

Early Preschool Program

Early Preschool education provides a foundation for learning both socially and academically that will help your child succeed in both school and life. When you choose a program designed to give your little one an exciting early start in school, you also have the assurance that your child is well cared for, is enjoying activities and making friends – and is building the knowledge, skills, and confidence to do well in Kindergarten.

- Stratford's Early Preschool Program integrates developmentally and age-appropriate educational activities with lots of play time!
- Our program is designed to build confidence and inspire joyful learning through exploration, inquiry, and discovery.
- Skill focus includes cognitive, social-emotional, language, and physical development.
- Developmental areas include building independence, potty training, and social skills.

Fast Facts about the Early Preschool Program

- Early Preschool is offered exclusively as a five-days per week program with either a full-day or half-day enrollment option.*
- The starting age is two years old; child does NOT need to be potty trained.

THE POWER OF PRESCHOOL

Early childhood education has proven benefits to children's academic success and their overall well being as they mature.

Physical Development

Stratford's Early Preschool Program is not just childcare. It's a stepping stone to a lifelong love of learning in a safe, nurturing environment.
