Company profile of HKAI Lab:

HKAI LAB is a non-profit initiative that was jointly established by Alibaba Hong Kong Entrepreneurs Fund and SenseTime, with the support of Hong Kong Science & Technology Parks Corporation, Alibaba Cloud, and Alibaba DAMO Academy. The main objective of HKAI LAB is to provide support and resources to local AI startups, foster the growth of AI talent within Hong Kong, and drive advancements in AI technology. To achieve these goals, HKAI LAB organizes two accelerator programs annually, with a focus on helping startups commercialize their AI inventions and technologies developed at the lab.

In addition to the accelerator programs, HKAI LAB also conducts various seminars, workshops, and sharing sessions related to AI. These activities are aimed at increasing awareness, promoting understanding, and creating opportunities in the field of AI. HKAI LAB actively collaborates with academic institutions, associations, and corporations to host events and facilitate the development of AI in Hong Kong.
