

Dear Parents,

Greetings from The Millennium Education, I congratulate you all on the successful culmination of the school year 2023-2024.

As summer vacations approach, you must all be looking forward to many wonderful events.. We wish you safe travels and an abundance of joy, laughter, and love during this much awaited break with your children.

Summer vacation is probably the happiest time of a learner's life. A strong family understands that opportunities for quality time emerge from quantity time. Summer break is an excellent opportunity to make it a worth while period for the whole family.

We have enlisted some educational tasks to keep your child engaged in healthy learning activities, which, when done at home under your guidance, will enhance learning, and understanding of your child. Positive engagement during summer break can determine the level of engagement for the next academic session.

Wishing you a very pleasant time together.

Warm Regards,

Frundif
Director
Teaching and Learning
The Millennium Education, Pakistan.

Introduction

Home school engagement plan is a great way for our learning community to help our learners keep learning through the current time and summer. The goal of this Education Enhancement plan is to support learners in bridging the gap for the next level with the minimal regression of basic skills. Here, you'll find varied ideas for purposeful engagement of learners to facilitate them in getting ready for the next grade, like letter recognition, shape, colour pages, or games to play independently or with parents.

Directions for Parents:

Home school engagement time could be a great time for young children to learn with parents. Many wonderful things happen even during this time once your little one is around, like trips to zoo, beach, park, picnics, family walks and outings to museums. Your goal should be, how to assisst the children during family activities as well as self-directed engagements. You may also make a list of activities, depending upon the interest of your child. Your activities should have learning as well as quality family time. Try some of the following ideas, and make up some of your own.

Ideas for Making Learning a Fun Filled Experience:

Develop and incorporate reading and writing into everyday activities. Some ideas are:

- watching TV with the sound off.
- reading directions for how to play a new game
- helping with meals by writing up a grocery list, finding things in the grocery store, and reading the recipe aloud for mom or dad during cooking time.

Encourage Writing:

Give each of your cild a stamped, addressed post card so they can write to you about their trip or any adventure.

- Recycle school notebooks and paper into summer journals or scrapbooks.
- Start with a book: keep a nature journal, create age appropriate poetry, share a recipe, make a to do list, or keep a scrapbook of expressing varied day to day events through drawing or scribling.

- Cook dinner together. Show your child how to measure 1 cup, 1/2 cup, and 1/4 cup.
- Practice writing words with sidewalk chalk.
- Plant a flower together. Talk about what plants need to grow. (Sun, water, etc.)
- Watch a thunderstorm. Be excited! Talk to your child about dark clouds, thunder, and lightning.
- Let your child write a letter to someone, then let your child purchase the stamp and mail the letter at the post office.
- Grocery day: Take a list and let your child help read the list and locate items.
- Play outdoor games. Teach your child to play jacks, hopscotch, or marbles.
- Share an umbrella! Walk in the rain together. Look for rainbows, frogs, and count puddles.
- Make ABC cupcakes. Using a decorator bag, let your child draw letters on them.
- Go for a walk on the beach, or a nearby lake. Take pictures of wildlife, and make a book at home.
- Visit the pet store. Talk about animal varieties, foods, care items, and responsibilities of pet ownership.
- Housecleaning day! Let your child help. They can dust, clean windows, and more. Start a chore chart.
- Go to the library or a book shop for story day. Be sure to bring home books. Keep it up all the time!
- Get a cookbook for children and make recipes together. Using words and pictures, let your child help read instructions.

- Discuss good nutrition habits with a food pyramid. Start naming the food groups when you serve them. Soon, your child will learn them.
- Keep a chart of temperatures in the city that you are visiting.
- Classify days according to weather: sunny, cloudy, and rainy. Keep records of different cities that you visit.
- Take pictures or gather postcards of places you visit. Keep a scrapbook and write short notes or descriptions of these places.
- Draw pictures of places that you visit.
- Make a list of all the things that are different in the country/city you visit.
- Record all the types of transportation you use during your travels. Draw a picture of each type and tell what you liked or didn't like about that mode of travel.
- Cut out pictures from magazines of objects that begin with the letters of the alphabet.
- Start at A and make a book of all the letters in the alphabet.
- Play games with objects that you see: guess what letter they begin and end with; think of words that rhyme with them; think of words that begin with the same letter.
- Count objects that you see. Play hand games: show an amount of buttons, coins, stones etc. Ask: How many did I take away?
- Sort the objects into categories: colour, texture, size and shape. See how many ways the child can sort the same objects.
- Classify pictures of animals: fur, feathers, water, and insects are a few of the areas that a child might use. Cut out and paste in a book and add to this as more pictures are discovered.
- Write stories about inanimate objects personify the object and describe some of the things that it does.

Roadworthy (ar Games

Travelling is a significant part of our day to day lives these days. To make travelling a fun-filled learning experience we are sharing reading and math skills.

Mathematical Activities for Car:

- Car bingo: Create a car bingo card with words, shapes, colours, and items that children will likely see during a trip (stop signs, billboards, railroad signs, etc.) to reinforce reading skills, math, and sight words.
- The number game: Look out the window and call out when you see one, two, three, or four of something, and so on.
- The alphabet game: One person chooses the right side of the road, and the other chooses the left. Call out objects that you see in alphabetical order. The first person to get to the letter "z" wins.
- Capital game: Take note of each license plate you see, not by city, but by provincial capital i-e LHR 007 means Lahore 007 etc. The first to correctly identify 10 provincial capitals wins.
- Cow game: One person takes the right side of the road, the other takes the left. Keep count of all the cows you see. You earn one point for each cow. When you see a cemetery out of your side of the car, you lose all your points.
- Animals galore: Decide on a number of points for each animal that you see (cow = 1 point, horse = 1 point, goat = 2 points, donkey= 3 points etc.). As you drive, add up the points. Play until one person gets 10 points, or for a set time.
- Math with license plates: Use the numbers on license plates to practice addition, subtraction, multiplication, and number patterns and see just how creative children can get!

Phonological Activities for the Car:

I Spy in the Car": Say, "I spy something in the car that begins with /s/." Let your child guess the object. For /s/ it might be seat or seatbelt. Take turns being the caller and the finder.

Count the words: Have your child make two fists. Say a sentence and then have your child say it with you. As each word is said, tell your child to put up one finger. Count how many words are in the sentence. This activity helps your child build an awareness of words.

Clap the syllables: Clapping is a fun hands-on way to determine parts (syllables) of a word. Say a word and have your child clap the parts of the word i-e say if the word is 'happen' it has two syllables 'hap-pen', the child will clap two times.

Play with beginning sounds: Have your child name something they see outside their window. Repeat the word and ask, "What sound do you hear at the beginning of _____?" Then, say the word again and let your child respond with the correct beginning sound.

Create tongue twisters: Alliteration is the repetition of a sound in a sentence. It is also known as a tongue twister. Name the colour of the car in front of you and determine the beginning sound of that colour. Then, create a tongue twister with that same sound. Let each person in the car try to say the tongue twister. Who can say it the fastest?

Red racers rode recklessly round and round.

Stretch it Like a Rubber Band: For this activity you will say a short word such as bed, fun, or cat. Have your child use their hands to stretch the word out like a rubber band and say each sound he hears in the word.

Name the Sound: This game involves listening and speaking. Ask your child to be very quiet and listen for sounds on your trip. When s/he hears a sound, have her/him name it. For example, s/he might hear the beep-beep of a horn. Then, have her/him tell you the beginning or ending sound of the object that made that sound. In this example the beginning sound is /h/ and the ending sound is /n/. Play these phonological awareness games in the car to help your child develop prereading skills!

Reading Over Home Time

Child's quality time at home really does make a difference to his/her learning. Here are few tips for the development of reading skills at home.

Reading aloud a favourite story to your child daily:

Reading can be a family activity. Spending time with word games, stories, and books will help your child build a rich vocabulary.

Give pleasure of reading so that your child falls in love with books:

Kindly avoid comparing your child's reading abilities, not all children develop reading skills at the same pace.

Talk to Your Child:

Talk to your child as much as you can. Remember, verbal language is the foundation for reading. Listening and speaking are a child's first introduction to language.

Make Reading Fun, Read with drama and excitement!

Use different voices for different characters in the story. Use your child's name instead of a character's name. Make puppets and use them to act out a story. Choose texts and authors that your child enjoys. Read stories that have repetitive parts and encourage your child to join in. Point to words as you read them. This will help your child make a connection between the words he or she hears and the words on the page. Never forget to praise your child for his or her ideas and participation!

Talk About Books

Talking about the books is just as important as reading them. Discussing a story or a book with your child helps your child understand it and connect it to his or her own experience of life. It also helps enrich your child's vocabulary with new words and phrases. Look at the cover and the title of a book with your child, and ask your child what he or she thinks might happen in the story or what the book may be about.

Role Reversal

Parents typically read aloud to the children before bed. To make reading a more interesting activity, parents and children may occasionally reverse roles during story time so children are reading aloud to parents.

This is not only the way to help a child with unfamiliar vocabulary, but also be able to check on their comprehension while showing them parents' own excitement for the book. That enthusiasm will motivate children to read even more!

The Early Years are critical to developing a lifelong love for reading. It's never too late to begin reading with your child! The tips below offer some fun ways you can help your child become a happy and confident reader. Try a new tip each week. See what works best for your child.

Little Blue Truck

DRAGONS

Eating Outdoors:

Summer isn't really summer unless you spend at least part of the balmy evenings cooking up delicious meals outdoors. After all, every child knows that food tastes a whole lot better when it's eaten in the fresh air – and now you can prepare the food outdoors as well! Cooking outdoors is always a treat. Some food can even be prepared beforehand, so that on the day the actual cooking time can be kept to a minimum.

Teddy Bear Picnic:

All children love teddy bears, and some toddlers refuse to go anywhere without their special companion. So why not host your own teddy bear picnic? Combine eating outdoors with yummy food and furry friends, and everyone will be guaranteed to have a great time.

Even the most timid of children will enjoy a Teddy Bear Picnic, as he or she will be able to invite a cuddly friend along for comfort. But don't limit your guests to bears.

Fun with Water:

Help your kids keep their cool this summer by introducing them to the world of water. Water fun is a great way for children to have a great time and release some of their boundless energy while they're at it. And when the summer weather begins to cloud over, there's always the indoor pool!

A paddling pool can be an unending source of fun for young kids. Paddling pools are even more fun if you use a little imagination. Buy pool toys including animal inflatables, take out your children's favourite bath time friends, or invite some plastic bowls, cups and spoons into the pool for your children to splash around with and enjoy. Bring out the hosepipe for more water fun. Remember, make sure your children are supervised at all times – even a shallow baby pool can be dangerous.

Gardening:

If you have a yard or some space on a sunny windowsill, you have the perfect setting for a kids garden. Take some watermelon seeds and watch them sprout and grow. Whether you get watermelons or not is irrelevant...the fun is in watching the vines spread out and grow.

Household CHORES:

Research shows that children learn in many ways about family relationships and how their family functions. Being involved in household jobs is one way they can learn.

When children contribute to family life, it also helps them feel competent and responsible. Sharing housework can minimise stress in a family. Getting kids involved in chores helps the family work better. They can help in the following ways:

- Cleaning wardrobes
- Washing utensils
- Washing clothes
- Washing a car or bicycle
- Making their own sandwich
- Packing their own bags
- Listening to music
- Pick up toys and books.
- Put clothes on clothes hooks.
- Set placemats on the dinner table.
- Set the table for meals.
- Help with preparing meals, under supervision.
- Help with grocery shopping and putting away groceries.
- Fix up their drink.

LIONKING

Lion King 2019

- Make a Portfolio according to the mentioned themes.
- Talk about the theme.
- Show your children the relevant theme and environment.
- Allow them to express their feelings through painting.

Themes:

- Seasons
- Colours
- Flowers
- Birds
- Animals
- Dresses

- Fruits
- Sports
- Toys
- Space

One of the biggest complaints is that children tend to lose academic skills during the period when they stay at home. A great tool to keep reading and writing skills in good shape is to keep a diary. Start each day with the entry of plans of the day's event. When your adventurers return home, they can add pictures and notes about the highlights of the day. The pictures can be drawings or prints from a digital camera.

Circle the matching number for each set.

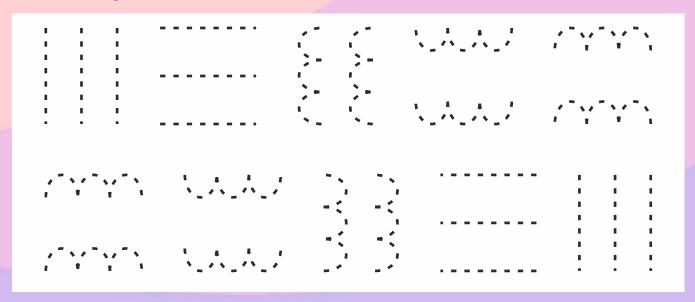

Holiday Bingo - Play Group

brush your teeth	learn how to button	sort your socks from
twice a day everyday	up your shirt	the washing line
talk about your favourite book with your mum	try to dress up on your own, surprise your mum	visit your grandparents' house
drink milk twice a	learn to zip up	play Simon say
day every day	your jacket	with your family

Written Work Instructions:

- → Make a booklet related to the following phonemes s, a, t, p, i, n, m and d. Write each phoneme five times using primary colour crayons and draw/paste two vocabulary related pictures with each.
- → Learn and write numbers from 1 10.
- → Match numbers with quantity 1 10
- → Draw shapes and colour them: heart, oval, circle, square, ellipse, triangle.
- ا سے ذ تک حروف کو تین رنگوں کے جاک سے کھیئے اور دہرائیے۔
- → Make a sun using crayons, markers, stickers, or any other material.
- → Make a model of your home with the help of recyclable materials.
- Make a photo frame using buttons/beads; paste a photo of yourself while planting a tree or helping any community helper around you.
- → Pre-writing strokes.

Communication Language and Literacy (English)

- ♣ Practice writing letters "a z". Write one letter per page in your notebook and draw/paste an object starting with that letter.
- **★** Draw and colour the concepts, hot/cold and tall/short.
- * Read the readers, identify and colour the following words; (mum, dad, biff, chip, kipper, floppy, house, you, she, on, for, and, was, I, put, hat, at, the, was, get, look, too, come, said)
- ★ Use phonemes s,a,t,p,i,n and write as many words as you can

Mathematical Development

- ★ Learn and write the forward counting 1-50 in your notebook (both vertically and horizontally).
- **★** Write the numbers in order from 0-10 on the number line.
- * Make a shape-train using, the shapes 'rectangle, sphere and cylinder'.

Communication Language and Literacy (Urdu)

* حروف ججی؛ آسے ق تک کھئے۔

* آسے ژکے ذخیرہ الفاظ کا کتا بچہ بنایئے۔

* مختلف تجلول اور سبريون كاكتابچه بنائيـ

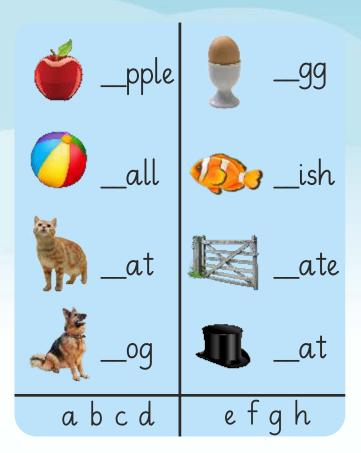

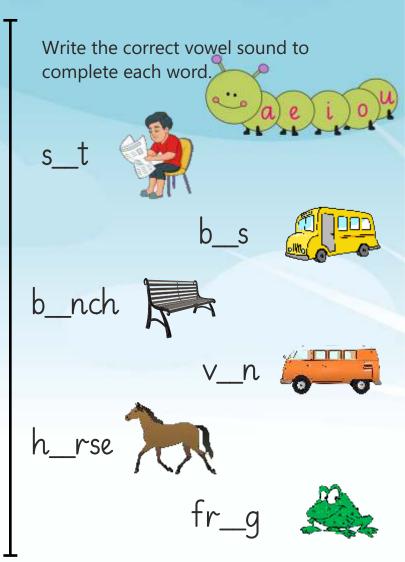

Bingo - Junior Year

I am staying in . . .

I am going with . . .

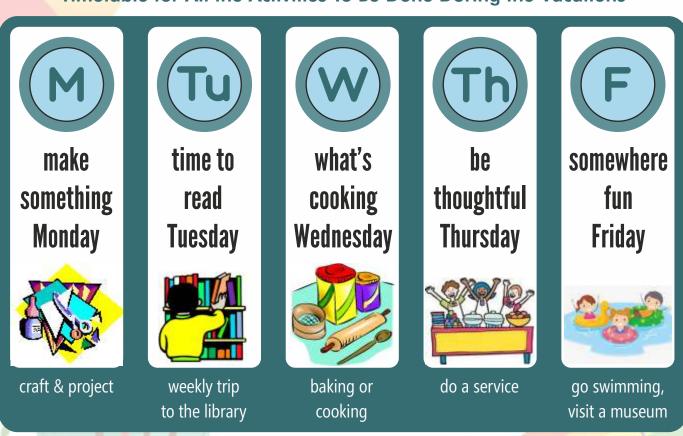

Fun Things To Do!

During the summer it is so easy to say, "I have nothing to do!" Here is a list of things to do the next time you are bored!

- ▲ Gather up a few friends, and have a picnic in your backyard.
- ▲ Go on a walk and take pictures of trees, flowers, dogs, etc.
- ▲ Clean your room!
- ▲ Look through old family scrapbooks, photo books, and yearbooks.
- ▲ Make fresh, homemade fruit juice.
- ▲ Have a bubble bath.
- Splash around in a plastic kiddy pool.
- ▲ Read a book based on a movie you have seen.
- ▲ Make a scrapbook of your baby pictures.
- Spend the day at the library.
- Draw a self-portrait.
- Go out for lunch with your family.
- ▲ Jump in the pool with your clothes on.
- ▲ Invite friends over and have a tea party.
- Go out for an evening walk to the nearby park.

Timetable for All the Activities To Be Done During the Vacations

You will need:

a piece of cardboard, any size, for the background (you can use rectangular shapes about 8×7 inches) glue, cut out pieces of cardboard in different shapes including arches, circles, triangles, rectangles and squares, primary colour water paint, black and white paint, and paint brushes

- Step 1: Cut different shapes out of cardboard boxes
- **Step 2**: Paint shapes by using paints and let them get dry
- **Step 3**: Paste shapes on to a rectangle piece of hard chart paper. Cardboard shapes collage is ready

Watercolour Flower Art

You will need:

liquid watercolours | spray bottles | watercolour paper | liquid droppers

Draw and cut the flowers. This would add a great study in shapes, along with all the fine motor building skills.

- 1. Drop liquid colours on the flower cutouts.
- 2. Spread them onto the shape to cover the surface completely.
- 3. Hang the flowers up to dry.
- 4. Glue the different sizes together by small, medium, and big to create layered flowers that look gorgeous hanging on the wall.

Create of Butterfly

You just need - hot glue, beads, clothespin, pipe cleaner,

Popsicle Stick Button Frame

Materials Needed:

- Craft Sticks often referred to as popsicle sticks
- Picture of Child (3.5×3.5) or hand drawn self portrait
- Buttons
- White Glue
- Glue Stick
- Black Skinny Sharpie (not pictured)

Line up 11 popsicle sticks.
Use white glue to glue down
3 popsicle sticks
perpendicular to the stacked
sticks.

Flip over the platform and use a glue stick to glue down your picture.

Glue buttons all around the edge of the frame.

Eggheads with Cress Hair

You will need: empty egg shells (try to just break off the top to empty them, so you have a good size shell left to use), felt pens, stick-on wobbly eyes (optional), cotton wool, crees seeds, an empty egg box.

To make them:

- 1. Wash out the egg shells and sit them in the egg box to keep them steady (on a cotton wool cushion to raise them up a bit if you need to).
- 2. Draw on some crazy faces, using the goggly eyes if you've got some. You could do self-portraits or funny faces
- 3. Put some cotton wool inside the shells and dampen them with some water.
- 4. Sprinkle cress seeds all over the cotton wool good coverage will give you a full head of hair.
- 5. Pop them on a windowsill and wait for the hair to sprout. It'll only take a couple of days.
- 6. Add a little bit of water if the cotton wool dries out, but not too much.

Close to the Nature

Mature Walk n Talk

- Small children can get bored easily, so combining a walk outdoors with something that's both fun and educational is sure to be a winner. Nature observation walks can be fantastic learning experiences for toddlers and even babies can enjoy the ride, provided they have plenty to look at and keep them busy along the way.
- It's best to plan a short walk of an hour or less, depending on your child's age and stamina level. The easiest way to get them interested and excited is to involve them in every aspect of the planning. Depending on where you plan to go, that can mean packing a backpack with various items, plotting a route and talking beforehand about what to look out for.

Mature Tield Trips

- 1. Visit as many different habitats as you can find in your neighbourhood. Here's a checklist to see what you can find. River, stream or creek, lake or ocean, hill or mountain, meadow or field forest, desert.
- 2. Plan to spend an hour outside. It could be in a backyard, on a balcony, or in a park. Make a list of all the living things you see. Bring along a bird and bug book if you want to identify what you are seeing.

Games

- The Creature Guessing game is a fun way to fill the time when you are travelling.
- Who or What: Am I using different things found in nature. This game works best with a group of kids.

Mature Activities

- 1. Here's a fun way to grow plants indoor and create your own little pots.
- 2. Make rain sticks to create a rain storm inside.
- 3. Start a small garden. It could be herbs or lettuce in containers on the windowsill, or flowers in the garden.

Craft Projects

- 1. Make a Peek-a-boo box for different types of habitats.
- 2. Make your own butterflies.
- 3. Create your own animals.
- 4. Use paper mache to make your own tree.
- 5. Create your own snake.
- 6. Make a bouquet of flowers.
- 7. Create animals from fun foam.

TONG AND WATER PLAY:

Go outside to enjoy the summer evening with your kids in your garden and have some fine motor fun!

Things you need

- * Tongs
- ★ Big bowls
- *Foam
- ★Playing blocks
- *Water colour

- Fill two large bowls with water
- Add little colour to make it more attractive
- Now put the playing blocks and foam in water
- Keep different sized tongs to be used by the kids
- The kids will use the tongs to pick up floating block and foam from water

This does take a little practice for a child but they need to first understand how tongs work, then how much pressure to apply to squeeze them together, then how to pick up items from the water. The children will be happy just to work on their own problem solving!

NATURAL PAINT BRUSH

Make natural paint brushes in a fun activity that produces great results. Things you need

- * String
- * Evergreen leaves
- * Paint
- * Paper plates
- Go out for a nature walk and collect few evergreen leaves and twigs
- Lay the string out flat on the surface
- Layer the evergreen leaves until you have a good-sized brush
- Put the stick on the leaves and wrap the string twice around each paint brush so that the leaves would be secure
- Tie as many times as you have to in order for your leaves to stay in place Provide paints and chart paper to your child to have fun with his natural paint brush.

HOMEMADE WEAVING LOOM WITH POPSICLE STICKS

Weaving provides a wonderful opportunity for kids to discover patterns and textures and to encourage growth in fine motor skills and eye hand coordination.

Things you need

- * Popsicle sticks
- * Glue
- * Strings
- * Fabric ribbon
- Glue 4 popsicle sticks together into a square
- Cut long piece of string and wrap it around the sticks
- Adjust the lines of string by adding a drop of glue on the string where it wrapped around the popsicle stick to help hold in the place
- Cut some short pieces of fabric ribbon and place them in to a bowl next to little loom for the kids to use

What fun it would be for the kids to create art while working on fine motor skills at the same

BUTTON ART TREE

You will need

- *old buttons
- *canvas/hard chart
- *****paint
- * glue

We used a bare tree for our basic shape, but it would also be fun to fill a solid shape with buttons as well (a giant button heart, for example, would be really cute too!).

Collect your buttons and put them into a large pile. This step can also serve as a fantastic lesson about sorting by shape, size and colour for younger children.

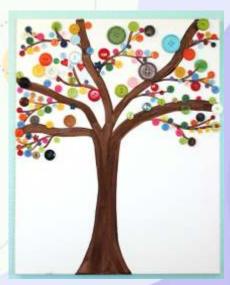

Use a small amount of Tacky Glue to attach the buttons to the canvas.

Continue adding buttons until you are satisfied with the way it looks. You can even choose to layer buttons upon buttons for extra

dimension! Allow glue to dry thoroughly before hanging.

"Children need the freedom to appreciate the infinite resources of their hands, their eyes and their ears, the resources of the forms, materials, sounds and colours"
