

KEY INDUSTRIES IN TAIWAN

Internet of Things (IoT):

Taiwan's Asia Silicon Valley Development Plan drives Taiwan's industries through IoT integration.

Biomedical:

Taiwan is establishing itself as a biomedical industry hub in the Asia-Pacific.

Green Energy:

The Green Energy Technology Industry Innovation Promotion Plan aims to develop wind and other renewable energy.

Information Security:

Taiwan has adopted strategies and regulations to actively support the development of the information security industry.

Semiconductors:

Taiwan leads the global semiconductor industry, focusing on achieving subnanometer process technology by 2030.

International Logistics and E-commerce:

Taiwan promotes free trade and internationalization, offering "free trade zones" for various businesses in logistics, e-commerce, and more.

This is just a snapshot of the industries seeking to welcome more foreign talent!
