd)

From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the financial statements of the Group and of the Company for the current year and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

In accordance with the requirements of the Companies Act 2016 in Malaysia, we report that the subsidiaries of which we have not acted as auditors are disclosed in Note 18 to the financial statements.

OTHER MATTERS

This report is made solely to the members of the Company, as a body, in accordance with Section 266 of the Companies Act 2016 in Malaysia and for no other purpose. We do not assume responsibility to any other person for the content of this report.

Notes To The Financial Statements

For the financial year ended 31 August 2023 (cont'd)

1. CORPORATE INFORMATION

Top Glove Corporation Bhd. ("the Company") is a public limited liability company incorporated and domiciled in Malaysia, and is listed on the Main Market of Bursa Malaysia Securities Berhad and Main Board of Singapore Exchange Securities Trading Limited. The principal place of business of the Company is located at Level 21, Top Glove Tower, 16, Persiaran Setia Dagang, Setia Alam, Seksyen U13, 40170 Shah Alam, Selangor.

The principal activities of the Company are investment holding and provision of management services. The principal activities of the subsidiaries are described in Note 18. There have been no significant changes in the nature of the principal activities during the financial year.

2. BASIS OF PREPARATION

The financial statements of the Group and of the Company have been prepared in accordance with Malaysian Financial Reporting Standards ("MFRS") as issued by the Malaysian Accounting Standards Board ("MASB"), International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and the requirements of the Companies Act 2016 in Malaysia.

The financial statements have also been prepared on a historical basis, unless otherwise indicated in the accounting policies below.

The financial statements are presented in Ringgit Malaysia ("RM") and all values are rounded to the nearest thousand ("RM'000") except when otherwise indicated.

3. BASIS OF CONSOLIDATION

The consolidated financial statements comprise the financial statements of the Company and its subsidiaries as at 31 August 2023. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if, and only if, the Group has:

- Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee);
- Exposure, or rights, to variable returns from its involvement with the investee; and
- The ability to use its power over the investee to affect its returns.

When the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- The contractual arrangement with the other vote holders of the investee;
- Rights arising from other contractual arrangements; and
- The Group's voting rights and potential voting rights.

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated financial statements from the date the Group gains control until the date the Group ceases to control the subsidiary.

Profit or loss and each component of other comprehensive income ("OCI") are attributed to the equity holders of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies in line with the Group's accounting policies. All intra-group assets and liabilities, equity, income, expenses, unrealised gains and losses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction.

If the Group loses control over a subsidiary, it derecognises the related assets (including goodwill), liabilities, non-controlling interest and other components of equity, while any resultant gain or loss is recognised in profit or loss. Any investment retained is recognised at fair value.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

4.1 Business combinations and goodwill

Business combinations are accounted for using the acquisition method. The cost of an acquisition is measured as the aggregate of the consideration transferred, measured at acquisition date fair value and the amount of any non-controlling interest in the acquiree. For each business combination, the Group elects whether it measures the non-controlling interest in the acquiree either at fair value or at the proportionate share of the acquiree's identifiable net assets. Acquisition-related costs are expensed as incurred and included in administrative expenses.

The Group determines that it has acquired a business when the acquired set of activities and assets include an input and a substantive process that together significantly contribute to the ability to create outputs. The acquired process is considered substantive if it is critical to the ability to continue producing outputs, and the inputs acquired include an organised workforce with the necessary skills, knowledge, or experience to perform that process or if significantly contributes to the ability to continue producing outputs and is considered unique or scarce or cannot be replaced without significant cost, effort, or delay in the ability to continue producing outputs.

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts by the acquiree.

If the business combination is achieved in stages, any previously held equity interests in the acquiree are re-measured to fair value at the acquisition date with any corresponding gain or loss recognised in profit or loss.

Any excess of the cost of business combination, as the case may be, over the net amount of the fair value of identifiable assets acquired and liabilities assumed is recognised as goodwill. For business combinations, provisions are made for the acquiree's contingent liabilities existing at the date of acquisition as the Group deems that it is probable that an outflow of resources embodying economic benefits will be required to settle the obligations.

Any excess in the Group's interest in the net fair value of the identifiable assets acquired and liabilities assumed over the cost of business combination is recognised immediately in profit or loss.

Any contingent consideration to be transferred by the acquirer will be recognised at fair value at the acquisition date. Contingent consideration classified as equity is not remeasured and its subsequent settlement is accounted for within equity. Contingent consideration classified as an asset or liability that is a financial instrument and within the scope of MFRS 9 Financial Instruments, is measured at fair value with the changes in fair value recognised in the statement of profit or loss in accordance with MFRS 9. Other contingent consideration that is not within the scope of MFRS 9 is measured at fair value at each reporting date with changes in fair value recognised in profit or loss.

Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred and the amount recognised for non-controlling interests, and any previous interest held, over the net identifiable assets acquired and liabilities assumed. If the fair value of the net assets acquired is in excess of the aggregate consideration transferred, the Group re-assesses whether it has correctly identified all of the assets acquired and all of the liabilities assumed and reviews the procedures used to measure the amounts to be recognised at the acquisition date. If the re-assessment still results in an excess of the fair value of net assets acquired over the aggregate consideration transferred, then the gain is recognised in profit or loss.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash-generating units that are expected to benefit from the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units.

Where goodwill has been allocated to a cash-generating unit and part of the operation within that unit is disposed of, the goodwill associated with the disposed operation is included in the carrying amount of the operation when determining the gain or loss on disposal. Goodwill disposed in these circumstances is measured based on the relative values of the disposed operation and the portion of the cash-generating unit retained.

Notes To The Financial Statements

For the financial year ended 31 August 2023 (cont'd)

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

4.1 Business combinations and goodwill (cont'd)

Business combinations involving entities under common control are accounted for by applying the pooling of interest method. The assets and liabilities of the combining entities are reflected at their carrying amounts reported in the consolidated financial statements of the controlling holding company. Any difference between the consideration paid and the share capital of the entity acquired is reflected within equity as merger reserve. The statement of comprehensive income reflects the results of the combining entities for the full year, irrespective of when the combination takes place. Comparatives are presented as if the entities have always been combined since the date the entities had come under common control.

4.2 Transactions with non-controlling interests

Non-controlling interests represent the equity in subsidiaries not attributable, directly or indirectly, to owners of the Company, and is presented separately in the consolidated statement of profit or loss, consolidated statement of comprehensive income and within equity in the consolidated statement of financial position, separately from equity attributable to owners of the Company.

Changes in the Company's interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions. In such circumstances, the carrying amounts of the controlling and non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiary. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognised directly in equity and attributed to owners of the parent.

4.3 Investment in subsidiaries

A subsidiary is an entity over which the Group has all the following:

- (i) Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee);
- (ii) Exposure, or rights, to variable returns from its involvement with the investee; and
- (iii) The ability to use its power over the investee to affect its returns.

In the Company's separate financial statements, investment in subsidiaries is accounted for at cost less impairment losses. On disposal of such investment, the difference between net disposal proceeds and the carrying amount is included in profit or loss.

4.4 Investment in an associate

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee, but is not control or joint control over those policies. An associate is equity accounted for from the date the Group obtains significant influence until the date the Group ceases to have significant influence over the associate.

The Group's investment in an associate is accounted for using the equity method. Under the equity method, the investment in an associate is measured in the consolidated statement of financial position at cost plus post-acquisition changes in the Group's share of net assets of the associate. Goodwill relating to associate is included in the carrying amount of the investment. Any excess of the Group's share of the net fair value of the associate's identifiable assets, liabilities and contingent liabilities over the cost of the investment is excluded from the carrying amount of the investment and is instead included as income in the determination of the Group's share of the associate's profit or loss for the period in which the investment is acquired.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

4.4 Investment in an associate (cont'd)

When the Group's share of losses in an associate equals or exceeds its interest in the associate, the Group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the associate.

After application of the equity method, the Group determines whether it is necessary to recognise an impairment loss on its investment in its associate. The Group determines at each reporting date whether there is any objective evidence that the investment in the associate is impaired. If there is such evidence, the Group calculates the amount of impairment as the difference between the recoverable amount of the associate and its carrying value and recognises the loss within share of profit of an associate in the consolidated statement of profit or loss.

The financial statements of the associate are prepared as of the same reporting date as the Group unless it is impracticable to do so. When the financial statements of the associate used in applying the equity method are prepared as of a different reporting date from that of the Group, adjustments are made for the effects of significant transactions or events that occur between that date and the reporting date of the Group. When necessary, adjustments are made to bring the accounting policies in line with those of the Group.

4.5 Intangible assets

Intangible assets acquired separately are measured at cost on initial recognition. The cost of intangible assets acquired in a business combination is their fair value at the date of acquisition. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses. Internally generated intangibles, excluding capitalised development costs, are not capitalised and the related expenditure is reflected in profit or loss in the period in which the expenditure is incurred.

The useful lives of intangible assets are assessed as either finite or indefinite.

Intangible assets with finite lives are amortised over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortisation period or method, as appropriate, and are treated as changes in accounting estimates. The amortisation expense on intangible assets with finite lives is recognised in the statement of profit or loss in the expense category that is consistent with the function of the intangible assets.

Intangible assets with indefinite useful lives are not amortised, but are tested for impairment annually, either individually or at the cash-generating unit level. The assessment of indefinite life is reviewed annually to determine whether the indefinite life continues to be supportable. If not, the change in useful life from indefinite to finite is made on a prospective basis.

An intangible asset is derecognised upon disposal (i.e. at the date the recipient obtains control) or when no future economic benefits are expected from its use or disposal. Any gain or loss arising upon derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement of profit or loss.

(a) Customer relationships

The cost of customer relationships acquired in a business combination is measured at their fair value at the date of acquisition. Following the initial recognition, they are carried at cost less accumulated amortisation and any accumulated impairment losses.

The customer relationships are amortised on a straight line basis over its estimated economic useful lives of eleven years and assessed for impairment whenever there is an indication that the customer relationships may be impaired.

Notes To The Financial Statements

For the financial year ended 31 August 2023 (cont'd)

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

4.5 Intangible assets (cont'd)

(b) Patents

The Group does not recognise internally generated brands, licenses and other similar intellectual property which cannot be distinguished from the cost of developing the Group's business as a whole.

Acquired patents are recognised as an asset and initially measured at cost, which is the fair value of the consideration paid. After initial recognition, patents are measured at cost less accumulated amortisation and accumulated impairment losses. Amortisation is recognised in profit or loss on a straight line basis over the estimated economic useful lives of the patents.

4.6 Current versus non-current classification

The Group and the Company present assets and liabilities in the statements of financial position based on a current/non-current classification. An asset is current when it is:

- Expected to be realised or intended to be sold or consumed in the normal operating cycle;
- Held primarily for the purpose of trading;
- Expected to be realised within twelve months after the reporting period; or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in the normal operating cycle;
- It is held primarily for the purpose of trading;
- It is due to be settled within twelve months after the reporting period; or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The Group and the Company classify all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

4.7 Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability; or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible to by the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

Notes To The Financial Statements

For the financial year ended 31 August 2023 (cont'd)

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

4.7 Fair value measurement (cont'd)

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available, are used to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Policies and procedures are determined by senior management for both recurring fair value measurement and for non-recurring measurement.

External valuers are involved for valuation of significant assets and significant liabilities. Involvement of external valuers is decided by senior management. Selection criteria include market knowledge, reputation, independence and whether professional standards are maintained. The senior management decides, after discussions with the external valuers, which valuation techniques and inputs to use for each case.

At each reporting date, the senior management analyses the movements in the values of assets and liabilities which are required to be re-measured or re-assessed as per the Group's accounting policies. For this analysis, the senior management verifies the major inputs applied in the latest valuation by agreeing the information in the valuation computation to contracts and other relevant documents.

The senior management, in conjunction with the external valuers, also compares the changes in the fair value of each asset and liability with relevant external sources to determine whether the change is reasonable.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

Notes To The Financial Statements

For the financial year ended 31 August 2023 (cont'd)

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

4.8 Foreign currencies

(a) Functional and presentation currency

The Group's consolidated financial statements are presented in RM which is also the parent company's functional currency. For each entity, the Group determines the functional currency and items included in the financial statements of each entity are measured using that functional currency.

(b) Transactions and balances

Transactions in foreign currencies are initially recorded by the Group entities at the functional currency spot rates at the date the transaction first qualifies for recognition. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates at the reporting date.

Differences arising on settlement or translation of monetary items are recognised in profit or loss with the exception of monetary items that are designated as part of the hedge of the Group's net investment of a foreign operation. These are recognised in foreign exchange reserve OCI until the net investment is disposed of, at which time, the cumulative amount is reclassified to profit or loss. Tax charges and credits attributable to exchange differences on those monetary items are also recorded in OCI.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of gain or loss on change in fair value of the item (i.e. translation differences on items whose fair value gain or loss is recognised in OCI or profit or loss are also recognised in OCI or profit or loss, respectively).

In determining the spot exchange rate to use on initial recognition of the related asset, expense or income (or part of it) on the derecognition of a non-monetary asset or non-monetary liability arising from the advance consideration. If there are multiple payments or receipts in advance, the Group determines the transaction date for each payment or receipt of advance consideration.

(c) Group companies

On consolidation, the assets and liabilities of foreign operations are translated into RM at the rate of exchange prevailing at the reporting date and their statements of profit or loss are translated at exchange rates prevailing at the dates of the transactions. The exchange differences arising on translation for consolidation are recognised in OCI. On disposal of a foreign operation, the component of OCI relating to that particular foreign operation is recognised in profit or loss.

Any goodwill arising on the acquisition of a foreign operation and any fair value adjustments to the carrying amounts of assets and liabilities arising on the acquisition are treated as assets and liabilities of the foreign operation and translated at the spot rate of exchange at the reporting date.

Notes To The Financial Statements

For the financial year ended 31 August 2023 (cont'd)

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

4.9 Revenue and other income recognition

Revenue is recognised when the Group satisfies a performance obligation by transferring a promised good or service to the customer, which is when the customer obtains control of the good or service. A performance obligation may be satisfied at a point in time or over time. The amount of revenue recognised is the amount allocated to the satisfied performance obligation.

(a) Sale of goods

The Group is involved in manufacturing and trading of gloves and healthcare related products.

Revenue is recognised at a point in time upon transfer of control of the goods to the customers. Revenue is not recognised to the extent where there are significant uncertainties regarding recovery of the consideration due, associated costs or the possible return of goods.

The amount of revenue recognised is based on the estimated transaction price, which comprises the contractual price, net of the estimated volume rebates. Based on the Group's experience with similar types of contracts, variable consideration is typically constrained and is included in the transaction only to the extent that it is a highly probable that a significant reversal in the amount of cumulative revenue recognised will not occur when the uncertainty associated with the variable consideration is subsequently resolved.

(b) Dividend income

Dividend income is recognised when the Group's and the Company's right to receive payment is established.

(c) Management fees

Management fees are recognised when services are rendered.

(d) Interest income

Interest income is recognised on an accrual basis using the effective interest rate method.

(e) Rental income

Rental income is accounted for on a straight-line basis over the lease terms. The aggregate costs of incentives provided to lessees are recognised as a reduction of rental income over the lease term on a straight-line basis.

4.10 Employee benefits

(a) Short term benefits

Wages, salaries, bonuses and social security contributions are recognised as expenses in the year in which the associated services are rendered by employees. Short term accumulated compensated absences such as paid annual leave are recognised when services are rendered by employees that increase their entitlement to future compensated absences. Short term non-accumulating compensated absences such as sick leave are recognised when the absences occur.

(b) Defined contribution plans

Defined contribution plans are post-employment benefit plans under which the Group and the Company pay fixed contributions into separate entities or funds and will have no legal or constructive obligation to pay further contributions if any of the funds do not hold sufficient assets to pay all employee benefits relating to employee services in the current and preceding financial years. Such contributions are recognised as an expense in profit or loss as incurred. As required by law, companies in Malaysia make such contributions to the Employees Provident Fund ("EPF"). All contributions to pension plans are fully and immediately vested and the Group had no unvested benefits available to reduce its future contributions.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

4.10 Employee benefits (cont'd)

(c) Employee Share Options Scheme ("ESOS")

Employees of the Group and of the Company receive remuneration in the form of share options as consideration for services rendered. The cost of these equity-settled transactions with employees is measured by reference to the fair value of the options at the date on which the options are granted. This cost is recognised in profit or loss. The cumulative expense recognised at each reporting date until the vesting date reflects the extent to which the vesting period has expired and the Group's and the Company's best estimate of the number of options that will ultimately vest. The charge or credit to profit or loss for a period represents the movement in cumulative expense recognised at the beginning and end of that period.

No expense is recognised for options that do not ultimately vest, except for options where vesting is conditional upon a market or non-vesting condition, which are treated as vested irrespective of whether or not the market or non-vesting condition is satisfied, provided that all other performance and/or service conditions are satisfied.

When the options are exercised, the employee share option reserve is transferred to share capital if new shares are issued.

The employee share option reserve is transferred to retained earnings upon forfeiture or expiry of the share options.

(d) Employee Share Grant Plan ("ESGP")

Employees of the Group and of the Company are entitled to performance based shares as consideration for services rendered. The ESGP may be settled by way of issuance or transfer of shares of the Company or by cash at the discretion of the ESGP Committee. Trusts have been set up and are administered by an appointed trustee ("ESGP Trusts"). The trustee will be entitled from time to time, to accept advances from the Company, upon such terms and conditions as the Company and the trustee may agree to purchase the ordinary shares of the Company ("Trust Shares") from the open market for the ESGP Trusts. The value of the ESGP Awards granted to Eligible Employees is recognised as an employee cost.

The ESGP Trusts' asset is consolidated into the Group's consolidated financial statements. Dividends received by the ESGP Trusts are eliminated against the Company's dividend payment.

4.11 Taxes

(a) Current income tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date in the countries where the Group and the Company operate and generate taxable income.

Current income tax relating to items recognised directly in equity is recognised in equity and not in statement of profit or loss. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

4.11 Taxes (cont'd)

(b) Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- (i) when the deferred tax liability arises from the initial recognition of goodwill or of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- (ii) in respect of taxable temporary differences associated with investments in subsidiaries and associate, where the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognised for all deductible temporary differences, carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised, except:

- (i) when the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- (ii) in respect of deductible temporary differences associated with investments in subsidiaries and associate, deferred tax assets are recognised only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profit will allow the deferred tax assets to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss. Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

The Group offsets deferred tax assets and deferred tax liabilities if and only if it has a legally enforceable right to set off current tax assets and current tax liabilities and the deferred tax assets and deferred tax liabilities relate to the same taxable entity and the same taxation authority.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

4.11 Taxes (cont'd)

(c) Sales and services tax ("SST")

Revenue, expenses and assets are recognised net of the amount of SST, except:

- (i) when the SST incurred on a purchase of assets or services is not recoverable from the taxation authority, in which case, the SST is recognised as part of the cost of acquisition of the assets or as part of the expense item as applicable; and
- (ii) when receivables and payables are stated with the amount of SST included.

The payable amount of SST to the taxation authority is included as part of payables in the statements of financial position

4.12 Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

4.13 Property, plant and equipment

Capital work-in-progress is stated at cost, net of accumulated impairment losses, if any. Property, plant and equipment is stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. Such cost includes the cost of replacing component parts of the property, plant and equipment and borrowing costs for long-term construction projects if the recognition criteria are met.

When significant parts of property, plant and equipment are required to be replaced at intervals, the Group derecognises the replaced part, and recognises the new part with its own associated useful life and depreciation. Likewise, when a major inspection is performed, its cost is recognised in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognised in the profit or loss as incurred. The present value of the expected cost for the decommissioning of the asset after its use is included in the cost of the respective asset if the recognition criteria for a provision are met.

Freehold land has an unlimited useful life and therefore is not depreciated. Capital work-in-progress are not depreciated as these assets are not available for use. Depreciation is computed on a straight-line basis over the estimated useful lives of the assets as follows:

Buildings	20 to 50 years
Plant and equipment	3 to 20 years
Other assets	5 to 10 years

An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal (i.e. at the date the recipient obtains control) or when no future economic benefits are expected from its use or disposal. Any gain or loss on derecognition of the asset is included in the statement of profit or loss when the asset is derecognised.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

4.14 Investment properties

Investment properties are properties which are held either to earn rental income or for capital appreciation or for both. Investment properties are initially measured at cost, including transaction costs. Subsequent to initial recognition, investment properties are measured at fair value which reflects market conditions at the reporting date. Fair value is arrived at using the investment method that makes reference to estimated market rental values and equivalent yields, or comparison method that makes reference to recent transaction prices of similar properties. Valuation is performed by accredited independent valuer having an appropriate recognised professional qualification and recent experience in the location and category of the properties being valued. Gains or losses arising from changes in the fair values of investment properties are included in profit or loss in the year in which they arise, including the corresponding tax effect.

Investment properties are derecognised either when they have been disposed of (i.e. at the date the recipient obtains control) or when the investment property is permanently withdrawn from use and no future economic benefit is expected from its disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognised in the profit or loss in the period of derecognition.

Transfers are made to (or from) investment properties only when there is a change in use. For a transfer from investment property to owner-occupied property, the deemed cost for subsequent accounting is the fair value at the date of change in use. If owner-occupied property becomes an investment property, the Group accounts for such property in accordance with the accounting policy for property, plant and equipment set out in Note 4.13 up to the date of change in use.

4.15 Leases

The Group and the Company assess at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

(a) Group as a lessee

The Group and the Company apply a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Group and the Company recognise lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

(i) Right-of-use assets

The Group and the Company recognise right-of-use assets at the commencement date of the lease (i.e. the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets, as follows:

Leasehold land	50 to 99 years
Buildings	20 to 50 years
Plant and equipment	4 to 20 years
Other assets	5 to 10 years

If ownership of the leased asset transfers to the Group and the Company by the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset.

The right-of-use assets are also subject to impairment in accordance with the accounting policy set out in Note 4.17.

Notes To The Financial Statements

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

4.15 Leases (cont'd)

(a) Group as a lessee (cont'd)

(ii) Lease liabilities

At the commencement date of the lease, the Group and the Company recognise lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and the Company and payments of penalties for terminating the lease, if the lease term reflects the Group and the Company exercising the option to terminate.

In calculating the present value of lease payments, the Group and the Company use its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

(iii) Short-term leases and leases of low-value assets

The Group and the Company apply the short-term lease recognition exemption to its short-term leases of hostels, automated teller machine ("ATM") and forklift (i.e. those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases of photocopiers that are considered to be low value. Lease payments on short-term leases and leases of low value assets are recognised as expense on a straight-line basis over the lease term.

(b) Group as a lessor

Leases in which the Group and the Company do not transfer substantially all the risks and rewards incidental to ownership of an asset are classified as operating leases. Rental income arising is accounted for on a straight-line basis over the lease terms and is included in other income in the statement of profit or loss due to its operating nature. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income. Contingent rents are recognised as other income in the period in which they are earned.

4.16 Inventories

Inventories are valued at the lower of cost and net realisable value. Costs incurred in bringing the inventories to their present location and condition are accounted for as follows:

- Raw materials, consumables and hardware: purchase costs on a weighted average basis.
- Finished goods and work-in-progress: costs of direct materials and labour and a proportion of manufacturing overheads based on normal operating capacity, excluding borrowing costs.

Net realisable value is the estimated selling price in the ordinary course of business less estimated costs of completion and the estimated costs necessary to make the sale.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

4.17 Impairment of non-financial assets

The Group and the Company assess, at each reporting date, whether there is an indication that an asset may be impaired. If an indication exists, or when annual impairment testing for an asset is required, the Group and the Company estimate the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's ("CGU") fair value less costs of disposal and its value-in-use. The recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value-in-use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded companies or other available fair value indicators.

The Group and the Company base their impairment calculation on most recent budgets and forecast calculations, which are prepared separately for each of the Group's and the Company's CGUs to which the individual assets are allocated. These budgets and forecast calculations generally cover a period of five years. A long-term growth rate is calculated and applied to project future cash flows after the fifth year.

Impairment losses of continuing operations, including impairment on inventories, are recognised in profit or loss in expense categories consistent with the function of the impaired asset.

Goodwill is tested for impairment annually at each reporting date and when circumstances indicate that the carrying value may be impaired. Impairment is determined for goodwill by assessing the recoverable amount of each CGU (or group of CGUs) to which the goodwill relates. When the recoverable amount of the CGU is less than its carrying amount, an impairment loss is recognised. Impairment losses relating to goodwill cannot be reversed in future periods.

For assets other than goodwill, an assessment is made at each reporting date to determine whether there is an indication that previously recognised impairment losses no longer exist or have decreased. If such indication exists, the recoverable amount of the asset or CGU is estimated. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in profit or loss.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

4.18 Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

(a) Financial assets

Initial recognition and measurement

Financial assets are classified, at initial recognition, as subsequently measured at amortised cost, fair value through OCI, or fair value through profit or loss.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Group's and the Company's business model for managing them. With the exception of trade receivables that do not contain a significant financing component or for which the Group and the Company have applied the practical expedient, the Group and the Company initially measure a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs. Trade receivables that do not contain a significant financing component or for which the Group and the Company have applied the practical expedient are measured at the transaction price determined under MFRS 15.

In order for a financial asset to be classified and measured at amortised cost or fair value through OCI, it needs to give rise to cash flows that are solely payments of principal and interest ("SPPI") on the principal amount outstanding. This assessment is referred to as the SPPI test and is performed at an instrument level.

The Group's and the Company's business model for managing financial assets refers to how they manage their financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both.

Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e. the date that the Group and the Company commit to purchase or sell the asset.

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in four categories:

- Financial assets at amortised cost (debt instruments);
- Financial assets at fair value through OCI with recycling of cumulative gains and losses (debt instruments);
- Financial assets designated at fair value through OCI with no recycling of cumulative gains and losses upon derecognition (equity instruments); and
- Financial assets at fair value through profit or loss.

The Group and the Company have no financial assets carried at fair value through OCI for equity instruments.

(i) Financial assets at amortised cost (debt instruments)

The Group and the Company measure financial assets at amortised cost if both of the following conditions are met:

- The financial asset is held within a business model with the objective to hold financial assets in order to collect contractual cash flows; and
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at amortised cost are subsequently measured using the effective interest rate ("EIR") method and are subject to impairment. Gains and losses are recognised in profit or loss when the asset is derecognised, modified or impaired.

The Group's and the Company's financial assets at amortised cost include cash and bank balances, trade and other receivables and other non-current financial assets.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

4.18 Financial instruments (cont'd)

(a) Financial assets (cont'd)

Subsequent measurement (cont'd)

(ii) Financial assets at fair value through OCI (debt instruments)

The Group and the Company measure debt instruments at fair value through OCI if both of the following conditions are met:

- The financial asset is held within a business model with the objective of both holding to collect contractual cash flows and selling; and
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

For debt instruments at fair value through OCI, interest income, foreign exchange revaluation and impairment losses or reversals are recognised in the statement of profit or loss and computed in the same manner as for financial assets measured at amortised cost. The remaining fair value changes are recognised in OCI. Upon derecognition, the cumulative fair value change recognised in OCI is recycled to profit or loss.

The Group's and the Company's debt instruments at fair value through OCI include investments in quoted debt securities included under other current financial assets.

(iii) Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss include financial assets held for trading, financial assets designated upon initial recognition at fair value through profit or loss, or financial assets mandatorily required to be measured at fair value. Financial assets are classified as held for trading if they are acquired for the purpose of selling or repurchasing in the near term. Derivatives, including separated embedded derivatives, are also classified as held for trading unless they are designated as effective hedging instruments. Financial assets with cash flows that are not solely payments of principal and interest are classified and measured at fair value through profit or loss, irrespective of the business model. Notwithstanding the criteria for debt instruments to be classified at amortised cost or at fair value through OCI, as described above, debt instruments may be designated at fair value through profit or loss on initial recognition if doing so eliminates, or significantly reduces, an accounting mismatch.

Financial assets at fair value through profit or loss are carried in the statement of financial position at fair value with net changes in fair value recognised in the statement of profit or loss.

This category includes derivative instruments which the Group had not irrevocably elected to classify at fair value through OCI.

A derivative embedded in a hybrid contract, with a financial liability or non-financial host, is separated from the host and accounted for as a separate derivative if: the economic characteristics and risks are not closely related to the host; a separate instrument with the same terms as the embedded derivative would meet the definition of a derivative; and the hybrid contract is not measured at fair value through profit or loss. Embedded derivatives are measured at fair value with changes in fair value recognised in profit or loss. Reassessment only occurs if there is either a change in the terms of the contract that significantly modifies the cash flows that would otherwise be required or a reclassification of a financial asset out of the fair value through profit or loss category.

A derivative embedded within a hybrid contract containing a financial asset host is not accounted for separately. The financial asset host together with the embedded derivative is required to be classified in its entirety as a financial asset at fair value through profit or loss.

The Group has designated derivatives that do not qualify for hedge accounting, money market funds, debt securities and unquoted investments at fair value through profit or loss.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

4.18 Financial instruments (cont'd)

(a) Financial assets (cont'd)

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e. removed from the Group's and the Company's statements of financial position) when:

- The rights to receive cash flows from the asset have expired; or
- The Group and the Company have transferred their rights to receive cash flows from the asset or have assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Group and the Company have transferred substantially all the risks and rewards of the asset, or (b) the Group and the Company have neither transferred nor retained substantially all the risks and rewards of the asset, but have transferred control of the asset.

When the Group and the Company have transferred their rights to receive cash flows from an asset or have entered into a pass-through arrangement, they evaluate if, and to what extent, they have retained the risks and rewards of ownership. When they have neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Group and the Company continue to recognise the transferred asset to the extent of their continuing involvement. In that case, the Group and the Company also recognise an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group and the Company have retained.

Impairment of financial assets

The Group and the Company recognise an allowance for expected credit losses ("ECLs") for all debts instruments not held at fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group and the Company expect to receive, discounted at an approximation of the original EIR. The expected cash flows will include cash flows from the sales of collateral held or other credit enhancements that are integral to the contractual terms.

ECLs are recognised in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12 months ("12-month ECL"). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default ("lifetime ECL").

For trade receivables, the Group applies simplified approach in calculating ECLs. Therefore, the Group does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECL at each reporting date. The Group has established a provision matrix that is based on historical credit experience. The Group considers forward looking factors do not have significant impact to credit risk given the nature of its industry and the amount of ECLs is insensitive to changes to forecast economic conditions.

For debt instruments at fair value through OCI, the Group and the Company apply the low credit risk simplification. At every reporting date, the Group and the Company evaluate whether the debt instrument is considered to have low credit risk using all reasonable and supportable information that is available without undue cost or effort. In making that evaluation, the Group and the Company reassess the internal credit rating of the debt instrument. In addition, the Group and the Company consider that there has been a significant increase in credit risk when contractual payments are more than 30 days past due.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

4.18 Financial instruments (cont'd)

(a) Financial assets (cont'd)

Impairment of financial assets (cont'd)

The Group's and the Company's debt instruments at fair value through OCI comprise solely of quoted bonds that are graded in the top investment category (Very Good and Good) by the Good Credit Rating Agency and, therefore, are considered to be low credit risk investments. It is the Group's and the Company's policy to measure ECLs on such instruments on a 12-month basis. However, when there has been a significant increase in credit risk since origination, the allowance will be based on the lifetime ECL. The Group and the Company use the ratings from the Good Credit Rating Agency both to determine whether the debt instrument has significantly increased in credit risk and to estimate ECLs.

The Group and the Company generally consider a financial asset to be in default when contractual payments are 120 days past due, except for certain major or specific customers where the period may extend beyond 120 days. In certain cases, the Group and the Company may also consider a financial asset to be in default when internal and external information indicates that the Group and the Company are unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Group and the Company. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

(b) Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, lease liabilities or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Group and the Company's financial liabilities include trade and other payables, lease liabilities, derivative financial instruments, and loans and borrowings.

Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

(i) Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss.

Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Group that are not designated as hedging instruments in hedge relationships as defined by MFRS 9. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments.

Gains or losses on liabilities held for trading are recognised in the statement of profit or loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated at the initial date of recognition, and only if the criteria in MFRS 9 are satisfied. The Group has designated derivative financial instruments as financial liability at fair value through profit or loss.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

4.18 Financial instruments (cont'd)

(b) Financial liabilities (cont'd)

Subsequent measurement (cont'd)

(ii) Financial liabilities at amortised cost

This is the category most relevant to the Group and the Company. After initial recognition, trade and other payables, interest-bearing loans and borrowings and lease liabilities are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit or loss.

This category generally applies to trade and other payables, interest-bearing loans and borrowings and lease liabilities.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

(c) Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the consolidated and separate statement of financial position if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

4.19 Derivative financial instruments and hedging activities

Initial recognition and subsequent measurement

The Group uses derivative financial instruments, such as forward currency contracts to hedge its foreign currency risks. Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently remeasured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

For the purpose of hedge accounting, hedges are classified as:

- Fair value hedges when hedging the exposure to changes in the fair value of a recognised asset or liability or an unrecognised firm commitment;
- Cash flow hedges when hedging the exposure to variability in cash flows is either attributable to a particular risk associated with a recognised asset or liability or a highly probable forecast transaction or the foreign currency risk in an unrecognised firm commitment; and
- Hedges of a net investment in a foreign operation.

At the inception of a hedge relationship, the Group formally designates and documents the hedge relationship to which it wishes to apply hedge accounting and the risk management objective and strategy for undertaking the hedge.

4.19 Derivative financial instruments and hedging activities (cont'd)

Initial recognition and subsequent measurement (cont'd)

The documentation includes identification of the hedging instrument, the hedged item, the nature of the risk being hedged and how the Group will assess whether the hedging relationship meets the hedge effectiveness requirements (including the analysis of sources of hedge ineffectiveness and how the hedge ratio is determined). A hedging relationship qualifies for hedge accounting if it meets all of the following effectiveness requirements:

- There is 'an economic relationship' between the hedged item and the hedging instrument.
- The effect of credit risk does not 'dominate the value changes' that result from that economic relationship.
- The hedge ratio of the hedging relationship is the same as that resulting from the quantity of the hedged item that the Group actually hedges and the quantity of the hedging instrument that the Group actually uses to hedge that quantity of hedged item.

4.20 Cash and bank balances

Cash and bank balances in the statements of financial position comprise cash at banks and on hand and short-term deposits.

For the purpose of the statements of cash flows, cash and cash equivalents consist of cash and short-term deposits with a maturity of three months or less excluding deposits pledged with banks that are not available for use.

4.21 Equity instruments and related expenses

An equity instrument is any contract that evidences a residual interest in the assets of the Group and the Company after deducting all of its liabilities. Ordinary shares and Perpetual Sukuk are classified as equity instruments.

Dividends on ordinary shares and distribution on Perpetual Sukuk are recognised in equity in the period in which they are declared.

The transaction costs of an equity transaction are accounted for as a deduction from equity, net of tax. Equity transaction costs comprise only those incremental external costs directly attributable to the equity transaction which would otherwise have been avoided.

4.22 Treasury shares

Own equity instruments that are reacquired (treasury shares) are recognised at cost and deducted from equity. No gain or loss is recognised in profit or loss on the purchase, sale, issue or cancellation of the Group's and the Company's own equity instruments. Any difference between the carrying amount and the consideration, if reissued, is recognised in the retained earnings.

4.23 Cash dividend and non-cash distribution to equity holders of the Company

The Company recognises a liability to make cash or non-cash distributions to equity holders of the parent when the distribution is authorised and the distribution is no longer at the discretion of the Company. A distribution is authorised when it is approved by the Board of Directors and a corresponding amount is recognised directly in equity.

Non-cash distributions are measured at the fair value of the assets to be distributed with fair value re-measurement recognised directly in equity.

Upon distribution of non-cash assets, any difference between the carrying amount of the liability and the carrying amount of the assets distributed is recognised in profit or loss.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

4.24 Provisions

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Group expects that some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the statement of profit or loss net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, where appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

4.25 Contract liabilities

A contract liability is recognised if a payment is received or a payment is due (whichever is earlier) from a customer before the Group transfers the related goods or services. Contract liabilities are recognised as revenue when the Group performs under the contract (i.e. transfers control of the related goods or services to the customer).

4.26 Contingencies

A contingent liability or asset is a possible obligation or asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of uncertain future event(s) not wholly within the control of the Group and of the Company.

Contingent liabilities and assets are not recognised in the statements of financial position of the Group and of the Company.

4.27 Segment reporting

For management purposes, the Group is organised into operating segments based on their geographical location which are independently managed by the respective segment managers responsible for the performance of the respective segments under their charge. The segment managers report directly to the management of the Group who regularly review the segment results in order to allocate resources to the segments and to assess the segment performance. Additional disclosures on each of these segments are shown in Note 46, including the factors used to identify the reportable segments and the measurement basis of segment information.

4.28 Biological assets

Biological assets comprise immature planted trees and are classified as non-current assets. It is expected to be harvested and sold.

Immature planted trees are reclassified to mature planted trees when they are commercially productive and available for harvest. In general, a paulownia bearer plant takes about 3 years to reach maturity from the time of planting the seedlings to the field.

Biological assets are measured at fair value less costs to sell. Any gains or losses arising from changes in the fair value less costs to sell are recognised in profit or loss.

Notes To The Financial Statements

For the financial year ended 31 August 2023 (cont'd)

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

4.29 Assets held for sale

The Group classifies non-current assets as held for sale if their carrying amounts will be recovered principally through a sale transaction rather than through continuing use. Non-current assets classified as held for sale are measured at the lower of their carrying amount and fair value less costs to sell. Costs to sell are the incremental costs directly attributable to the disposal of an asset, excluding finance costs and income tax expense.

The criteria for held for sale classification is regarded as met only when the sale is highly probable, and the asset is available for immediate sale in its present condition. Actions required to complete the sale should indicate that it is unlikely that significant changes to the sale will be made or that the decision to sell will be withdrawn. Management must be committed to the plan to sell the asset and the sale is expected to be completed within one year from the date of the classification.

Property, plant and equipment is not depreciated once classified as held for sale.

Assets classified as held for sale are presented separately as current items in the statement of financial position.

Additional disclosures are provided in Note 28. All other notes to the financial statements include amounts for continuing operations, unless indicated otherwise.

4.30 Climate-related matters

The Group considers climate-related matters in estimates and assumptions, where appropriate. This assessment includes a wide range of possible impacts on the group due to both physical and transition risks. Even though the Group believes its business model and products will still be viable after the transition to a low-carbon economy, climate-related matters increase the uncertainty in estimates and assumptions underpinning several items in the financial statements. Even though climate-related risks might not currently have a significant impact on measurement, the Group is closely monitoring relevant changes and developments, such as new climate-related legislation. The items and considerations that are most directly impacted by climate-related matters are:

(a) Useful life of property, plant and equipment

When reviewing the residual values and expected useful lives of assets, the Group considers climate-related matters, such as climate-related legislation and regulations that may restrict the use of assets or require significant capital expenditures.

(b) Impairment of non-financial assets

The value-in-use may be impacted in several different ways by transition risk in particular, such as climate-related legislation and regulations and changes in demand for the Group's products.

(c) Fair value measurement

For property, plant and equipment, the Group considers the effects of physical and transition risks and whether investors would consider those risks in their valuation. The group believes it is not currently exposed to severe physical risks, but believes that investors, to some extent, would consider impacts of transition risks in their valuation, such as increasing requirements for energy efficiency of buildings due to climate-related legislation and regulations as well as tenants' increasing demands for low-emission buildings.

7. SIGNIFICANT ACCOUNTING JUDGEMENTS, ESTIMATES AND ASSUMPTIONS

The preparation of the Group's and of the Company's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the disclosure of contingent liabilities, at the end of the reporting period. However, uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected in future periods.

7.1 Judgements made in applying accounting policies

In the process of applying the Group's and the Company's accounting policies, management has not made any critical judgements, apart from those involving estimations, which could have a significant effect on the amounts recognised in the financial statements except as discussed below:

Classification between investment properties and property, plant and equipment

The Group has developed certain criteria based on MFRS 140 in making judgement whether a property qualifies as an investment property. Investment properties are properties held to earn rentals or for capital appreciation or both.

Some properties comprise a portion that is held to earn rentals or for capital appreciation and another portion that is held for use in the production or supply of goods or services or for administrative purposes. If these portions could be sold separately (or leased out separately under a finance lease), the Group would account for the portions separately. If the portions could not be sold separately, the property is an investment property only if an insignificant portion is held for use in the production or supply of goods or services or for administrative purposes. Judgement is made on an individual property basis to determine whether ancillary services are so significant that a property does not qualify as investment property. The Group has determined that its properties held to earn rental income or capital appreciation are investment properties as only an insignificant portion of the properties is used in the production or supply of goods or services or for administrative purposes and ancillary services are not significant to the properties.

7.2 Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Group based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising beyond the control of the Group. Such changes are reflected in the assumptions when they occur.

(a) Inventories costing

In determining the costing of inventories, management's estimate is required in determining the basis of valuation for finished goods and work-in-progress which comprise costs of raw materials, direct labour, other direct costs, and the appropriate allocation of overheads based on normal operating capacity.

(b) Impairment of goodwill

Goodwill is tested for impairment at each reporting period and at other times when such indicators exist. This requires an estimation of the value-in-use of the cash-generating units to which goodwill is allocated.

When value-in-use calculations are undertaken, management must estimate future cash flows from the cash-generating unit and choose a suitable discount rate in order to calculate the present values of those cash flows. Further details of the carrying value, the key assumptions applied in the impairment assessment and sensitivity analysis to changes in the assumptions are disclosed in Note 22.

(c) Impairment of property, plant and equipment and right-of-use assets

At each reporting date, the Group assesses if any indication of impairment exists for property, plant and equipment and right-of-use assets. The recoverable amounts are determined based on the higher of value-in-use and fair value less costs of disposal.

13. INCOME TAX (CREDIT)/EXPENSE (CONT'D)

Reconciliation between tax (credit)/expense and accounting (loss)/profit (cont'd)

Domestic income tax is calculated at the Malaysian statutory tax rate of 24% (2022: 24%) of the estimated assessable profit for the year. Taxation for other jurisdictions is calculated at the rates prevailing in the respective jurisdictions.

The above reconciliation is prepared by aggregating separate reconciliations for each national jurisdiction.

14. (LOSS)/EARNINGS PER SHARE

(a) Basic

Basic earnings per share is calculated by dividing (loss)/profit for the year, net of tax, attributable to owners of the parent by the weighted average number of ordinary shares outstanding during the financial year, excluding treasury shares held by the Company.

	2023	2022
(Loss)/profit net of tax attributable to owners of the parent (RM'000)	(925,218)	225,564
Weighted average number of ordinary shares in issue ('000)	8,008,644	8,008,219
Basic (loss)/earnings per share (sen)	(11.55)	2.82

(b) Diluted

Diluted earnings per share is calculated by dividing (loss)/profit for the year, net of tax, attributable to owners of the parent by the weighted average number of ordinary shares outstanding during the financial year plus the weighted average number of ordinary shares that would be issued on the conversion of all the dilutive potential ordinary shares into ordinary shares.

	2023	2022
(Loss)/profit net of tax attributable to owners of the parent (RM'000)	(925,218)	225,564
Weighted average number of ordinary shares in issue ('000)	8,008,644	8,008,219
Effect of dilution from:		
Assumed exercise of share options ('000)	-	3,831

15. PROPERTY, PLANT AND EQUIPMENT (CONT'D)

Included in the property, plant and equipment of the Group are fully depreciated assets which are still in use, with their carrying costs as follows:

	2023 RM'000	2022 RM'000
Buildings	2,837	381
Plant and equipment	460,974	445,359
Other assets	134,686	102,938
	598,497	548,678

During the financial year, the property, plant and equipment and right-of-use assets of the Group were tested for impairment due to impairment indicators arising from drop in demand for gloves and decrease in average selling price of gloves. Management had undertaken an assessment of the recoverable amount of these assets during the financial year. Recoverable amount is defined as the higher of value-in-use and fair value less costs of disposal and determined at the CGU of each asset.

Recoverable amount determined from fair value less costs of disposal

The fair values of certain property, plant and equipment and rights-of-use assets were determined by independent professional valuers.

Recoverable amount determined from value-in-use ("VIU")

The following describes each key assumption on which management has based its cash flows projection to undertake impairment testing of certain property, plant and equipment:

- (i) Growth rate for the cash flows projection is determined based on management's estimate of the industry trends and past performances of the segments, thereafter terminal growth rate including maintainable capital expenditure is assumed to be 0% - 1% (2022 : 0% - 1%).
- (ii) A range of pre-tax discount rate of 16.4% - 18.1% (2022: 15.7% - 19.2%) was applied in determining the recoverable amount of the CGUs. The discount rates used to discount the future cash flows reflect the specific risks relating to the respective CGUs.
- (iii) Budgeted profit margin is determined based on management's estimate of the industry trends for the average selling price of gloves and the production utilisation rate.

The abovementioned impairment testing did not give rise to impairment losses of property, plant and equipment and right-of-use assets except for certain property, plant and equipment and right-of-use assets owned by a subsidiary in Vietnam. Based on the impairment assessment, the Group recorded impairment losses of RM70.8 million on the basis that the carrying amounts exceeded the recoverable amounts. This impairment losses is included in profit and loss as disclosed in Note 11.

17. INVESTMENT PROPERTIES (CONT'D)

The fair value of investment properties were determined based on valuations performed by registered independent valuers using the following methods:

(a) Comparison method

Fair value is arrived at by reference to market evidence of transaction prices for similar properties, adjustments are made to account for factors such as differences in location, age, size and type of property.

An upward/(downward) change in the adjustments for factors such as differences in location, age, size and type of property will result in a higher/(lower) fair value of the investment properties.

(b) Investment method

This method considers the present value of net rental income to be generated from the property, taking into account the expected rental growth rate, occupancy rate and lease incentive. This net rental income is discounted at a risk-adjusted discount rate to arrive at its present value. The key inputs to the valuation of investment properties are as follows:

	Valuation technique	Significant unobservable inputs	Range	
			2023	2022
Freehold land and building	Investment method (Discounted cash flows method)	Estimated rental value per square foot per month	RM3.24 to RM4.02	RM4.50 to RM5.20
		Term yield rate	6.0%	6.5%
		Occupancy rate	85.5%	88.0%
		Long term vacancy rate	14.5%	12.0%

Using the discounted cash flows method, fair value is estimated using assumptions regarding the benefits and liabilities of ownership over the asset's life including a terminal value. This method involves the projection of a series of cash flows on a real property interest. To this projected cash flow series, a market-derived discount rate is applied to establish the present value of the income stream associated with the asset.

The duration of the cash flows and the specific timing of inflows and outflows are determined by events such as rent reviews, lease renewal and related re-letting, redevelopment, or refurbishment. The appropriate duration is typically driven by market behaviour that is a characteristic of the class of real property. Periodic cash flow is typically estimated as gross income less vacancy, non-recoverable expenses, collection losses, lease incentives, maintenance cost, agent and commission costs and other operating and management expenses.

The series of periodic net operating income, along with an estimate of the terminal value anticipated at the end of the projection period, is then discounted. Significant increase/(decrease) in estimated rental value in isolation would result in a significantly higher/(lower) fair value of the property. Significant increases/(decreases) in the long term vacancy rate and yield rates in isolation would result in a significantly lower/(higher) fair value.

Generally, a change in the assumption made for the estimated rental value is accompanied by a directionally similar change in the rent growth per annum and discount rate, and an opposite change in the long term vacancy rate.

Notes To The Financial Statements

For the financial year ended 31 August 2023 (cont'd)

20. DEFERRED TAX LIABILITIES/(ASSETS) (CONT'D)

Deferred tax assets have not been recognised by the Group in respect of the following items:

	Group	
	2023 RM'000	2022 RM'000
Unutilised tax losses	586,042	39,086
Unabsorbed capital allowances	8,922	2,935
Other deductible temporary differences	858	425
	595,822	42,446

The unutilised tax losses, unabsorbed capital allowances and other deductible temporary differences applicable to foreign incorporated subsidiaries are pre-determined by and subject to the tax legislation of the respective countries.

The unabsorbed capital allowances and other deductible temporary differences of the Group are available indefinitely for offsetting against future taxable profits of the respective entities within the Group, subject to tax laws and guidelines issued by the tax authority enacted at the reporting date.

Tax losses for which the tax effects have not been recognised in the financial statements:

	Group	
	2023 RM'000	2022 RM'000
Expiring within 5 years	96,550	14,078
Expiring within 6 to 10 years	446,839	503
Indefinite	42,653	24,505
	586,042	39,086

Deferred tax assets have not been recognised by the Group in respect of these items as it is not probable that taxable profits of its subsidiaries would be available against which deductible temporary differences could be utilised.

Effective from year of assessment 2019, unutilised tax losses is allowed to be carried forward for a maximum period of seven years. Pursuant to Finance Act 2021, the time limit to utilise business losses has been extended to a maximum of 10 consecutive years, which is deemed to have effect from the year of assessment 2019.

22. INTANGIBLE ASSETS (CONT'D)

During the financial year, the goodwill and customer relationship of the Group were tested for impairment due to impairment indicators resulted by drop in demand for gloves and decrease in average selling price of gloves. Management had undertaken an assessment of the recoverable amount of the CGUs.

Key assumptions used in value-in-use calculations

The recoverable amount of a CGU is determined based on value-in-use calculations using cash flow projections based on financial budgets approved by management.

The following describes each key assumption on which management has based its cash flow projections to undertake impairment testing of goodwill and customer relationship:

- (i) Growth rate for the 5-year projection is determined based on the management's estimate on the industry trends and past performances of the segments, thereafter terminal growth rate including maintainable capital expenditure is assumed to be 1% (2022: 1%).
- (ii) An average pre-tax discount rate of 16.9% (2022: 14.1%) was applied in determining the recoverable amount of the unit. The discount rates used to discount the future cash flows reflect the specific risks relating to the CGU.
- (iii) Budgeted profit margin is determined based on the management's estimate on the industry trends for the average selling price of gloves and the production utilisation rate.

The abovementioned impairment testing did not give rise to impairment losses of goodwill and customer relationship, other than the goodwill of Aspion Sdn. Bhd. as disclosed below.

The recoverable amount of Aspion Sdn. Bhd. CGU of RM1,425,812,000 as at 31 August 2023 has been determined based on value-in-use calculations. As a result of this assessment, management has recognised an impairment charge of RM137,553,000 in the current year against goodwill with a carrying amount of RM933,954,000 as at 31 August 2022.

The Group is of the opinion that any reasonably possible change in the above key assumptions would not materially cause the recoverable amount of the CGUs to be lower than its carrying amount, other than the goodwill of Aspion Sdn. Bhd. as disclosed below.

Sensitivity to changes in key assumptions

An increase of 0.5% in the discount rate used would have decreased the value-in-use of Aspion Sdn. Bhd. by RM70,184,000.

Customer relationship

The cost of customer relationship with estimated economic definite useful life is amortised over a period of 11 years, with remaining amortisation period of 5 years (2022: 6 years).

Patent

The cost of patent with estimated economic definite useful life is amortised over a period ranging from 5 to 20 years (2022: 8 to 20 years), with remaining amortisation period ranging from 4 to 17 years (2022: 5 to 17 years).

Impaired	3,350	1,720
	170,382	232,854

Receivables that are neither past due nor impaired

Trade and other receivables that are neither past due nor impaired are creditworthy debtors with good payment records and are mostly regular customers that have been transacting with the Group.

None of the Group's trade receivables that are neither past due nor impaired have been renegotiated during the financial year.

Receivables that are past due but not impaired

The Group has trade receivables amounting to RM33,216,000 (2022: RM50,067,000) that are past due at the reporting date but not impaired. These balances mainly relate to customers who have never defaulted on payments but are slow paymasters and hence, are periodically monitored.

Receivables that are impaired

Receivables that are determined to be impaired at the reporting date when one or more events that have a detrimental impact on the estimated cash flow have occurred. These instances include adverse changes in the financial capability of the debtors and default or significant delays on payments. These receivables are not secured by any collateral or credit enhancements.

Allowance for expected credit loss

For receivables that are individually determined to be credit impaired at the reporting date, individual lifetime expected credit loss is recognised.

For receivables that are not individually credit impaired, the Group uses the provision matrix method to measure lifetime expected credit loss where the receivables are grouped based on shared credit risk characteristics and days past due. The calculation reflects the probability-weighted outcome, the time value of money and reasonable and supportable information that is available at the reporting date about past events, current conditions and forecasts of future economic conditions. The Group assessed that the amount of the allowance on these balances is insignificant.

At 31 August	8,207,925	1,843,271	8,207,105	1,842,189

During the financial year, the Company increased its issued and paid-up ordinary share capital by way of issuance of 819,600 (2022: 241,200) ordinary shares pursuant to the Company's ESOS at an exercise price between RM0.89 to RM0.99 (2022: between RM1.54 to RM3.86) per ordinary share.

The new ordinary shares issued during the financial year ranked pari passu in all respects with the existing ordinary shares of the Company.

34. TREASURY SHARES

This amount relates to the acquisition cost of treasury shares net of the proceeds received on their subsequent sale or issuance.

The shareholders of the Company, by an ordinary resolution passed in the annual general meeting held on 6 January 2023, renewed their approval for the Company's plan to repurchase its own shares.

In the previous financial year, the Company transferred 149,500 treasury shares to eligible employees and an executive director under the ESGP at an average market price of RM0.994 per share. The total transferred treasury shares net of transaction costs were RM148,000. The difference between the transferred treasury shares and the cost of the treasury shares which amounted to RM856,000 was recognised in equity.

Of the total 8,207,925,000 (2022: 8,207,105,200) issued and fully paid ordinary shares as at 31 August 2023, 199,764,300 (2022: 199,764,300) are held as treasury shares by the Company. As at 31 August 2023, the number of outstanding ordinary shares in issue and fully paid is therefore 8,008,160,700 (2022: 8,007,340,900) ordinary shares.

35. OTHER RESERVES (CONT'D)

(a) Foreign exchange reserve

The foreign currency translation reserve is used to record exchange differences arising from the translation of the financial statements of foreign operations whose functional currencies are different from that of the Group's presentation currency. It is also used to record the exchange differences arising from monetary items which form part of the Group's net investment in foreign operations, where the monetary item is denominated in either the functional currency of the reporting entity or the foreign operation.

(b) Legal reserve

This represents a general reserve provided for in respect of subsidiaries incorporated in the People's Republic of China and Thailand.

Under the Wholly Foreign Owned Enterprise ("WFOE") Law in the People's Republic of China, at least 10% of the net profit after taxation in each financial year must be credited to this reserve, until it reaches 50% of the registered paid up capital of the subsidiary.

Under the Civil and Commercial Code in Thailand, a company is required to set aside a statutory reserve equal to at least 5% of its net profit each time when the company pays out a dividend, until it reaches 10% of the registered share capital of the company.

(c) Share option reserve

The share option reserve represents the equity-settled share options granted to employees. This reserve is made up of the cumulative value of services received from employees recorded on grant of share options.

(d) Fair value adjustment reserve

This represents fair value through OCI reserves, which also represents the cumulative fair value changes, net of tax, if applicable, of fair value through OCI financial assets until they are disposed of.

(e) Revaluation reserve

Revaluation reserve represents fair value adjustments relating to transfers of property, plant and equipment to investment properties in accordance to MFRS 116: Property, Plant and Equipment.

At 31 August	1,175,694	1,175,694

On 22 January 2020, the Company's wholly-owned subsidiary, TG Excellence Berhad ("TGE") lodged the Perpetual Sukuk Programme with the Securities Commission Malaysia ("SC"). The Perpetual Sukuk Programme, under the Shariah principle of Wakalah Bi Al-Istithmar, is guaranteed by the Company via a subordinated guarantee. The Perpetual Sukuk Programme provides TGE with the flexibility to issue unsecured and subordinated perpetual sukuk from time to time, subject to the aggregate outstanding nominal amount not exceeding RM3.0 billion at any point in time.

On 27 February 2020, TGE completed the first issuance with a nominal value of RM1.3 billion under the Perpetual Sukuk Programme. The Perpetual Sukuk was issued with a tenure of perpetual non-callable 5 years with an initial periodic distribution rate of 3.95% per annum.

Notes To The Financial Statements

For the financial year ended 31 August 2023 (cont'd)

36. PERPETUAL SUKUK (CONT'D)

The proceeds raised from the issuance of the Perpetual Sukuk are allowed to be utilised by the Group to refinance the existing financing and debt obligations, repayment of intercompany borrowings, capital expenditure, working capital requirements and general corporate purposes. All utilisation of proceeds shall be Shariah-compliant.

Under the Perpetual Sukuk Programme, TGE may, at its sole discretion, redeem the Perpetual Sukuk pursuant to certain redemption events.

There are no events of default or dissolution events which will entitle the sukuk holders to declare any or all amounts under the Perpetual Sukuk Programme to be immediately due and payable, save for certain enforcement events, as described below.

The Perpetual Sukuk Programme has been accorded an indicative credit rating of AA-IS (cg) by Malaysian Rating Corporation Berhad.

The salient features of the Perpetual Sukuk are as follows:

- (a) The Perpetual Sukuk shall constitute direct, unsecured, unconditional and subordinated obligations of TGE and shall at all times rank (i) below all present and future creditors of TGE; (ii) pari passu with any instrument issued or guaranteed by TGE that ranks pari passu with the Perpetual Sukuk; and (iii) ahead of any class of TGE's share capital, including without limitation, any ordinary shares.
- (b) Being perpetual in nature, TGE has a call option to redeem the Perpetual Sukuk under the following circumstances:
 - (i) Optional redemption at the first call date of the Perpetual Sukuk and on each periodic distribution date of the expected distribution amount thereafter.
 - (ii) Accounting event - change in accounting standards resulting in Perpetual Sukuk no longer being recognised as an equity instrument.
 - (iii) Tax event - if the expected periodic distribution of the profit would not be fully tax deductible or TGE become obligated to pay additional tax due to changes in tax laws or regulations.
 - (iv) Rating event - change in rating methodology by the rating agency that results in a lower equity credit for the relevant tranche of the Perpetual Sukuk.
- (c) The initial periodic distribution rate is 3.95% per annum, subject to reset every 5 years at the prevailing 5-year Malaysian Government Securities rate, initial credit spread of 1.209% and stepped up margin of 1.000%.
- (d) The periodic distribution amount is payable five years from the issue date of the respective tranche and every five years thereafter.
- (e) TGE may, at its sole discretion, opt to (i) defer the periodic distribution or (ii) further defer any outstanding arrears of deferred periodic distribution, provided that it has not during the last six months declared or paid any dividend or payment or other distributions in respect of or redeem or repurchase its ordinary shares or any other securities of TGE ranking junior to or pari passu with the Perpetual Sukuk. The deferred periodic distribution, if any, will be cumulative and will not earn additional profits (i.e. there will be no compounding of the periodic distribution being deferred). There is no limit as to the number of times the expected periodic amount and the arrears of deferred periodic distribution can be deferred.
- (f) Notwithstanding the optional deferral stipulated in (e) above, all outstanding arrears of deferred periodic distribution shall be due and payable within fifteen days from the date TGE declared or paid any dividend or payment or other distributions in respect of or redeem or repurchase its ordinary shares or any other securities of TGE ranking junior to or pari passu with the Perpetual Sukuk.

In the previous financial year, TGE has exercised optional redemption to redeem an aggregate RM119,568,000 nominal value of Perpetual Sukuk. As at 31 August 2023, the outstanding nominal value of Perpetual Sukuk was RM1,175,694,000.

37. RETAINED EARNINGS

The Company may distribute dividends out of its entire retained earnings as at 31 August 2023 and 2022 under the single tier system.

38. SHARE BASED PAYMENTS

(i) ESOS

The Company's ESOS is governed by the By-Laws which was approved by the shareholders at the Extraordinary General Meeting held on 9 January 2018 and became effective on 2 August 2018.

The main features of the ESOS are as follows:

- (a) The ESOS shall be in force for a period of ten years from the date of the receipt of the last of the requisite approvals.
- (b) Eligible persons are employees of the Group (including executive directors) who have been confirmed in the employment of the Group. The eligibility for participation in the ESOS shall be at the discretion of the Options Committee appointed by the Board of Directors.
- (c) The total number of shares to be issued under the ESOS shall not exceed in aggregate 10% of the issued and paid up share capital of the Company at any point of time during the tenure of the ESOS.
- (d) The option price for each share shall be the 5-days weighted average market price of the underlying shares before the ESOS Options are granted, with either a premium or a discount of not more than ten percent (10%).
- (e) No option shall be granted for less than 100 shares to any eligible employee.
- (f) An option granted under the ESOS shall be capable of being exercised by the grantee by notice in writing to the Company commencing from the vest date but before the expiry on 31 May 2028.
- (g) All new ordinary shares issued upon exercise of the options granted under the ESOS will rank pari passu in all respect with the existing ordinary shares of the Company other than as may be specified in a resolution approving the distribution of dividends prior to their exercise dates.
- (h) No eligible person shall participate at any time in more than one share option scheme implemented by any company within the Group unless otherwise approved by the Options Committee.
- (i) The options shall not carry any right to vote at a general meeting of the Company.

September 2021 - August 2022	3.86	0.80 - 3.92	42.9	165.6
			241.2	498.0

Fair value of share options

The fair value of share options granted were estimated by using a binomial option pricing model, taking into account the terms and conditions upon which the options were granted. The fair value of share options measured at grant date and the assumptions are used as follows:

Fair value of share options at the following grant dates (RM):

27 January 2022	0.66
29 July 2022	0.33
31 January 2023	0.28
31 July 2023	0.39
Weighted average share price (RM)	0.83 - 2.08
Weighted average exercise price (RM)	0.88 - 2.12
Expected volatility (%)	30.33 - 42.07
Expected life (years)	4.84 - 6.35
Risk free interest rate (%)	3.48 - 3.80
Expected dividend yield (%)	0.00 - 1.23

The expected life of the share options is based on historical data and is not necessarily indicative of exercise patterns that may occur. The expected volatility reflects the assumption that the historical volatility is indicative of future trends, which may also not necessarily be the actual outcome.

38. SHARE BASED PAYMENTS (CONT'D)

(ii) ESGP

The Company's ESGP is governed by the By-Laws which was approved by the shareholders at the Extraordinary General Meeting held on 6 January 2016 and became effective on 12 January 2016 and is administered by the ESGP Committee.

Under the ESGP, eligible employees may be granted ESGP Awards comprising shares of the Company. The ESGP Awards, once accepted, will vest without any consideration payable, subject to vesting date(s) and/or vesting conditions as may be determined at the discretion of the ESGP Committee. The ESGP Committee may, at its discretion, decide that any vesting of the Company's shares comprised in an ESGP Award shall be satisfied through:

- the issuance of new shares of the Company;
- the transfer of existing shares of the Company;
- settlement in cash; or
- a combination of any of the above.

The main features of the ESGP are as follows:

- The aggregate number of shares of the Company which may be awarded under the ESGP and any other schemes involving issuance of new shares of the Company to employees which are still subsisting shall not exceed 10% of the issued and paid-up share capital of the Company ("Plan Size").
- Eligible persons are any employee or executive director of the Group (excluding dormant subsidiaries) who fulfills the eligibility criteria. The eligibility for participation in the ESGP shall be at the discretion of the ESGP Committee appointed by the Board of Directors.
- The number of shares comprised in each ESGP Award shall be determined at the discretion of the ESGP Committee after taking into consideration, inter alia, the performance and seniority, years of service and potential for future development of the eligible employees and the employees' contribution to the Group as well as such other criteria as the ESGP Committee may deem relevant.
- The aggregate number of shares that may be allocated to any one participant shall not exceed 10% of the total number of shares to be awarded under the ESGP and any other schemes involving issuance of new shares of the Company which may be implemented from time to time by the Company.
- The aggregate maximum allocation to the directors and senior management of the Group (excluding dormant subsidiaries) shall not be more than 75% of the Company's shares awarded under the ESGP.
- The ESGP shall be in force for a period of ten years from the effective date of implementation which is the date the last of the requisite approvals and/or conditions have been obtained and/or complied with.
- The shares to be allotted and issued under the ESGP will, upon allotment and issue, rank pari passu in all respects with the existing shares of the Company, save and except that they will not be entitled to any dividends, rights, allotments and/or other distributions in respect of which the entitlement date is prior to the date of allotment and issuance of the new shares.

40. COMMITMENTS

(a) Capital commitments

	Group	
	2023 RM'000	2022 RM'000
Property, plant and equipment:		
Approved and contracted for	278,954	576,308
Approved but not contracted for	207,518	103,244

(b) Operating lease arrangements

Group as a lessor

The Group has entered into non-cancellable operating lease agreements on its investment properties and certain property, plant and equipment portfolio. These leases have remaining non-cancellable lease terms between less than 1 year to 3 years (2022: less than 1 year to 3 years). Rental income earned from these investment properties and property, plant and equipment during the financial year is disclosed in Note 10.

The future minimum lease payments receivables under non-cancellable operating leases contracted for as at the reporting date but not recognised as receivables, are as follows:

	Group	
	2023 RM'000	2022 RM'000
Within one year	4,081	2,086
After one year but within two years	2,624	1,215
After two years but within five years	1,264	597
	7,969	3,898

41. CONTINGENT LIABILITY

The subsidiaries of the Group were involved in a trade dispute with certain customers. The customers had commenced International Chamber of Commerce Arbitration in Singapore against the subsidiaries of the Group claiming approximately RM43 million. The Group had filed for counterclaim of approximately RM62 million for overdue payments and late payment interest. The case is subject for the Arbitrator's decision to be issued to later than 31 January 2024.

42. FAIR VALUES

(i) Determination of fair value of financial instruments

Financial instruments that are not carried at fair value and whose carrying amounts are reasonable approximation of fair value

The following are classes of financial instruments that are not carried at fair value and whose carrying amounts are reasonable approximation of fair value:

	Note
Trade and other receivables	24
Cash and bank balances	27
Loans and borrowings	29
Trade and other payables	30
Lease liabilities	32

The carrying amounts of these financial assets and liabilities are reasonable approximation of fair values, either due to their short-term nature or that they are floating rate instruments that are re-priced to market interest rates on or near the reporting date.

The fair values of loans and borrowings are estimated by discounting expected future cash flows at market incremental lending rate for similar types of lending, borrowing or leasing arrangements at the reporting date.

Investment securities (current)

Fair value is determined directly by reference to their published market bid price at the reporting date.

Investment securities (non-current)

Fair value is determined based on directors' estimates using comparable market price of similar golf club memberships.

Derivative financial instruments

Forward currency contracts are valued using a valuation technique with market observable inputs. The most frequently applied valuation techniques include forward pricing, using present value calculations. The models incorporate various inputs including the credit quality of counterparties, foreign exchange spot and forward rates.

Investment properties

The fair value of the investment properties is based on valuation by accredited independent qualified valuers as disclosed in Note 17.

43. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group and the Company are exposed to a variety of financial risks, including credit risk, liquidity risk, interest rate risk, market price risk and foreign currency risk.

The Group's senior management oversees the management of these risks and ensures that the Group's financial risk activities are governed by appropriate policies and procedures and that financial risks are identified, measured and managed in accordance with the Group's policies and risk objectives. All derivative activities for risk management purposes are carried out by senior management who have the appropriate skills, experience and supervision. It is the Group's policy that no trading in derivatives for speculative purposes may be undertaken. The Board of Directors reviews and agrees policies for managing each of these risks, which are summarised below:

(a) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises interest rate risk, foreign exchange currency risk and other price risk such as equity price risk. Financial instruments affected by market risk include loans and borrowings, cash and short term deposits, debt securities, money market funds and derivative financial instruments.

(b) Credit risk

Credit risk is the risk of loss that may arise on outstanding financial instruments should a counterparty default on its obligations. The Group's and the Company's exposure to credit risk arises primarily from trade and other receivables. For other financial assets (including debt securities, money market funds, cash and bank balances and derivative financial instruments), the Group and the Company minimise credit risk by dealing exclusively with high credit rating counterparties.

The Group's objective is to seek continual revenue growth while minimising losses incurred due to increased credit risk exposure. The Group trades only with recognised and creditworthy third parties. It is the Group's policy that all customers who wish to trade on credit terms are subject to credit verification procedures. In addition, receivable balances are monitored on an ongoing basis with the result that the Group's exposure to bad debts is not significant.

Exposure to credit risk

At the reporting date, the Group's and the Company's maximum exposure to credit risk is represented by the carrying amount of each class of financial assets recognised in the statements of financial position.

Credit risk concentration profile

The Group has no significant concentration of credit risk that may arise from exposure to a single debtor or to groups of debtors.

Financial assets that are neither past due nor impaired

Information regarding trade and other receivables that are neither past due nor impaired is disclosed in Note 24(a). Deposits with banks and other financial institutions, debt securities, money market funds and derivative financial instruments that are neither past due nor impaired are placed with or entered into with reputable financial institutions or companies with high credit ratings and no history of default.

Notes To The Financial Statements

For the financial year ended 31 August 2023 (cont'd)

43. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONT'D)

(b) Credit risk (cont'd)

Financial assets that are either past due or impaired

Information regarding financial assets that are either past due or impaired is disclosed in Note 24(a). An impairment analysis is performed at each reporting date using a provision matrix to measure expected credit losses. The provision rates are based on days past due for groupings of various customer segments with similar loss patterns. The calculation reflects the probability-weighted outcome, the time value of money and reasonable and supportable information that is available at the reporting date about past events, current conditions and forecasts of future economic conditions. Generally, trade receivables are written off if past due for more than 120 days, except for certain major or specific customers where the period may extend beyond 120 days, and are not subject to enforcement activity. The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets disclosed in Note 24(a).

(c) Liquidity risk

Liquidity risk is the risk that the Group or the Company will encounter difficulty in meeting financial obligations due to shortage of funds. The Group's and the Company's exposure to liquidity risk arises primarily from mismatches of the maturities of financial assets and liabilities. The Group's and the Company's objective is to maintain a balance between continuity of funding and flexibility through the use of stand-by credit facilities.

The table below summarises the maturity profile of the Group's and the Company's liabilities at the reporting date based on contractual undiscounted repayment obligations.

Total undiscounted financial liabilities	6,184	225	-	6,409

(d) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of the Group's and the Company's financial instruments will fluctuate because of changes in market interest rates.

The Group's exposure to interest rate risk arises primarily from its loans and borrowings. The Group manages its interest rate exposure by maintaining a mix of fixed and floating rate borrowings. The Group actively reviews its debt portfolio, taking into account the investment holding period and nature of its assets. This strategy allows it to capitalise on cheaper funding in a low interest rate environment and achieve a certain level of protection against rate hikes.

Sensitivity analysis for interest rate risk

At the reporting date, if interest rates had been 10 basis points lower/higher, with all other variables held constant, the Group's (loss)/profit before tax would have been RM555,000 (2022: RM398,000) higher/lower, respectively, arising mainly as a result of lower/higher interest expense on floating rate loans and borrowings. The assumed movement in basis points for interest rate sensitivity analysis is based on the currently observable market environment.

Notes To The Financial Statements

For the financial year ended 31 August 2023 (cont'd)

43. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONT'D)

(e) Market price risk

The Group's quoted investment securities are susceptible to market price risk arising from uncertainties about future values of the investment securities. The Group manages the market price risk through diversification and by placing limits on individual and total investment in investment securities. Reports on the investment portfolio are submitted to the Group's senior management on a regular basis. The Board of Directors reviews and approves all investment decisions.

The Group has a Board Risk Committee with the objectives of reviewing, advising and ensuring that the Group's investment in debt securities is consistent with the delegated authority limit approved by the Board; and cash invested is within the risk appetite of the Group. The Board Risk Committee established certain criteria for current and future investment in debt securities. Any investment differing from the criteria established will require the Board Risk Committee's approval. The Board Risk Committee also aims to establish an effective investment management framework for the Group.

The Group's exposure to quoted investment securities at fair value at the reporting date is disclosed in Note 21.

Sensitivity analysis for market price risk

At the reporting date, if the prices of the quoted investments had been 5% higher/lower, with all other variables held constant, the Group's profit before tax would have been RM31,509,000 (2022: RM23,948,000) lower/higher, arising as a result of higher/lower fair value gains on fair value through profit or loss. The Group's equity would also have been RM1,643,000 (2022: RM1,718,000) higher/lower, arising as a result of higher/lower fair value gains on investments classified at fair value through other comprehensive income.

(f) Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Group has transactional currency exposures mainly arising from revenue that are denominated in a currency other than the respective functional currencies of the Group entities. These functional currencies are Malaysian Ringgit ("RM"), Thai Baht ("THB"), Chinese Renminbi ("RMB"), Euro and USD.

The foreign currencies in which these transactions are denominated are mainly USD, Euro and Japanese Yen ("JPY"). In addition, the Group has significant borrowings in USD, Euro and JPY (Note 29). Therefore, the Group is exposed to foreign currency risk. These exposures are managed, to the extent possible, by natural hedge that arise when payments for foreign currency payables are matched against receivables denominated in the same foreign currency.

45. CAPITAL MANAGEMENT

The primary objective of the Group's and of the Company's capital management is to ensure that they maintain a strong credit rating and healthy capital ratios in order to support their business and maximise shareholders' value.

The Group and the Company manage their capital structure and make adjustments, in light of changes in economic conditions and the requirements of the financial covenants. To maintain or adjust the capital structure, the Group and the Company may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. No changes were made in the objectives, policies or processes during the financial years ended 31 August 2023 and 2022.

As disclosed in Note 35(b), subsidiaries of the Group incorporated in the People's Republic of China and Thailand are required to set aside a statutory reserve fund under local regulations. This externally imposed capital requirement has been complied with by the above-mentioned subsidiaries for the financial years ended 31 August 2023 and 2022.

The Group and the Company monitor capital using a gearing ratio, which is net debt divided by total capital plus net debt. The Group and the Company include within net debt, loans and borrowings, trade and other payables, contract liabilities, less cash and cash equivalents. Capital includes equity attributable to the owners of the parent less the fair value adjustment reserve and the above-mentioned restricted statutory reserve fund.

46. SEGMENT INFORMATION

For management purposes, the Group is organised into business units based on their geographical areas, and has four reportable operating segments.

Management monitors the operating results of its business units separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on operating profit or loss which, in certain respects as explained in the table below, is measured differently from operating profit or loss in the consolidated financial statements. Group financing (including finance costs), income taxes and share of results of an associate are managed on a group basis and are not allocated to operating segments.

The directors are of the opinion that all inter-segment transactions have been entered into in the normal course of business and have been established on negotiated and mutually agreed terms.

7. As Special Business

To consider and, if thought fit, with or without any modification, to pass the following resolutions which will be proposed as Ordinary Resolutions:

(a) Ordinary Resolution No. 1 Authority to Issue Shares pursuant to the Companies Act 2016 (“the Act”) and Waiver of Pre-Emptive Rights

“THAT subject to the Act, the Constitution of the Company, and the approvals from Bursa Malaysia Securities Berhad (“Bursa Securities”) and any relevant governmental/regulatory authority, the Directors of the Company be and are hereby empowered, pursuant to the Act, to issue and allot shares in the Company, at any time to such persons and upon such terms and conditions and for such purposes as the Directors may, in their absolute discretion, deem fit, provided that the aggregate number of shares issued pursuant to this resolution does not exceed ten per centum (10%) of the total number of issued shares of the Company for the time being;

THAT pursuant to Section 85 of the Act to be read together with Article 58 of the Constitution of the Company, approval be and is hereby given to waive the statutory pre-emptive rights of the shareholders of the Company to be offered new shares of the Company ranking equally to the existing issued shares arising from any issuance of new shares in the Company pursuant to Sections 75 and 76 of the Act;

AND THAT the Directors be and are also empowered to obtain the approval for the listing of and quotation for the additional shares so issued on Bursa Securities;

AND FURTHER THAT such authority shall commence immediately upon the passing of this resolution and continue to be in force until the conclusion of the next Annual General Meeting of the Company.”

Please refer to Explanatory Note 7

(Resolution 9)

(b) Ordinary Resolution No. 2 Proposed Renewal of Share Buy-Back Authority

“THAT subject to the Companies Act 2016 (“the Act”), the Constitution of the Company, Bursa Malaysia Securities Berhad (“Bursa Securities”) Main Market Listing Requirements (“Main LR”) and the approvals of all relevant governmental and/or regulatory authorities (if any), the Company be and is hereby authorised to purchase such amount of ordinary shares in the Company (“Proposed Share Buy-Back”) as may be determined by the Board of Directors (“Board”) from time to time through Bursa Securities upon such terms and conditions as the Board may deem fit and expedient in the interest of the Company provided that the aggregate number of shares purchased pursuant to this resolution shall not exceed ten per centum (10%) of the total number of issued shares of the Company;

THAT the maximum amount of funds to be utilised for the purpose of the Proposed Share Buy-Back shall not exceed the aggregate retained profits of the Company based on its audited financial statements for the financial year ended 31 August 2023 of RM2,337,684,000;

THAT at the discretion of the Board, the shares of the Company to be purchased are proposed to be cancelled and/or retained as treasury shares and/or distributed as dividends and/or resold on Bursa Securities and/or transferred the shares for the purposes of or under an employees' share scheme in the manner as prescribed by the Act, rules, regulations and orders made pursuant to the Act and Bursa Securities Main LR and any other relevant authorities for the time being in force;

Notice of the Twenty Fifth Annual General Meeting

THAT such authority shall commence immediately upon the passing of this resolution until:

- (i) the conclusion of the next Annual General Meeting of the Company following this general meeting at which such resolution was passed at which time it will lapse unless by ordinary resolution passed at that Meeting, the authority is renewed, either unconditionally or subject to conditions;
- (ii) the expiration of the period within which the next Annual General Meeting of the Company after that date is required by law to be held; or
- (iii) the authority is revoked or varied by ordinary resolution passed by the shareholders of the Company in general meeting,

whichever is the earlier;

AND THAT the Board be and is hereby authorised to take such steps to give full effect to the Proposed Share Buy-Back with full power to assent to any condition, modification, variation and/or amendment as may be imposed by the relevant authorities and/or to do all such acts and things as the Board may deem fit and expedient in the best interest of the Company.”

NOTES:

1. The 25th AGM will be conducted virtually through live streaming and online remote voting via the Remote Participation and Voting (“RPV”) facilities to be provided by SS E Solutions Sdn. Bhd. via Securities Services ePortal’s platform at <https://sshsb.net.my/>. Please follow the procedures provided in the Administrative Details for the 25th AGM in order to register, participate and vote remotely via the RPV facilities.
2. The Broadcast Venue is strictly for the purpose of complying with Section 327(2) of the Companies Act 2016 (“the Act”) and Article 64A of the Company’s Constitution which requires the Chairman of the Meeting to be present at the main venue of the Meeting. Members/proxies/corporate representatives will not be allowed to be physically present at the Broadcast Venue.
3. In respect of deposited securities, only members whose names appear in the Record of Depositors on 29 December 2023 (General Meeting Record of Depositors) shall be eligible to participate in the 25th AGM.
4. A member of the Company entitled to participate and vote at the 25th AGM is entitled to appoint more than one (1) proxy to participate, speak and vote in his/her stead. A proxy may but need not be a member of the Company and a member may appoint any person to be his/her proxy. There shall be no restriction as to the qualification of the proxy. A proxy appointed by the member shall have the same rights as the member to participate, speak and vote at the 25th AGM. The members or their proxies or their corporate representatives may submit questions to the Company at topglovecosec@topglove.com.my prior to the 25th AGM or via real-time submission of typed texts through a text box within Securities Services ePortal’s platform during live streaming of the 25th AGM as the primary mode of communication. In the event of any technical glitch in the primary mode of communication, shareholders, proxies and corporate representatives may email their questions to eservices@sshsb.com.my during the 25th AGM.

Notice of the Twenty Fifth Annual General Meeting

5. Where a holder appoints more than one (1) proxy, the appointment shall be invalid unless he/she specifies the proportion of his/her shareholdings to be represented by each proxy.
6. The instrument appointing a proxy or representative and the duly registered power of attorney or other authority, if any, shall be in writing under the hand of the appointor or his/her attorney duly appointed under a power of attorney or, if such appointor is a corporation, either under its seal or under the hand of an officer or attorney duly appointed under a power of attorney.
7. Where a member of the Company is an exempt authorised nominee which holds ordinary shares in the Company for multiple beneficial owners in one (1) securities account (“Omnibus Account”), there is no limit to the number of proxies which the exempt authorised nominee may appoint in respect of each Omnibus Account it holds.
8. The instrument appointing a proxy may be made via hardcopy or by electronic means in the following manner and must be received by the Company not less than forty-eight (48) hours before the time appointed for holding the 25th AGM or at any adjournment thereof:
 - (i) **In Hardcopy Form**
The proxy form shall be deposited at the Share Registrar’s office, Securities Services (Holdings) Sdn. Bhd. at Level 7, Menara Milenium, Jalan Damansara, Pusat Bandar Damansara, Damansara Heights, 50490 Kuala Lumpur, Wilayah Persekutuan, Malaysia.
 - (ii) **By Electronic Means**
The proxy form shall be electronically lodged via Securities Services ePortal’s platform at <https://sshsb.net.my/> or by fax to +603 2094 9940 or by email to eservices@sshsb.com.my.
9. The lodging of the proxy form will not preclude any shareholder from participating and voting remotely at the 25th AGM should any shareholder subsequently wish to do so, provided a notice of termination of proxy authority in writing is given to the Company and deposited with the Company’s Share Registrar, Securities Services (Holdings) Sdn. Bhd. at Level 7, Menara Milenium, Jalan Damansara, Pusat Bandar Damansara, Damansara Heights, 50490 Kuala Lumpur, Wilayah Persekutuan, Malaysia or email to eservices@sshsb.com.my not less than forty-eight (48) hours before the time stipulated for holding the 25th AGM or at any adjournment thereof.

EXPLANATORY NOTES:

1. **Audited Financial Statements for the financial year ended 31 August 2023**
The Audited Financial Statements under Agenda item 1 is meant for discussion only as the provision of Section 340(1) of the Act does not require the Audited Financial Statements to be formally approved by the shareholders of the Company. As such, this item is not put forward for voting.
2. **Re-election of Directors who retire by rotation pursuant to Article 94 of the Company’s Constitution**
Article 94 of the Company’s Constitution provides that one-third (1/3) of the Directors of the Company, for the time being, shall retire by rotation at an Annual General Meeting (“AGM”) of the Company. All the Directors shall retire from office once at least in each three (3) years but shall be eligible for re-election.

The Board of Directors (“Board”) through the Board Nomination and Remuneration Committee has conducted an assessment on all the Directors of the Company via the Board Effectiveness Evaluation 2023 including the Fit and Proper assessment/declaration which was facilitated by the Company Secretary. The retiring Directors have met the fit and proper criteria of Character and Integrity, Experience and Competence as well as Time and Commitment as set up in the Directors’ Fit and Proper Policy of the Company and the Board is satisfied with the individual performance of the retiring Directors. The retiring Independent Directors have also satisfied and complied with the independence criteria set out in the relevant regulatory requirements on Directors’ independence. The Board endorsed the Board Nomination and Remuneration Committee’s recommendation on the re-election of the retiring Directors.

Notice of the Twenty Fifth Annual General Meeting

The Board agreed to propose to the shareholders of the Company for the re-election of the following retiring Directors, based on the following justifications:

Directors subject to re-election pursuant to Article 94	Statement of Support by the Board
Sharmila Sekarajasekaran	<ol style="list-style-type: none"> Her specialised knowledge and expertise in the areas related to legal and sustainability governance equipped her to make well-informed decisions and recommendations in these areas which add vast value to the Company. She is skillful in providing independent judgement that could steer discussions to be more meaningful and effective.
Datuk Dr. Norma Mansor	<ol style="list-style-type: none"> She has demonstrated active participation in the boardroom and supports continuous encouragement for constructive debates that bring efficient and high-quality discussions during meetings. She is highly literate in the economic and administrative language as an academic which enables her to make strategic decisions that bring forth commendable results.
Lim Hooi Sin	<ol style="list-style-type: none"> With over twenty-eight (28) years of experience at Top Glove Group, he possesses a deep understanding of the Company's business operations and consistently adopts a comprehensive approach to managing the Group's operations. His extensive expertise in sales and marketing enables him to effectively manage the business operations of all overseas subsidiaries, providing invaluable assistance to the Company.

Ms Sharmila Sekarajasekaran will complete her nine (9) years tenure as an Independent Director on 18 March 2024 and she will vacate her Board seat in accordance with the Independent Director Tenure Policy adopted in 2021.

The profiles of the Directors who are standing for re-election as per Agenda item 2 of the Notice of the 25th AGM are stated on pages 46, 47 and 48 of the Integrated Annual Report 2023.

3. Re-election of Directors who retire pursuant to Article 100 of the Company's Constitution

Article 100 of the Company's Constitution provides that the Directors shall have power at any time and from time to time to appoint any other person to be a Director of the Company either to fill a casual vacancy or as an addition to the existing Directors but so that the total number of Directors shall not at any time exceed the maximum number fixed by the Company's Constitution. Any Director so appointed shall hold office only until the next AGM of the Company when he shall retire but shall then be eligible for re-election but he shall not be taken into account in determining the Directors who are to retire by rotation at the meeting.

The Board agreed to propose to the shareholders of the Company for the re-election of the following retiring Directors, based on the following justifications:

Directors subject to re-election pursuant to Article 100	Statement of Support by the Board
Dr Chong Su-Lin	<ol style="list-style-type: none"> With her vast experience in similar industrial operations such as the healthcare industry, she is a valuable member of the Board. She continues to maintain objectivity while articulating her opinions during meetings, which enables her to guide discussions toward being more relevant and useful to the agenda.
Rowina Ghazali Seth	<ol style="list-style-type: none"> She is highly literate in both the governance affairs and sustainability language with her vast experience and skills attained from serving other Public Listed Companies. She has a high ambition and is passionate in the Environmental, Social and Governance pillars that would add value in developing sustainability strategies for the Company.

The profiles of the Directors who are standing for re-election as per Agenda item 3 of the Notice of the 25th AGM are stated on page 50 of the Integrated Annual Report 2023.

Any Director referred to in Resolutions 1 to 5, who is a shareholder of the Company will abstain from voting on the resolution in respect of his/her re-election at the 25th AGM.

Notice of the Twenty Fifth Annual General Meeting

4. Determination and Payment of Directors' Fees

Paragraph 7.24 of Bursa Securities Main LR stipulates that the fees of Directors and any benefits payable to Directors shall be subject to annual shareholders' approval at a general meeting. Therefore, shareholders' approval is required for the determination and payment of Directors' fees amounting to RM1,365,000 for the financial year ended 31 August 2023.

The following table outlines the Directors' fees structure for the financial year ended 31 August 2023:

		Annual Fees (RM)
Board	Executive Chairman	115,000
	Managing Director	99,000
	Executive Director and Non-Executive Director	92,000
	Senior Independent Non-Executive Director	98,000
Board Audit Committee		7,000
Board Risk, Investment and Compliance Committee		7,000
Board Nomination and Remuneration Committee		4,000
Board Sustainability Committee		4,000

5. Directors' Benefits (excluding Directors' Fees)

The Directors' benefits (excluding Directors' fees) comprise the meeting allowances payable to the Non-Executive Directors of the Company. The meeting allowances are fixed as follows:

Type of Meeting	Meeting Allowance per Meeting (RM)			
	Chairman		Non-Executive Director/Member	
	Physical	Virtual	Physical	Virtual
Board	Nil	Nil	1,500	750
General	Nil	Nil	1,500	750
Board Committee	1,200	600	1,000	500

In determining the estimated total Directors' benefits (excluding Directors' fees) for the period commencing 11 January 2024 until the next AGM of the Company ("Relevant Period"), the size of the Board and Board Committees as well as the estimated number of meetings scheduled to be held during the Relevant Period were taken into consideration. Hence, the Board is recommending an estimated total amount of RM300,000 as per the previous AGM of the Company.

Subject to the shareholders' approval of Ordinary Resolutions 6 and 7, the payment for fees will be made to the Directors of the Company after the AGM of the Company while Directors' benefits will be made by the Company as and when incurred. The Board opined that the payments to the Directors of the Company are just and equitable, taking into account their roles and responsibilities towards the Group and the services that they have rendered to the Company.

Directors who are also shareholders of the Company will abstain from voting on the resolutions in respect of the fees and benefits payable to him/her.

6. Re-appointment of Auditors

The Board Audit Committee and the Board have considered the re-appointment of Ernst & Young PLT as Auditors of the Company, are satisfied with the performance, competency, audit approach and independence of Ernst & Young PLT and viewed that they have met the relevant criteria prescribed by Paragraph 15.21 of Bursa Securities Main LR.

The Board endorsed the Board Audit Committee's recommendation to seek shareholders' approval to re-appoint Ernst & Young PLT as external auditors of the Company until the conclusion of the next AGM of the Company and to authorise the Directors to fix their remuneration.

Notice of the Twenty Fifth Annual General Meeting

7. Authority to Issue Shares pursuant to the Act and Waiver of Pre-Emptive Rights

The proposed adoption of Ordinary Resolution No. 1 is for the purpose of waiving the statutory pre-emptive rights of shareholders of the Company (“**Waiver of Pre-Emptive Rights**”) and granting a renewed general mandate (“**General Mandate**”) and empowering the Directors of the Company, pursuant to the Act, to issue and allot new shares in the Company from time to time provided that the aggregate number of shares issued pursuant to the General Mandate does not exceed ten per centum (10%) of the total number of issued shares of the Company for the time being. The General Mandate, unless revoked or varied by the Company in the general meeting, will expire at the conclusion of the next AGM of the Company.

The Waiver of Pre-Emptive Rights will allow the Directors of the Company to issue new shares of the Company which rank equally to existing issued shares of the Company, to any person without having to offer the new shares to all existing shareholders of the Company prior to issuance of new shares in the Company under the General Mandate.

The General Mandate will provide flexibility to the Company for allotment of shares for any possible fundraising activities, including but not limited to placement of shares for the purpose of funding future investment project(s), working capital and/or acquisition(s).

As at the date of this Notice, there were no new shares issued pursuant to the mandate granted to the Directors of the Company at the Twenty Fourth (“**24th**”) AGM held on 6 January 2023 and which will lapse at the conclusion of the 25th AGM.

8. Proposed Renewal of Authority for Share Buy-Back

The proposed adoption of Ordinary Resolution No. 2 is for the purpose of renewing the authority granted by the shareholders of the Company at the 24th AGM held on 6 January 2023. The aforesaid proposed renewal will allow the Board to exercise the power of the Company to purchase not more than ten per centum (10%) of the total number of issued shares of the Company at any time within the time period stipulated in Bursa Securities Main LR.

Personal Data Privacy:

By submitting an instrument appointing a proxy(ies) and/or representative(s) to participate and vote at the 25th AGM and/or any adjournment thereof, a member of the Company (i) consents to the collection, use and disclosure of the member’s personal data by the Company (or its agents) for the purpose of the processing and administration by the Company (or its agents) of proxies and representatives appointed for the 25th AGM (including any adjournment thereof) and the preparation and compilation of the attendance lists, minutes and other documents relating to the 25th AGM (including any adjournment thereof), and in order for the Company (or its agents) to comply with any applicable laws, listing rules, regulations and/or guidelines (collectively, the “**Purposes**”); (ii) warrants that where the member discloses the personal data of the member’s proxy(ies) and/or representative(s) to the Company (or its agents), the member has obtained the prior consent of such proxy(ies) and/or representative(s) for the collection, use and disclosure by the Company (or its agents) of the personal data of such proxy(ies) and/or representative(s) for the Purposes; and (iii) agrees that the member will indemnify the Company in respect of any penalties, liabilities, claims, demands, losses and damages as a result of the member’s breach of warranty.

STATEMENT ACCOMPANYING NOTICE OF AGM

As at the date of this Notice, there are no individuals who are standing for election as Directors (excluding the above Directors who are standing for re-election) at this 25th AGM.
