Letting Information

A Google search interface with the query "txdot project information dashboard" entered in the search bar. Below the search bar, there are tabs for Images, Videos, News, Shopping, Books, Maps, Flights, and Finance. The search results show "About 165,000 results (0.30 seconds)". The first result is from the Texas Department of Transportation (.gov) with the URL "https://www.txdot.gov/project-letting-dashboards". The title of the result is "Project letting information" in purple. Below the title, a snippet of text reads: "The interactive tableau dashboards on this page include current data for projects scheduled to let in the next two to four fiscal years."

The TxDOT website header includes the Texas Department of Transportation logo and navigation links: Discover Texas, Data and maps, Do business, Explore projects, Stay safe, and About. Below the header, the page title is "Project letting information". A large blue banner features a photo of four people in business attire shaking hands. To the right of the photo, the text reads: "TxDOT worked with external partners to update the Pre-Bid Q&A process so that bidders can ask project questions from TxDOT.gov." Below this text are three bullet points with links: "Find out what changed", "Watch a recorded training session", and "Get started with the job aid". Below the banner is a section titled "Subscribe to letting updates for contactors and bidders" with an icon of a hand pointing to an envelope and a form to enter an email address and a "Sign up" button.

Interactive tableau dashboards

The interactive tableau dashboards on this page include current data for projects scheduled to let in the next two to four fiscal years. Data can be filtered by letting date, project classification, and district of work. Dashboards are for informational purposes only and are subject to change. They are refreshed hourly with data from TxDOT's transportation program management system, TxDOTCONNECT.

Contractor prequalification

- Contractor prequalification: **Construction** or **Maintenance** Project.

<https://www.txdot.gov/business/road-bridge-maintenance/contract-letting/contractor-prequalification.html>

The screenshot shows the Texas Department of Transportation website. The header includes the TxDOT logo, navigation links for 'Discover Texas', 'Data and maps', 'Do business', 'Explore projects', 'Stay safe', and 'About', along with a search icon. The main content area is titled 'Contractor prequalification' and includes a paragraph stating that TxDOT must qualify bidders to bid or receive a bid proposal. It also lists three levels of qualification. A 'Quick links' section provides links to 'Confidential questionnaire', 'Bidders questionnaire', and 'Materials questionnaire'. A warning box at the bottom states: 'Do not open the questionnaire in your web browser as you will get an error. Download the form to your desktop and open the document separately.'

Contractor prequalification

TxDOT must qualify bidders to become eligible to bid or to receive a bid proposal on a construction or maintenance project.

The agency has three levels of qualification, all of which require annual requalification.

Bid Tabulations Dashboard

The [Bid Tabulations](#) dashboard displays bidding information on projects let through statewide and local district letting for the past 24 months. Users can explore all the bids submitted for projects as well as TxDOT's estimate.

[The Electronic State Business Daily](#) [E](#) (ESBD), the [Electronic Bidding System](#), and the project proposal are the official sources of advertisement and bidding information for the State and Local Lettings. Bidders should bid the project using the information found therein, including any addenda. These sources take precedence over information from other sources, including TxDOT webpages, which are unofficial and intended for informational purposes only.

For more information, see [Bid Tabulations and Bid Totals](#).

Questions about data

[Submit an open records request](#) if you have questions about the data in the bid tabulations dashboard.
